Entangled Art Histories in Ukraine

Stefaniia Demchuk, Illia Levchenko, 2024-11-29 This book explores ideologies conflicts and ideas that underpinned art historical writing in Ukraine in the 20th century Disciplinary beginnings testify both to its deep connection to Krakow Saint Petersburg and especially Vienna with its school of art history and originality of theoretical thought Art history started as another imperial project in Ukraine but ultimately transformed into the means of assertion of national identity The volume looks closely at the continuity and ruptures in scholarship caused by the establishment of Soviet power and challenges a number of existing stereotypes like total isolation under Communist rule and strict adherence to a Marxist Leninist methodology It showcases intellectual exchanges through published work personal contacts and ways to resist the politically enforced methodology Despite keeping the focus on one country it contributes to understanding the development of art history as an academic discipline in Europe more generally It also uncovers unknown or little researched personal and academic connections between art historians from Ukraine and their peers abroad Starting with the 19th century quest for the method and proceeding by disentangling the complexities of the 20th century the authors move on to the specifics of historiography after

the formal collapse of the USSR The volume transgresses purely academic boundaries and tackles the development of the discourse in periodicals exhibition spaces and public discussions Thus the findings will be pertinent to all interested in politics art history museum studies intellectual history historiography and Eastern European studies

Nineteenth-century Painters and Painting Geraldine Norman,1977-01-01 *Russian Cultural Penetration in Hungary* István Csicsery-Rónay,Mátyás Rákosi,Róbert Gábor,Yugoslavia,1951 **Art of Transition** Elise Herrala,2021-12-30 The dissolution of the Soviet Union brought a massive change in every domain of life particularly in the cultural sector where artists were suddenly free from party mandated modes of representation and now could promote and sell their work globally But in Russia the encounter with Western art markets was fraught The Russian field of art still remains on the periphery of the international art world struggling for legitimacy in the eyes of foreign experts and collectors This book examines the challenges Russian art world actors faced in building a field of art in a society undergoing rapid and significant economic political and social transformation and traces those challenges into the twenty first century Drawing on historical and ethnographic research Art of Transition traces the ways the field of art has developed evolved and been sustained in Russia after socialism It shows how Russia s art world has grappled with its Soviet past and negotiated its standing in an unequal globalized present By attending to the historical legacy of Russian art throughout the twentieth century this book constructs a genealogy of the contemporary field of postsocialist art that illuminates how Russians have come to understand themselves and their place in the world **Sustainable Development Risks and Risk Management** Elena G. Popkova,2023-10-19 This book is devoted to a systemic study of socio economic development risks arising in the Decade of Action as well as the prospects for risk management in support of sustainable development It aims to overcome fragmentary consideration of risks in the existing literature through their comprehensive coverage and the establishment of their interconnections from the perspective of sustainable development The novelty of this book is that it provides a comprehensive accounting of socio economic development risks in the Decade of Action as well as a rethinking of these risks from a sustainable development perspective The book also opens up the possibility of the most comprehensive and effective risk management in support of sustainable development The practical relevance of the book stems from the fact that it describes and discusses practical experience in detail and accompanies the theoretical material with numerous case studies including cases and frameworks with extensive coverage of international best practices The book is intended for scholars for whom the book forms a systemic scientific view of the risks of socio economic development arising in the Decade of Action as well as the prospects for risk management in support of sustainable development The book is also of interest to practitioners for whom it offers practical advice on risk management at all levels of the economy for sustainable development Many examples from different countries make the book attractive to a wide international audience The book is of particular interest to readers from Russia **Praeger Encyclopedia of Art** ,1971
