Initiation into the Mysteries of the Ancient World Jan N. Bremmer,2014-07-28 The ancient Mysteries have long attracted the interest of scholars an interest that goes back at least to the time of the Reformation After a period of interest around the turn of the twentieth century recent decades have seen an important study of Walter Burkert 1987 Yet his thematic approach makes it hard to see how the actual initiation into the Mysteries took place To do precisely that is the aim of this book It gives a thick description of the major Mysteries not only of the famous Eleusinian Mysteries but also those located at the interface of Greece and Anatolia the Mysteries of Samothrace Imbros and Lemnos as well as those of the Corybants It then proceeds to look at the Orphic Bacchic Mysteries which have become increasingly better understood due to the many discoveries of new texts in the recent times Having looked at classical Greece we move on to the Roman Empire where we study not only the

lesser Mysteries which we know especially from Pausanias but also the new ones of Isis and Mithras We conclude our book with a discussion of the possible influence of the Mysteries on emerging Christianity Its detailed references and up to date bibliography will make this book indispensable for any scholar interested in the Mysteries and ancient religion but also for those scholars who work on initiation or esoteric rituals which were often inspired by the ancient Mysteries **Sacred Forests of Asia** Chris Coggins,Bixia Chen,2022-05-30 Presenting a thorough examination of the sacred forests of Asia this volume engages with dynamic new scholarly dialogues on the nature of sacred space place landscape and ecology in the context of the sharply contested ideas of the Anthropocene Given the vast geographic range of sacred groves in Asia this volume discusses the diversity of associated cosmologies ecologies traditional local resource management practices and environmental governance systems developed during the pre colonial colonial and post colonial periods Adopting theoretical perspectives from political ecology the book views ecology and polity as constitutive elements interacting within local regional and global networks Readers will find the very first systematic comparative analysis of sacred forests that include the karchall mabhuy of the Katu people of Central Vietnam the leuweng kolot of the Baduy people of West Java the fengshui forests of southern China the groves to the goddess Sarna Mata worshiped by the Oraon people of Jharkhand India the mauelsoop and bibosoop of Korea and many more Comprising in depth field based case studies each chapter shows how the forest s sacrality must not be conceptually delinked from its roles in common property regimes resource security spiritual matters of ultimate concern and cultural identity This volume will be of great interest to students and scholars of indigenous studies environmental anthropology political ecology geography religion and heritage nature conservation environmental protection and Asian studies **Paul, Founder of Churches** James Constantine Hanges,2012 Expanded from the author s dissertation University of Chicago 1999 *Subject Headings Used in the Dictionary Catalogues of the Library of Congress* Library of Congress,Library of Congress.
