Sacred Cow And The Abominable Pig Riddles Of Food And Culture:

The Sacred Cow and the Abominable Pig Marvin Harris, 1987 *The Pig and I* Kristoffer Endresen, 2023-10-17 In this lively and fascinating book a guilt ridden bacon loving journalist finds work at an industrial pig farm as he researches the long and torrid history of humans and swine After convincing a skeptical pig farmer to take him on as a hired hand for six months journalist Kristoffer Endresen follows a litter of piglets from birth to slaughter all in the hopes of understanding what goes on inside an industrial pig farm and whether humans can ethically justify eating pork which just so happens to be the most consumed animal protein in the world During his days as a beginner pig wrangler he mucks out pig pens and cuddles a cute piglet He inseminates a female pig and narrowly escapes being trampled Endresen interweaves his fast times at a piggery with surprising insights into the long and star crossed bond between pigs and humans drawing on history literature archeology and myth and shares new science into video game playing swine and pig heart transplants and asks if pigs really are as smart as we think Both an engaging saga of an overlooked animal and a provocative exploration of the ethics of industrial meat *The Pig and I* asks us to consider not only where our food comes from but also the tangled history that first brought it to our plates *Gastronaut* Stefan Gates, 2006 An irreverent journey through the culinary world of the exotic the bizarre and the truly extraordinary *Gastronaut* is equal parts cookbook and quest book This hilarious journey through some of the strangest food experiences past and present is divided into three levels of escalating difficulty **Animals and Animality in the Babylonian Talmud** Beth A. Berkowitz, 2018-04-19 *Animals and Animality in the Babylonian Talmud* selects key themes in animal studies animal intelligence morality sexuality suffering danger personhood and explores their development in the Babylonian Talmud Beth A Berkowitz demonstrates that distinctive features of the Talmud the new literary genre the convergence of Jewish Christian and Zoroastrian cultures the Talmud's remove from Temple centered biblical Israel led to unprecedented possibilities within Jewish culture for conceptualizing animals and animality She explores their development in the Babylonian Talmud showing how it is ripe for reading with a critical animal studies perspective When we do we find waiting for us a multi layered surprisingly self aware discourse about animals as well as about the anthropocentrism that infuses human relationships with them For readers of religion Judaism and animal studies her book offers new perspectives on animals from the vantage point of the ancient rabbis *After World Religions* Christopher R Cotter, David G. Robertson, 2016-02-05 *The World Religions Paradigm* has been the subject of critique and controversy in Religious Studies for many years *After World Religions* provides a rationale for overhauling the World Religions curriculum as well as a roadmap for doing so The volume offers concise and practical introductions to cutting edge Religious Studies method and theory introducing a wide range of pedagogical situations and innovative solutions An international team of scholars addresses the challenges presented in their different departmental institutional and geographical contexts Instructors developing syllabi will find supplementary reading lists and specific suggestions to help guide their teaching

Students at all levels will find the book an invaluable entry point into an area of ongoing scholarly debate **The Torah and the Stoics on humankind and nature** J.J. Boersema,2021-09-06 The environmental problematique is intimately bound up with deep seated human attitudes regarding our relationship with nature Here in the west those attitudes have been shaped to no small degree by the canonical texts of the Bible and the classical philosophers In this book the author re examines some of these seminal texts arguing that what we today know as Christian cosmology is in fact a grafting of classical Greek philosophy onto ancient Israelite thought with certain valuable traditions being all but lost in the process The dietary laws of Leviticus and Deuteronomy in particular still prove surprisingly relevant today Often misread on this point the creation narratives of Genesis can likewise serve as a rich point of departure for examining our attitudes towards the natural world A reappraisal of these sources is necessary and feasible There is no need for an appeal to cosmologies alien to our own culture nor for recourse to New Age beliefs in all their variety **Adventures In Eating** Helen R. Haines,Clare A. Sammells,2011-05-18 Anthropologists training to do fieldwork in far off unfamiliar places prepare for significant challenges with regard to language customs and other cultural differences However like other travelers to unknown places they are often unprepared to deal with the most basic and necessary requirement food Although there are many books on the anthropology of food *Adventures in Eating* is the first intended to prepare students for the uncomfortable dining situations they may encounter over the course of their careers Whether sago grubs jungle rats termites or the pungent durian fruit are on the table participating in the act of sharing food can establish relationships vital to anthropologists research practices and knowledge of their host cultures Using their own experiences with unfamiliar and sometimes unappealing food practices and customs the contributors explore such eating moments and how these moments can produce new understandings of culture and the meaning of food beyond the immediate experience of eating it They also address how personal eating experiences and culinary dilemmas can shape the data and methodologies of the discipline The main readership of *Adventures in Eating* will be students in anthropology and other scholars but the explosion of food media gives the book additional appeal for fans of *No Reservations* and *Bizarre Foods* on the Travel Channel *Dubious Gastronomy* Robert Ji-Song Ku,2013-12-31 California roll Chinese take out American made kimchi dogmeat monosodium glutamate SPAM all are examples of what Robert Ji Song Ku calls dubious foods Strongly associated with Asian and Asian American gastronomy they are commonly understood as ersatz depraved or simply bad In *Dubious Gastronomy* Ku contends that these foods share a spiritual fellowship with Asians in the United States in that the Asian presence be it culinary or corporeal is often considered watered down counterfeit or debased manifestations of the real thing The American expression of Asianness is defined as doubly inauthentic as insufficiently Asian and unreliably American when measured against a largely ideological if not entirely political standard of authentic Asia and America By exploring the other side of what is prescriptively understood as proper Asian gastronomy Ku suggests that Asian cultural expressions occurring in places such as Los Angeles Honolulu New York

City and even Baton Rouge are no less critical to understanding the meaning of Asian food and by extension Asian people than culinary expressions that took place in Tokyo Seoul and Shanghai centuries ago In critically considering the impure and hybridized with serious and often whimsical intent Dubious Gastronomy argues that while the notion of cultural authenticity is troubled troubling and troublesome the apocryphal is not necessarily a bad thing The dubious can be and is often quite delicious Dubious Gastronomy overlaps a number of disciplines including American and Asian American studies Asian diasporic studies literary and cultural studies and the burgeoning field of food studies More importantly however the book fulfills the critical task of amalgamating these areas and putting them in conversation with one another Written in an engaging and fluid style it promises to appeal a wide audience of readers who seriously enjoys eating and reading and thinking about food *Veggiyana* Sandra Garson,2011-09-27 2012 Nautilus Book Award Silver Medal in Food Cooking Healthy Eating The kitchen is the most vital place on Earth because survival even now in the age of iPads and large hadron colliders still depends on wholesome nutritious food In keeping with this simple truth Veggiyana provides 108 tasty beloved and simple recipes from around the world And generously sprinkled throughout like the perfect blend of herbs and spices are morsels of time tested wisdom on how to live a life that nourishes both body and spirit Veggiyana brings the vitality of the worlds kitchens to your own with wisdom and recipes to delight and inspire **The Omnivore's Dilemma** Michael Pollan,2015-08-04 This acclaimed bestseller and modern classic has changed America s relationship with food It s essential reading for kids who care about the environment and climate change What s for dinner seemed like a simple question until journalist and supermarket detective Michael Pollan delved behind the scenes From fast food and big organic to small farms and old fashioned hunting and gathering this young readers adaptation of Pollan s famous food chain exploration encourages kids to consider the personal and global implications of their food choices With plenty of photos graphs and visuals The Omnivore s Dilemma serves up a bold message to the generation most impacted by climate change It s time to take charge of our national eating habits and it starts with you Making Senses of the Past Jo Day,2013-03-19 Since the nineteenth century museums have kept their artifacts in glass cases to better preserve them and drawings and photographs have become standard ways of presenting the past These practices have led to an archaeology dominated by visual description even though human interaction with the surrounding world involves the whole body and all of its senses In the past few years sensory archaeology has become more prominent and Making Senses of the Past is one of the first collected volumes on this subject This book presents cutting edge research on new theoretical issues The essays presented here take readers on a multisensory journey around the world and across time In ancient Peru a site provides sensory surprises as voices resound beneath the ground and hidden carvings slowly reveal their secrets In Canada and New Zealand the flicker of reflected light from a lake dances on the faces of painted rocks and may have influenced when and why the pigment was applied In Mesopotamia vessels for foodstuffs build a picture of a past cuisine that encompasses taste and social activity in the building

of communities While perfume and flowers are examined in various cultures in the chamber tombs of ancient Roman Palestine we are reminded that not all smells are pleasant Making Senses of the Past explores alternative ways to perceive past societies and offers a new way of wiring archaeology that incorporates the senses *Anthropology* Raymond Scupin, Christopher R. DeCorse, 2019-12-20 Integrating historical biological archaeological and applied approaches with ethnographic data from around the world Anthropology A Global Perspective is founded on four essential themes the diversity of human societies the similarities that tie all humans together the interconnections between the sciences and humanities and a new theme addressing psychological essentialism **Jews and Their Foodways** Anat Helman, 2015-10-28 Food is not just a physical necessity but also a composite commodity It is part of a communication system a nonverbal medium for expression and a marker of special events Bringing together contributions from fourteen historians anthropologists sociologists and literary critics Volume XXVIII of Studies in Contemporary Jewry presents various viewpoints on the subtle and intricate relations between Jews and their foodways The ancient Jewish community ritualized and codified the sphere of food by regulating specific and detailed culinary laws Judaism extended and accentuated food's cultural meanings Modern Jewry is no longer defined exclusively in religious terms yet a decrease in the role of religion including kashrut observance does not necessarily entail any diminishment of the role of food On the contrary as shown by the essays in this volume choices of food take on special importance when Jewish individuals and communities face the challenges of modernity Following an introduction by Sidney Mintz and concluding with an overview by Richard Wilk the symposium essays lead the reader from the 20th century to the 21st across Europe the Middle East Africa and North America Through periods of war and peace voluntary immigrations and forced deportations want and abundance contemporary Jews use food both for demarcating new borders in rapidly changing circumstances and for remembering a diverse heritage Despite a tendency in traditional Jewish studies to focus on high culture and to marginalize low culture Jews and Their Foodways demonstrates how an examination of people's eating habits helps to explain human life and its diversity through no less than the study of great events the deeds of famous people and the writings of distinguished rabbis **Pastimes and Politics** Laura Fair, 2001-10-01 The first decades of the twentieth century were years of dramatic change in Zanzibar a time when the social economic and political lives of island residents were in incredible flux framed by the abolition of slavery the introduction of colonialism and a tide of urban migration Pastimes and Politics explores the era from the perspective of the urban poor highlighting the numerous and varied ways that recently freed slaves and other immigrants to town struggled to improve their individual and collective lives and to create a sense of community within this new environment In this study Laura Fair explores a range of cultural and social practices that gave expression to slaves' ideas of emancipation as well as how such ideas and practices were gendered Pastimes and Politics examines the ways in which various cultural practices including taarab music dress football ethnicity and sexuality changed during the early twentieth century in relation to

islanders changing social and political identities Professor Fair argues that cultural changes were not merely reflections of social and political transformations Rather leisure and popular culture were critical practices through which the colonized and former slaves transformed themselves and the society in which they lived Methodologically innovative and clearly written Pastimes and Politics is accessible to specialists and general readers alike It is a book that should find wide use in courses on African history urbanization popular culture gender studies or emancipation *Israelite Religions* Richard S. Hess,2007-10-15 Archaeological excavation in the Holy Land has exploded with the resurgence of interest in the historical roots of the biblical Israelites *Israelite Religions* offers Bible students and interested lay leaders a survey of the major issues and approaches that constitute the study of ancient Israelite religion Unique among other books on the subject *Israelite Religions* takes the Bible seriously as a historical source balancing the biblical material with relevant evidence from archaeological finds *Meat Matters* Hagar Salamon,2023-04-04 *Meat Matters* offers a portrait of the lives of Ethiopian Jews as it is reflected and refracted thought the symbolism of meat Drawing upon thirty years of fieldwork this beautifully written and innovatively constructed ethnography tells the story of the Beta Israel who began immigrating from Ethiopia to Israel in the 1970s Once in Israel their world changed in formerly unimaginable ways such as conversion under Rabbinic restrictions moving into multistory buildings different attitudes toward gender and reproduction and perhaps above all the newly acquired distinctiveness of the color of their bodies In the face of such changes the Beta Israel held on to a key idiom in their lives meat The community continues to be organized into kirchas groups of friends and family who purchase and raise cows then butcher and divide the animal s body into small and equal chunks which are distributed among the kircha through a lottery ritual Flowing back and forth between Ethiopia to Israel *Meat Matters* follows the many strands of significance surrounding cows and meat ultimately forming a vibrant web of meaning at the heart of the Beta Israel community today *Studying Societies and Cultures* Lawrence A. Kuznar,Stephen K. Sanderson,2015-12-03 A thought provoking stimulating volume on the past present and future of cultural materialism that is both laudatory of Harris research strategy and critical of it Paul Shankman University of Colorado One of the most important anthropologists of all time Marvin Harris was influential worldwide as the founder of cultural materialism This book accessibly analyzes Harris s theories and their important legacies today The chapters explore cultural materialism s epistemology and its relation to rational choice theory Darwinian social science and population pressures The authors assess recent attempts to extend and reformulate cultural materialism and highlight cross cultural archaeological and ethnographic applications of cultural materialism today
