The United Nations Convention on the Law of the Sea Kristina Siig, Birgit Feldtmann, Fenella M.W. Billing, 2023-10-09 The 1982 United Nations Convention on the Law of the Sea UNCLOS has for four decades been considered by many to be one of the most important legislative achievements of international law. It is revered as a constitution of the oceans providing the legal framework for the governance of the oceans. This volume explores how the UNCLOS is functioning in various complex settings, how it adapts to new emerging developments as well as how it interacts with other regulation both within the law of the sea regime and outside. Engaging in themes such as law and order at sea, UNCLOS interaction with human rights and the role of private actors, the book raises complex questions in the application, understanding and enforcement of the convention and how it can be envisaged, interpreted and used in a dynamic world. The volume also raises methodological questions the answers to which may enhance the predictability and coherence of the law under UNCLOS and thus secure its role as the predominant and relevant system for legal governance at sea for many decades to come. As a contribution to ensuring the future relevance of UNCLOS, the book will be a valuable resource for scholars, diplomats, judges and other practitioners who are working with and interpreting the law of the sea and related issues of maritime law, migration law, human rights law and humanitarian law. Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial CC BY NC 4.0 license.
