Delineation of Roman Catholicism Charles Elliott, 1842 [Summa Theologica \(Complete\)](#) Saint Thomas Aquinas, 1955-01-01

All Scripture inspired of God is profitable to teach to reprove to correct to instruct in justice. Now Scripture inspired of God is no part of philosophical science which has been built up by human reason. Therefore it is useful that besides philosophical science there should be other knowledge, i.e. inspired of God. I answer that It was necessary for man's salvation that there should be a knowledge revealed by God besides philosophical science built up by human reason. Firstly, indeed, because man is directed to God as to an end that surpasses the grasp of his reason. The eye hath not seen, O God, besides Thee what things Thou hast prepared for them that wait for Thee. Isa. 66:4. But the end must first be known by men who are to direct their thoughts and actions to the end. Hence it was necessary for the salvation of man that certain truths which exceed human reason should be made known to him by divine revelation. Even as regards those truths about God which human reason could have discovered, it was necessary that man should be taught by a divine revelation, because the truth about God such as reason could discover would only be known by a few and that after a long time and with

the admixture of many errors Whereas man's whole salvation which is in God depends upon the knowledge of this truth Therefore in order that the salvation of men might be brought about more fitly and more surely it was necessary that they should be taught divine truths by divine revelation It was therefore necessary that besides philosophical science built up by reason there should be a sacred science learned through revelation Although those things which are beyond man's knowledge may not be sought for by man through his reason nevertheless once they are revealed by God they must be accepted by faith Hence the sacred text continues For many things are shown to thee above the understanding of man Ecclesiastes 3:25 And in this the sacred science consists Sciences are differentiated according to the various means through which knowledge is obtained For the astronomer and the physicist both may prove the same conclusion that the earth for instance is round the astronomer by means of mathematics i.e. abstracting from matter but the physicist by means of matter itself Hence there is no reason why those things which may be learned from philosophical science so far as they can be known by natural reason may not also be taught us by another science so far as they fall within revelation Hence theology included in sacred doctrine differs in kind from that theology which is part of philosophy Further no science deals with individual facts But this sacred science treats of individual facts such as the deeds of Abraham Isaac and Jacob and such like Therefore sacred doctrine is not a science On the contrary Augustine says to this science alone belongs that whereby saving faith is begotten nourished protected and strengthened But this can be said of no science except sacred doctrine Therefore sacred doctrine is a science I answer that Sacred doctrine is a science We must bear in mind that there are two kinds of sciences There are some which proceed from a principle known by the natural light of intelligence such as arithmetic and geometry and the like There are some which proceed from principles known by the light of a higher science thus the science of perspective proceeds from principles established by geometry and music from principles established by arithmetic So it is that sacred doctrine is a science because it proceeds from principles established by the light of a higher science namely the science of God and the blessed Hence just as the musician accepts on authority the principles taught him by the mathematician so sacred science is established on principles revealed by God Summa Theologica, Part III (Tertia Pars) Thomas Aquinas, 2021-12-12 Summa Theologica Part III Tertia Pars Thomas Aquinas The Summa Theologiae Latin Compendium of Theology or Theological Compendium also subsequently called the Summa Theologica or simply the Summa written 1265-1274 is the best known work of Thomas Aquinas c. 1225-1274 and although unfinished one of the classics of the history of philosophy and one of the most influential works of Western literature It is intended as a manual for beginners in theology and a compendium of all of the main theological teachings of the Church It presents the reasoning for almost all points of Christian theology in the West The Summa's topics follow a cycle: the existence of God, Creation, Man, Man's purpose, Christ, the Sacraments, and back to God courtesy of wikipedia.com This is part 3 Tertia Pars The way which leads to God is Christ the theme of part III It can be asserted that the incarnation was absolutely necessary The Unio between the Logos and

the human nature is a relation between the divine and the human nature which comes about by both natures being brought together in the one person of the Logos An incarnation can be spoken of only in the sense that the human nature began to be in the eternal hypostasis of the divine nature So Christ is unum since his human nature lacks the hypostasis The person of the Logos accordingly has assumed the impersonal human nature and in such way that the assumption of the soul became the means for the assumption of the body This union with the human soul is the gratia unionis which leads to the impartation of the gratia habitualis from the Logos to the human nature Thereby all human potentialities are made perfect in Jesus Besides the perfections given by the vision of God which Jesus enjoyed from the beginning he receives all others by the gratia habitualis

Summa Theologica Saint Aquinas Thomas, 1265-1274 The Summa Theologiae written 1265-1274 and also known as the Summa Theologica or simply the Summa is the best known work of Thomas Aquinas c. 1225-1274 Although unfinished the Summa is one of the classics of the history of philosophy and one of the most influential works of Western literature It was intended as an instructional guide for theology students including seminarians and the literate laity It was a compendium of all of the main theological teachings of the Catholic Church It presents the reasoning for almost all points of Christian theology in the West The Summa's topics follow a cycle: the existence of God, Creation, Man, Man's purpose, Christ, the Sacraments, and back to God

Scottish Art in the Industrial Age, 1800-1914 John Morrison, 2025-09-15 This volume examines the ways in which Scottish identity was expressed through visual and material culture in the early to mid nineteenth centuries culminating in Victoria's romanticisation of Scotland or Balmoralism Key artists included Sir David Wilkie, Alexander Nasmyth and Henry Raeburn and later Horatio McCulloch who helped to perpetuate the myth of Scotland as a retrogressive highland nation In 1826 the Royal Scottish Academy was established in Edinburgh providing artists with the opportunity to train and exhibit their work Under Robert Scott Lauder at the Trustees' Academy a new generation of artists emerged among them William McTaggart who continued to engage with historical subjects but who was more experimental in their approach Accompanied by extensive editorial commentary this collection will be of great interest to students of Art History and Scottish History
