Rusted Dreams Hard Times In A Steel Community:

Rusted Dreams David Bensman,1988 **Steel and Steelworkers** John Hinshaw,2012-02-01 Steel and Steelworkers is a fascinating account of the forces that shaped Pittsburgh big business and labor through the city's rapid industrialization in the mid nineteenth century its lengthy era of industrial maturity its precipitous deindustrialization toward the end of the twentieth century and its reinvention from hell with the lid off to America's most livable post industrial city Hinshaw examined a wide variety of company union and government documents oral histories and newspapers to reconstruct the steel industry and the efforts of labor business and government to refashion it A compelling report of industrialization and deindustrialization in which questions of organization power and politics prove as important as economics Steel and Steelworkers shows the ways in which big business and labor helped determine the fate of steel and Pittsburgh The Industrial Revolution in America Kevin Hillstrom,Laurie Collier Hillstrom,2005-04-25 An impressive set of books on the Industrial Revolution these comprehensive volumes cover the history of steam shipping iron and steel production and railroads three interrelated enterprises that helped shift the Industrial Revolution into overdrive The first set of volumes in ABC CLIO's breakthrough Industrial Revolution in America series features separate histories of three closely related industries whose maturation fueled the Industrial Revolution in the United States during the late 19th and 20th centuries fundamentally changing the way Americans lived their lives With this set students will learn how the steamship the first great American contribution to the world's technology helped turn the nation's waterways into a forerunner of our superhighways how the Andrew Carnegie led American steel industry surpassed its British rivals marking a momentous power shift among industrialized nations and how the railroads spurred by some of the United States's most dynamic entrepreneurs Cornelius Vanderbilt John Pierpont Morgan Jay Gould moved from a single transcontinental link to become the most influential and far reaching technological innovation of the Industrial Age extending into virtually every facet of American culture and commerce **Down & Out, on the Road** Kenneth L. Kusmer,2002 A definitive history of homelessness in the United States page 4 of cover **American Empire** Joshua Freeman,2013-08-06 A landmark history of postwar America and the second volume in the Penguin History of the United States series edited by Eric Foner In this momentous work acclaimed labor historian Joshua B Freeman presents an epic portrait of the United States in the latter half of the twentieth century revealing a nation galvanized by change even as conflict seethed within its borders Beginning in 1945 he charts the astounding rise of the labor movement and its pitched struggle with the bastions of American capitalism in the 1940s and 50s untangling the complicated threads between the workers agenda and that of the civil rights and women's movements Through the lens of civil rights the Cold War struggle and the labor movement American Empire teaches us something profound about our past while illuminating the issues that continue to animate American political discourse today *Making a New Deal* Lizabeth Cohen,2014-11-06 This book examines how it was possible and what it meant for ordinary factory workers to become

effective unionists and national political participants by the mid 1930s We follow Chicago workers as they make choices about whether to attend ethnic benefit society meetings or to go to the movies whether to shop in local neighborhood stores or patronize the new A P As they made daily decisions like these they declared their loyalty in ways that would ultimately have political significance When the depression worsened in the 1930s workers adopted new ideological perspectives and overcame longstanding divisions among themselves to mount new kinds of collective action Chicago workers experiences all converged to make them into New Deal Democrats and CIO unionists First printed in 1990 Making a New Deal has become an established classic in American history The second edition includes a new preface by Elizabeth Cohen

Latino Language and Literacy in Ethnolinguistic Chicago Marcia Farr, 2005-01-03 This volume along with its companion Ethnolinguistic Chicago Language and Literacy in the City's Neighborhoods fills an important gap in research on Chicago and more generally on language use in globalized metropolitan areas Often cited as a quintessential American city Chicago is and always has been a city of immigrants It is one of the most linguistically diverse cities in the United States and home to one of the largest and most diverse Latino communities Although language is unquestionably central to social identity and Chicago has been well studied by scholars interested in ethnicity until now no one has focused as do the contributors to these volumes on the related issues of language and ethnicity Latino Language and Literacy in Ethnolinguistic Chicago includes ethnographic studies based in home settings that focus on ways of speaking and literacy practices studies that explore oral language use and literacy practices in school contexts and studies based in community spaces in various neighborhoods It offers a rich set of portraits emphasizing language use as centrally related to ethnic class or gender identities As such it is relevant for anthropologists sociologists linguists historians educators and educational researchers and others whose concerns require an understanding of ground level phenomena relevant to contemporary social issues and as a text for courses in these areas

The Jobless Future Stanley Aronowitz, 1994 The Jobless Future challenges beliefs in the utopian promise of a knowledge based high technology economy Reviewing a vast body of encouraging literature about the postindustrial age Aronowitz and DiFazio conclude that neither theory history nor contemporary evidence warrants optimism about a technological economic order Instead they demonstrate the shift toward a massive displacement of employees at all levels and a large scale degradation of the labor force As they clearly chart a major change in the nature scope and amount of paid work the authors suggest that notions of justice and the good life based on full employment must change radically as well They close by proposing alternatives to our dying job culture that might help us sustain ourselves and our well being in a science and technology based economic future

One alternative discussed is reducing the workday to fewer hours without reducing pay Social Work Intervention in an Economic Crisis Martha Baum, Pamela Twiss, 2014-03-18 With the collapse of the steel industry in the 1980s economic devastation hit the Pittsburgh Pennsylvania region Social Work Intervention in an Economic Crisis strives to deepen understanding of the impact of the economic tragedy in the Pittsburgh region and to present social workers efforts to enhance recovery This case study serves as a model for social workers human service educators and agency personnel public health professionals community organizers policymakers economic strategists and researchers in social work public health sociology anthropology and political science to design and implement human service interventions for similar communities using techniques of action research community organization and demonstration projects Social Work Intervention in an Economic Crisis shows readers relatively simple and highly effective ways of assessing the social economic situation in their given geographical area This allows professionals to be in touch with their surrounding communities and estimate the clientele to be served their particular needs and their abilities to access services Chapters in Social Work Intervention in an Economic Crisis describe the responses of local institutions the roles of informal and formal support networks and the economic devastation inflicted upon individuals households and whole communities To this end Hide Yamatani Lambert Maguire Robin K Rogers and Mary Lou O Kennedy take the socioeconomic pulse of six communities launching a longitudinal monitoring effort that can be replicated elsewhere for long range planning and intervention Martha Baum Barbara K Shore and Kathy Fleissner address the special problems women face Mary Page and Myrna Silverman focus upon the elderly and their families Phyllis D Coontz Judith A Martin and Edward W Sites look at fathers facing altered childrearing and Lambert Maguire and Hide Yamatani discuss youth facing altered economic opportunities With this knowledge in hand readers acquire skills for using action research to assess how economic tragedy affects people s lives mobilizing appropriate actors to engage in intervention learning from community groups and leaders about their concerns to work with them rather than for them recognizing the properties of community cohesion versus fragmentation as they affect efforts of renewal identifying individuals and families suffering most under economic devastation realizing the limits of micro level intervention generating macro policies at the state and federal levels disseminating findings from action research and intervention demonstration efforts Finally Social Work Intervention in an Economic Crisis offers proposals for new societal mechanisms that might reduce the impact of future recessions The findings and policy proposals set forth in this book help households and institutions deal with the effects of economic change which continue to afflict many families and small communities in the 1990s
