Practical Sacramental Theology Bruce T. Morrill, 2021-09-09 What motivates practice of the liturgy and sacramental rites of the church Does the worship of God begin and end within each ritual enactment or does the truth and value of sacramental celebration reside in the broader context of Christian life in church and society For more than two decades prominent Jesuit sacramental liturgical theologian Bruce Morrill has explored the promise and problems inherent in the Second Vatican Council s call to renew liturgy s basic purpose namely the glorification of God and the sanctification of people Morrill s fundamental argument is that this ancient Christian principle is of a piece that divine glory and human holiness are so to speak two sides of a single coin The value of liturgy and sacraments is depleted if not lost unless they function within a holistic practice of faith that seeks the upbuilding of ethical lives personal and social With numerous real life examples plus references to current sociological studies the chapters address both modern challenges to and biblical and traditional resources for the celebration of sacramental rites today

The Shape of Participation L. Roger

Owens,2010-03-01 The Shape of Participation is a work of constructive theology addressed to theologians seminarians and thoughtful pastors Owens engages and deepens recent popular discussions of church practices by approaching practices from the church Fathers understanding of the church s participation in God Through a wide ranging engagement with theologians both ancient and contemporary including Cyril of Alexandria Maximus the Confessor Dietrich Bonhoeffer and Herbert McCabe Owens argues that the embodied practices of the church are the church s participation in the life of God making the church Jesus s own continued peaceable embodiment in and for the world This book is for theologians pastors and anyone who wants a deeper understanding of how the visible presence of God s church is extraordinarily good news in a violent world I m grateful for this account of the church s relationship to the life of God for refusing the hopelessness of so much contemporary ecclesiology All of us who persist in preaching or hearing the Word and receiving God s good gifts at the table will be strengthened and encouraged by Owens s theocentric understanding of what the church is up to in the world Beth Felker Jones wheaton College A wonderful book Owens takes the significant interest in practices that has emerged over the last decade engages it theologically in rich ways with attention to specific ecclesial examples and deepens it through insightful analyses of Dietrich Bonhoeffer Herbert McCabe and Maximus the Confessor Pastors and scholars alike will benefit from careful study of Owens s significant argument L Gregory Jones Duke University By reframing the church s practices as a participation in Christ and indeed as Christ s own practicing in and for the world Owens has brought to the study of Christian practice new theological depth shape and creativity Moreover by doing this in dialogue with ancient as well as contemporary theological and philosophical sources and in a way that takes seriously the concrete embodied church rather than remaining on the level of idealized and abstract ecclesiology he has provided us a helpful new model for thinking about what it means to be the church Bryan Stone Boston University School of Theology

Theology of Liturgical Participation R. Gabriel Pivarnik, 2013-01-01 Half a century after the Second Vatican Council called for the active participation of the laity in the liturgy a comprehensive theology of what liturgical participation actually means remains elusive While most sacramental studies have highlighted the role and action of Christ the conciliar reform and the theology that emanated from it call for a deeper trinitarian understanding of the liturgy and sacraments In this fascinating new work Gabriel Pivarnik identifies the major theological developments in the concept of active participation of the last century most notably in Mediator Dei and the Vatican II documents He also considers the reception of those developments Drawing especially on the work of Cipriano Vagaggini and Edward Kilmartin Pivarnik offers a lucid demonstration of how liturgical participation can be viewed in metaphysical soteriological and ecclesiological terms through the lens of a trinitarian narrative **The Church** Thomas Zanzig, 1996 The older teens in your parish want a youth ministry program that exposes them to relevant real world topics in an active engaging way Horizons is an innovative comprehensive approach to religious education Its foundation is teacher led creative learning strategies that give students ample opportunities for discussion reflection and fun Designed for grades 9 12 Horizons utilizes a module system so that you can combine courses and topics to meet the specific needs of your parish Seven core courses set the stage for discussing central and foundational themes Then choose from a wide selection of age appropriate minicourses to round out your curriculum and craft summer courses retreats and youth group activities The Youth Ministry Strategies component features more than 65 creative youth activities to complement the Horizons curriculum And on top of all that Horizons includes outstanding training resources You ll be able to create the most engaging and relevant youth ministry program for senior high that is available anywhere *Sacraments and Prayer Catechist's Guide* Patricia Clement, 2009-02 This faith formation program introduces young Catholic adolescents to Jesus Christ in a new way and inspires them to follow him Fostering the faith of young adolescents involves helping them to make connections between the Catholic faith and everyday life **Christian**

Sacraments in a Postmodern World Kenan B. Osborne, 1999 Christian Sacraments in a Postmodern World offers a fresh perspective on the sacramental event by bringing together two generally unrelated subjects in a new way sacramental theology and postmodern philosophical thought Osborne shows in an innovative way how these two factors of third millennium life can be positively united to encourage powerful new thinking on the ways we Christians not only theorize about sacraments but also live sacraments Using a key section on sacraments from the Catechism of the Catholic Church and by employing foundational concepts of postmodern philosophy and several issues from medieval Franciscan philosophy the author develops a distinctly different approach to sacrament events Here is a visionary thoughtful work by a major theologian writer and educator It is sure to stir thinking and discussion among theologians philosophers liturgists and religious educators

The Active Participation of the Faithful in the Eucharist on the Basis of Common Priesthood Stella Adamma Nneji, 2018-06-15 One of the significant points of the Second Vatican Council is its emphasis on the status of the lay faithful in the church which includes active participation in the life of faith The council spoke of the active participation of all the faithful in liturgical celebrations on the basis of the common priesthood of the faithful which is conferred during baptism and through which every believer shares in the priestly kingly and prophetic offices of Christ In this book Stella Nneji develops an ecclesiological critical reflection on the teaching of the Second Vatican Council with regard to active participation Focusing especially on the church as people of God Nneji shows how the idea of participation is not merely a passive action but an active one Based on the ecclesiological reflection on the

church as people of God and its relevance for active participation she maintains that Vatican II's vision on active participation is relevant to the upbuilding of the body of Christ church. This vision integrates a critical thinking especially regarding those places where the implementation of Vatican II's teachings seems difficult. **The Living Church**, 1947
