Lester Grau's and Chuck Bartles professional research on the Russian Armed Forces is widely read throughout the world and especially in Russia. Russia's Armed Forces have changed much since the large scale reforms of 2008 which brought the Russian Army to the level of the world's other leading armies. The speed of reform combined with limited information about their core mechanisms represented a difficult challenge to the authors. They have done a great job and created a book which could be called an encyclopedia of the modern armed forces of Russia. They used their wisdom and talents to explore vital elements of the Russian military machine: the system of recruitment and training, structure of units of different levels, methods and tactics in defense and offense and even such little known fields as the Arctic forces and the latest Russian combat robotics.

Dr Vadim Kozyulin, Professor of Military Science and Project Director, Project on Asian Security, Emerging Technologies and Global Security, Project PIR, Center Moscow. Probably the best book on the Russian Armed Forces published in North America during the past ten years. A must read for all analysts and professionals following Russian affairs. A reliable account of the strong and weak aspects of the Russian Army. Provides the first look on what the Russian Ministry of Defense learned from best Western practices and then applied them on Russian soil.

Ruslan Pukhov, Director of the Moscow based Centre for the Analysis of Strategies and Technologies (CAST) and member of the Public Council of the Russian Federation Ministry of Defense. Author of *Brothers Armed: Military Aspects of the Crisis in Ukraine*, *Russia's New Army* and *The Tanks of August*.

They also interpret the cases in the context of Russia's history and culture and offer a comprehensive framework for how Russian business and leadership could evolve to build the country's economy.

The New Russian Business Leaders will surely serve for years to come as an authoritative source for academics and practitioners seeking to understand the underlying dynamics of Russian business and its leaders.

Sheila M. Puffer, Northeastern University, Boston, US. In order to work effectively with Russian organizations, it is essential for potential Western partners and
