Ruusun Aika 1 :

Media in Motion Elisabeth Eide, 2016-04-29 Owing to increased migration dating from the 1990s Nordic countries have gone through substantial cultural and social changes resulting in increased debate surrounding the politics of multiculturalism One of the central realms of the discussion around multiculturalism in the Nordic region concerns the media which is considered to be a vital factor in the construction of society's values as well as an essential tool in the integration process of migrants providing as it does a symbolic arena for learning about and becoming part of society This collection draws together the latest research from Denmark Finland Norway and Sweden to look at different aspects of the relationship between media and migration in the Nordic region Exploring the role played by the media in nation building and the power of the media in the definition of who belongs in society Media in Motion examines the practices of inclusion and exclusion that characterise mainstream media representations The book also examines the manner in which recent technological changes suggest the emergence of a transnational and cosmopolitan media landscape a space which blurs the boundaries of the national and transnational as well as between the public and the private with significant implications for the ways migrants may take and become part of society As such it will be of interest to those working in the fields of media race and ethnicity colonialism and postcolonial studies and migration

The Triumph of the Innocents William Holman Hunt, The flight into Egypt I have assumed to have occurred about sixteen months after the birth of Jesus Guided by Christian tradition and holding the birth of our Lord to have taken place in December it follows that the period which I have assigned to the Flight into Egypt is the second April in His life During the spring time rich in flowers and first fruits the Holy Travellers are represented as passing across the Philistine plain on the road to Gaza at a distance of about thirty miles from their point of departure The night is far spent While the declining moon sheds its last rays on the natural objects in the picture unearthly light reveals the embodied spirits of the martyred Innocents advancing in procession The Virgin is seated on a she ass of the breed now known as the Mecca race and the foal follows its mother as is seen to this day in the East Signal fires still lit in Syria in time of trouble are burning on the slope looking down from the tableland St Joseph is watching these fires intent on discovering any signs that may present themselves of a movement of soldiery upon the road Of the trees that enrich the landscape the nearest ones shelter a water wheel used for the irrigation of the land The more remote group clusters round a village with its few huts visible by the lights that burn within Having left the colder climate of the high country then thickly populated and well cultivated the fugitives have descended into the rich and more balmy atmosphere of the plain As they advance nearer and nearer to a place of safety they feel the blessed relief of a sense of peace after disturbance and terror
