Two Decades of Re-Emerging Russia: Challenges and Prospects Mr Sanjay Deshpande, 2015-04-15 Russia has been re emerging as a major political and economic power during the last decade The leadership of Russia claims that the objectives of transition from the former one party socialist system to a plural multiparty democratic system and centralised planning to market economy are largely achieved Russia is politically stable and has demonstrated how new political institutions multiparty system are functioning under three presidents In the initial years after the disintegration of the Soviet Union the Russian economy passed through different phases such as crisis boom and recovery Russia has largely succeeded in managing its political and economic relations with Near Abroad which have witnessed considerable complexities over the last two decades Russia has demonstrated that its bilateral ties with India in the political and defence sectors have been consistently cordial and close However trade and economic relations need to be strengthened Notwithstanding its major achievements Russia has been facing several problems both in its domestic front and in its foreign relations Some of the major problems on the domestic front are over centralisation of power nexus between state authorities oligarchs and the

bureaucracy growing menace of corruption surging political reactions by political parties and some former powerful leaders on various political issues growing social discontent issues between different ethnic groups widening economic disparities among various sections of society and regions On the external front Russia has conflicts of interest with some former Soviet republics such as Georgia Moldova Ukraine and the Baltic states Russia's relations with the US and NATO have been highly critical on political and security related issues There is a need for an objective and critical evaluation of how Russia has managed its domestic and foreign affairs after the collapse of the Soviet Union What were the successes and failures of Russia in its policies and performance with regard to the social political and economic developments in the country This book is an attempt to assess those developments

Russia and Ukraine Myroslav Shkandrij, 2001-10-09 Concepts of civilizational superiority and redemptive assimilation widely held among nineteenth century Russian intellectuals helped to form stereotypes of Ukraine and Ukrainians in travel writings textbooks and historical fiction stereotypes that have been reactivated in ensuing decades Both Russian and Ukrainian writers have explored the politics of identity in the post Soviet period but while the canon of Russian imperial thought is well known the tradition of resistance B which in the Ukrainian case can be traced as far back as the meeting of the Russian and Ukrainian polities and cultures of the seventeenth century B is much less familiar Shkandrij demonstrates that Ukrainian literature has been marginalized in the interests of converting readers to imperial and assimilatory designs by emphasizing narratives of reunion and brotherhood and denying alterity
