Human,Zorodzai (Zoro) Dube,Gerda de Villiers,P.G.J. (Piet) Meiring,Jerry Pillay,Wayne G. Smith,Christo Thesnaar,John Robert van Niekerk,Ernest van Eck,Tanya van Wyk,Pieter M. Venter,Johan M. van der Merwe,2017-11-28 This book provides a coherent and conceptual portrayal of aspects of the theological research theme entitled Ecodomy literally meaning to build a house In its figurative meaning the term Ecodomy addresses the theme life in its fullness This fullness of life entails a polarity which is inherently part of life namely its brokenness and its wholeness From various theological disciplines namely Old Testament Studies New Testament Studies Systematic Theology Church History and Practical Theology both the brokenness and wholeness are addressed theologically Every chapter focuses on a specific theological discipline while the combination of theological disciplines addresses the brokenness and wholeness of life

as coherent concept One pole does not exclude the other Brokenness is visible in current or recent very relevant societal challenges such as racism and xenophobia apartheid foreignness and exclusivism leadership crises and violence In contrast wholeness is embedded in themes such as the African concept of ubuntu a life of faith and wisdom reconciling leadership or transforming space and community Ultimately a Greek term persistence is connected to the meaning of Ecodomy and life in its fullness Several methodologies have been used in the different contributions of the book Every theological discipline applies a different methodology for the purpose of exposing a specific topic or research theme In general the contributions in this book follow a combination of a literature study with the further application of diachronic and synchronic exegetical methods In addition single contributions follow an own hermeneutical approach Not one single contribution but a combination of different theological disciplines which form the concepts of brokenness and wholeness life in its fullness which expose the polarity of life are included in this book In its exposed interdisciplinary interwovenness the book provides a tapestry of how different theological disciplines are combined into a single theme and how they contribute together by means of theological analyses and attempted building blocks to build the broken houses of societal structures or human life The book contributes to selected aspects of broken life in society and the healing experiences of human life Several themes touch on recent and relevant challenges which have contributed to the brokenness of life Not only in South Africa but globally these are currently relevant themes They include realities of racism and xenophobia apartheid foreignness and exclusivism leadership crises and violence With the focus on wholeness specific attention is given to the African concept of ubuntu a life of faith and wisdom reconciling leadership and transforming space and society A Greek term insolence as in keeping on asking Lk 11 8 illuminates the theme of Ecodomy from the perspective of a parable The target audience of the book is academic scholars and theologians who specialise in the different fields of Theology the Humanities and other Social Sciences Furthermore the book is also accessible to scholars of other academic disciplines outside these disciplines The book contains original research and contributions have not been plagiarised from publications elsewhere

Leviticus Frank H. Gorman, 1998-01-08 This commentary by Frank Gorman shows how Leviticus though focusing largely on matters associated with the Levitical priesthood is also important to laypeople Gorman addresses the question of Israelite identity and what it means to be people of God Through a careful application of exegesis and exposition he shows that Leviticus is foremost a call to holiness a weaving together of ritual and ethical issues to provide the community with a means for enacting and actualizing covenant relationship

A History of the Jews and Judaism in the Second Temple Period (vol. 1) Lester L. Grabbe, 2006-07-27 In the first of four volumes on A History of the Jews and Judaism in the Second Temple Period Lester Grabbe presents a comprehensive history of Yehud the Aramaic name for Judah during the Persian Period Among the many crucial questions he addresses are What are the sources for this period and how do we evaluate them And how do we make them speak to us through the fog of centuries This first volume Yehud A History of the Persian Province of Judah offers the

most up to date and comprehensive examination of the political and administrative structures the society and economy the religion temple and cult the developments in thought and literature and the major political events of Judah at the time

Journeying with God Katharine Doob Sakenfeld, 1995 Although little studied by most Christians the book of Numbers offers a rich storehouse of material for reflection on the relationship between God and the human community This excellent commentary highlights this theme in the context of interpreting the many strange and obscure stories and laws of Israel s wilderness journey
