Russias Steppe Frontier The Making Of A Colonial Empire 1500 18:

Russia's Steppe Frontier Michael Khodarkovsky, 2002-02-22 This study of Russia's colonial expansion across the Eurasian steppe is a tremendously important contribution to the field of Russian history Valerie Kivelson From the decline of the Mongol Golden Horde to the end of the 18th century the Russian government expanded its influence and power throughout its southern borderlands The process of incorporating these lands and peoples into the Russian Empire was not only a military and political struggle but also a cultural contest between the indigenous worlds of the steppe and Russian imperial hegemony Drawing on sources and archival materials in Russian and Turkic languages Michael Khodarkovsky presents a complex picture of the encounter between the Russian authorities and native peoples A major contribution to the comparative study of empires and frontiers no other work treats Moscow's colonial expansion to the south and east so competently Russia

The Russian Empire, Slaving and Liberation, 1480-1725 Christoph Witzentrath, 2022-11-21 The monograph realigns political culture and countermeasures against slave raids which increased during the breakup of the Golden Horde By physical defense of the open steppe border and by embracing the New Israel symbolism in which the exodus from slavery in Egypt prefigures the exodus of Russian captives from Tatar captivity Muscovites found a defensive model to expand empire Recent scholarly debates on slaving are innovatively applied to Russian and imperial history challenging entrenched perceptions of Muscovy

The Russian Empire 1450-1801 Nancy Shields Kollmann, 2017-02-09 Modern Russian identity and historical experience has been largely shaped by Russia's imperial past an empire that was founded in the early modern era and endures in large part today The Russian Empire 1450 1801 surveys how the areas that made up the empire were conquered and how they were governed It considers the Russian empire a Eurasian empire characterized by a politics of difference the rulers and their elites at the center defined the state's needs minimally with control over defense criminal law taxation and mobilization of resources and otherwise tolerated local religions languages cultures elites and institutions The center related to communities and religions vertically according each a modicum of rights and autonomies but didn't allow horizontal connections across nobilities townsmen or other groups potentially with common interests to coalesce Thus the Russian empire was multi ethnic and multi religious Nancy Kollmann gives detailed attention to the major ethnic and religious groups and surveys the government's strategies of governance centralized bureaucracy military reform and a changed judicial system The volume pays particular attention to the dissemination of a supranational ideology of political legitimacy in a variety of media written sources and primarily public ritual painting and particularly architecture Beginning with foundational features such as geography climate demography and geopolitical situation The Russian Empire 1450 1801 explores the empire's primarily agrarian economy serfdom towns and trade as well as the many religious groups primarily Orthodoxy Islam and Buddhism It tracks the emergence of an Imperial nobility and a national self consciousness that was by the end of the eighteenth century distinctly imperial embracing the diversity of the empire's many

peoples and cultures *The Russian General Staff and Asia, 1860-1917* Alex Marshall, 2006-11-22 This new book examines the role of the Tsarist General Staff in studying and administering Russia's Asian borderlands. It considers the nature of the Imperial Russian state, the institutional characteristics of the General Staff and Russia's relationship with Asia. During the nineteenth century, Russia was an important player in the so-called Great Game in central Asia. Between 1800 and 1917, officers of the Russian General Staff travelled extensively through Turkey, central Asia and the Far East, gathering intelligence that assisted in the formation of future war plans. It goes on to consider tactics of imperial expansion and the role of military intelligence and war planning with respect to important regions including the Caucasus, central Asia and the Far East. In the light of detailed archival research, it investigates objectively questions such as the possibility of Russia seizing the Bosphorus Straits and the probability of an expedition to India. Overall, this book provides a comprehensive account of the Russian General Staff, its role in Asia and of Russian military planning with respect to a region that remains highly strategically significant today.

Quest for Status Deborah Welch Larson, Alexei Shevchenko, 2019-01-01 A look at how the desire to improve international status affects Russia's and China's foreign policies. Deborah Welch Larson and Alexei Shevchenko argue that the desire for world status plays a key role in shaping the foreign policies of China and Russia. Applying social identity theory, the idea that individuals derive part of their identity from larger communities to nations, they contend that China and Russia have used various modes of emulation, competition and creativity to gain recognition from other countries and thus validate their respective identities. To make this argument, they analyze numerous cases, including Catherine the Great's attempts to westernize Russia, China's identity crises in the nineteenth century and both countries' responses to the end of the Cold War. The authors employ a multifaceted method of measuring status, factoring in influence and inclusion in multinational organizations, military clout and cultural sway among other considerations. Combined with historical precedent, this socio-psychological approach helps explain current trends in Russian and Chinese foreign policy.

The Kazakh Khanates between the Russian and Qing Empires Jin Noda, 2016-04-08 In *The Kazakh Khanates between the Russian and Qing Empires*, Jin Noda examines the foreign relations of the Kazakh Chinggisid sultans and the Russian and Qing empires during the 18th and 19th centuries. Noda makes use of both Russian and Qing archival documents as well as local Islamic sources. Through analysis of each party's claims, mainly reflected in the Russian-Qing negotiations regarding Central Eurasia, the book describes the role played by the Kazakh nomads in tying together the three regions of eastern Kazakhstan, the Kazakh steppe, Western Siberia and Xinjiang.

Russia and Central Asia Shoshana Keller, 2019-11-04 *Russia and Central Asia* provides an overview of the relationship between two dynamic regions, highlighting the ways in which Russia and Central Asia have influenced and been influenced by Europe, Asia and the Middle East. This readable synthesis, covering early coexistence in the seventeenth century to the present day, seeks to encourage new ways of thinking about how the modern world developed. Shoshana Keller focuses on the five major states: Kazakhstan, Kyrgyzstan, Tajikistan, Uzbekistan and

Turkmenistan Cultural and social history are interwoven with the military narrative to provide a sense of the people their religion and their practices all of which were severely tested under Stalin The text includes a glossary as well as images and maps that help to highlight 500 years of changes bringing Central Asia into the general narrative of Russian and world history and introducing a fresh perspective on colonialism and modernity **Peopling the Russian Periphery** Nicholas Breyfogle, Abby Schrader, Willard Sunderland, 2007-11-02 Though usually forgotten in general surveys of European colonization the Russians were among the greatest colonizers of the Old World eventually settling across most of the immense expanse of Northern Europe and Asia from the Baltic and the Pacific and from the Arctic Ocean to Central Asia This book makes a unique contribution to our understanding of the Eurasian past by examining the policies practices cultural representations and daily life experiences of Slavic settlement in non Russian regions of Eurasia from the time of Ivan the Terrible to the nuclear era The movement of tens of millions of Slavic settlers was a central component of Russian empire building and of the everyday life of numerous social and ethnic groups and remains a crucial regional security issue today yet it remains relatively understudied Peopling the Russian Periphery redresses this omission through a detailed exploration of the varied meanings and dynamics of Slavic settlement from the sixteenth century to the 1960s Providing an account of the different approaches of settlement and expansion that were adopted in different periods of history it includes detailed case studies of particular episodes of migration Written by upcoming and established experts in Russian history with exceptional geographical and chronological breadth this book provides a thorough examination of the history of Slavic settlement and migration from the Muscovite to the Soviet era It will be of great interest to students and scholars of Russian history comparative history of colonization migration interethnic contact environmental history and European Imperialism

Russian Orthodoxy and Islam each of which sought to solidify its influence among the frontier's mix of Turkic Finno-Ugric and Slavic peoples. The immediate catalyst of the events that Agnes Nilufer Kefeli chronicles in *Becoming Muslim in Imperial Russia* was the collective turn to Islam by many of the region's Krashens, the Muslim and animist Tatars who converted to Russian Orthodoxy between the sixteenth and eighteenth centuries. The traditional view holds that the apostates had really been Muslim all along or that their conversions had been forced by the state or undertaken voluntarily as a matter of convenience. In Kefeli's view, this argument vastly oversimplifies the complexity of a region where many participated in the religious cultures of both Islam and Orthodox Christianity and where a vibrant Krashen community has survived to the present. By analyzing Russian Eurasian and Central Asian ethnographic, administrative, literary, and missionary sources, Kefeli shows how traditional education with Sufi mystical components helped to Islamize Finno-Ugric and Turkic peoples in the Kama-Volga countryside and set the stage for the development of modernist Islam in Russia. Of particular interest is Kefeli's emphasis on the role that Tatar women, both Krashen and Muslim, played as holders and transmitters of Sufi knowledge. Today, she notes, intellectuals and mullahs in Tatarstan seek to revive both Sufi and modernist traditions to counteract new expressions of Islam and promote a purely Tatar Islam aware of its specificity in a post-Christian and secular environment.

1837 Paul W. Werth, 2021. 1837 was a critical moment in Russia's history. The year's noteworthy occurrences extend from the realms of culture, religion, and ideas to those of empire, politics, and industry. This book argues that the 1830s in Russia were a period of dynamism and culture and that 1837 was pivotal for the country's entry into the modern age. **A History of Crimea** Kerstin S. Jobst, 2024-12-12. With the Russian annexation of Crimea in March 2014, 160 years after the Crimean War, the peninsula has come to the geopolitical fore once more on the global stage. This book provides a comprehensive history of the region that until now has been missing: one that stretches from ancient times through to the present and which explores various aspects and inhabitants through the ages. Kerstin S. Jobst examines the complex history of the multi-ethnic and pluri-religious Crimea and not only from a political perspective. Jobst deals with the manifold cultural and historical interdependencies that are central to the territory. The book presents myths and legends about the Crimea as well as the various peoples for whom the Crimea was a settlement and transit area and who shaped the fate of the peninsula. These included Greek colonists, Eurasian nomads, Crimean Tatars, and others. *A History of Crimea* shows the importance of Crimea as a place of early Christianity but also as a contact zone between different religions: Christianity, Judaism, and Islam. It also emphasizes the role of the peninsula as a peripheral area of various great powers: the Roman Empire, Byzantium, the Golden Horde, and the Ottoman and Russian Empires. With this overview of 2,000 years of Crimea's history, Kerstin S. Jobst places the most recent explosive events on the peninsula in their historical context and shows how the Crimea has become for the majority of Russians a highly emotionalized space since the first Russian annexation in 1783. to a lesser degree the Mameluke Empire Then followed four centuries during which the highly fragmented polities of the North and South Caucasus became political pawns of the regional great powers above all the Ottomans Iran and Russia In the wake of World War I the South Caucasus enjoyed a short lived independence whereas its northern neighbours were engulfed by the Russian civil wars But by 1921 the Soviet Union had re established Russian dominance over the whole region and from a Western perspective the region disappeared behind the Iron Curtain Nevertheless the Caucasian nations kept their pronounced identities even under Soviet rule giving rise at the dissolution of the Soviet Union to a number of internecine conflicts Whereas the Russian Federation managed to maintain its supremacy over the North Caucasus albeit at the cost of bloody wars and insurrections Armenia Azerbaijan and Georgia succeeded in more or less gaining control over their destiny Of these three republics only Azerbaijan secured a wide ranging independence thanks to its fossil fuel resources Following Russian interference Georgia lost control over two of its provinces while Armenia remains dependent on Russian support in the face of its notoriously antagonistic relations with neighbouring Azerbaijan and Turkey over the unresolved issue of Karabakh In the Shadow of Great Powers includes some 200 full colour images and maps which further bring the turbulent history of this region to light
