Russische Kunst:

100 Years On: Revisiting the First Russian Art Exhibition of 1922 Isabel Wünsche, Miriam Leimer, 2022-12-12 The First Russian Art Exhibition Erste Russische Kunstaussstellung which opened at the Galerie van Diemen in Berlin on October 15 1922 and later travelled to Amsterdam introduced a broad Western audience to the most recent artistic developments in Russia The extensive show more than a thousand works including paintings graphic works sculptures stage designs architectural models and works of porcelain was remarkably inclusive in its scope which ranged from traditional figurative painting to the latest constructions of the Russian avant garde Coming on the heels of the Treaty of Rapallo the exhibition was a first cultural step towards bilateral relations between two young and yet internationally isolated new states the Weimar Republic and the Russian Soviet Republic Moving away from the narrow focus on the avant garde the volume presents new research that examines the exhibition's broader historical scope and cultural implications The reception of the exhibition within artistic circles in Germany Europe the United States and Japan in the 1920s is addressed as well as the disposition of many of the works exhibited The combination of longer thematic essays and short features along with reproductions of newly identified works and a selection of unpublished archival materials make this book valuable to both a scholarly and a general readership

Nineteenth-century Painters and Painting Geraldine Norman, 1977-01-01 *Modernism and the Spiritual in Russian Art* Louise Hardiman, Nicola Kozicharow, 2017-11-13 In 1911 Vasily Kandinsky published the first edition of *On the Spiritual in Art* a landmark modernist treatise in which he sought to reframe the meaning of art and the true role of the artist For many artists of late Imperial Russia a culture deeply influenced by the regime's adoption of Byzantine Orthodoxy centuries before questions of religion and spirituality were of paramount importance As artists and the wider art community experimented with new ideas and interpretations at the dawn of the twentieth century their relationship with the spiritual broadly defined was inextricably linked to their roles as pioneers of modernism This diverse collection of essays introduces new and stimulating approaches to the ongoing debate as to how Russian artistic modernism engaged with questions of spirituality in the late nineteenth to mid twentieth centuries Ten chapters from emerging and established voices offer new perspectives on Kandinsky and other familiar names such as Kazimir Malevich Mikhail Larionov and Natalia Goncharova and introduce less well known figures such as the Georgian artists Ucha Japaridze and Lado Gudiashvili and the craftswoman and art promoter Aleksandra Pogosskaia Prefaced by a lively and informative introduction by Louise Hardiman and Nicola Kozicharow that sets these perspectives in their historical and critical context *Modernism and the Spiritual in Russian Art* New Perspectives enriches our understanding of the modernist period and breaks new ground in its re-examination of the role of religion and spirituality in the visual arts in late Imperial Russia Of interest to historians and enthusiasts of Russian art culture and religion and those of international modernism and the avant garde it offers innovative readings of a history only partially explored revealing uncharted corners and challenging long held assumptions Über

 Hjartarson, Margarida Brito Alves, 2024-12-16 How has the process of globalization shaped artistic practices on the one hand
 and art history and theory on the other The contributions in this volume approach this question from a range of perspectives
 taking into account the role of travel for example or practitioners increasing knowledge of other cultures art s increasing
 awareness of itself as existing on a global level literary translation the advance of technology and the ever changing grand

 Russian artists and writers came into wide contact with modern European art and ideas Introducing a wealth of little known
 material set in an illuminating interpretive context this sourcebook presents Russian and Soviet views of Western art during
 this critical period of cultural transformation The writings document complex responses to these works and ideas before the

Eastern Europe , 2023-08-14 The opening up and subsequent tearing down of the Berlin Wall in 1989 effectively ended a
 historically unique period for Europe that had drastically changed its face over a period of fifty years and redefined in all
 sorts of ways what was meant by East and West For Germany in particular this radical change meant much more than
 unification of the divided country although initially this process seemed to consume all of the country s energies and
 emotions While the period of the Cold War saw the emergence of a Federal Republic distinctly Western in orientation the
 coming down of the Iron Curtain meant that Germany s relationship with its traditional neighbours to the East and the South
 East which had been essentially frozen or redefined in different ways for the two German states by the Cold War had to be
 rediscovered This volume which brings together scholars in German Studies from the United States Germany and other
 European countries examines the history of the relationship between Germany and Eastern Europe and the opportunities

presented by the changes of the 1990 s drawing particular attention to the interaction between the willingness of German and its Eastern neighbours to work for political and economic integration on the one hand and the cultural and social problems that stem from old prejudices and unresolved disputes left over from the Second World War on the other

Kazimir Malevich Rainer Crone,David Moos,1991 Malevich s sudden and startling realization of a non objective way of painting which he termed Suprematism stands as a seminal moment in the history of twentieth century art Rainer Crone and David Moos trace the artist s development from his beginnings in the Ukraine and early years in Moscow where he was closely involved in the Futurist circle through to the late 1920s and beyond The authors of this book convincingly demonstrate that it is only through a close and sustained reading of Malevich s late and still widely misunderstood painterly oeuvre that his extraordinarily inventive stance can truly be comprehended Crone and Moos trace the close relationship between Malevich s practice and other contemporary non political revolutions in physics linguistics and poetry They present Malevich as a uniquely creative artist embodying in his work many of the insights and discoveries that define the twentieth century and the condition of modern life *Russian Modernism* Jean-Louis Cohen,David Woodruff,Ljiljana Grubisic,1997

The Humanities between Global Integration and Cultural Diversity Hans G. Kippenberg, Birgit Mersmann, 2016-03-21 Modernization and digital globalization have proven to mark major thresholds where paradigmatic shifts and realignments take place This volume aims to capture the reconfiguration of humanistic study between the forces of global integration and cultural diversification from a full range of disciplines within the humanities and social sciences The key issue is discussed in three major parts The first chapter examines transnational interpolations of the humanities as potential indicator for a globalizing humanistic research The second chapter deals with humanistic revisions of modernity with and against globality The third chapter discusses the ambiguous constitution of cultural diversity as a complement and counter movement to global integration ideologically moving between social cohesion and exclusion The final chapter outlines what the threshold crossing from modern to global humanities will mean for the future of humanistic research The multidisciplinary study of culture within the history of the humanities documents and reflects the mobility and migration of its concepts and methods moving and translating between disciplines research traditions historical periods academic institutions and the public sphere

Musical Ekphrasis in Rilke's Marien-Leben Siglind Bruhn, 2000 In 1923 the twenty seven year old Paul Hindemith published a composition for voice and piano entitled *Das Marienleben* based on Rainer Maria Rilke's poetic cycle of 1912 Twenty five years later the composer presented a thoroughly revised partially rewritten version The outcome of this revision has been highly controversial Ever since its first publication musicologists have argued for or against the value of such a decisive rewriting They do so both by comparing the two compositions on purely musical grounds and by attempting to assess whether the more strictly organized tonal layout and dynamic structuring of *Marienleben II* is more or less appropriate for the topic of a poetic cycle on the Life of Mary This study is the first to analyze the messages conveyed in the two versions with an emphasis on their implicit aesthetic philosophical and spiritual significance Acknowledging the compositions as examples of musical ekphrasis a representation in one artistic medium of a message originally composed in another medium the author argues in exhaustive detail that the young Hindemith of 1922-23 and the mature composer of 1941-48 can be seen as setting two somewhat different poetic cycles This volume is of interest for musicologists and music lovers scholars of German literature and lovers of Rilke's poetry as well as for readers interested in the interartistic relationships of music and literature
