Sacred Ways Of Knowledge Sources Of Life:

The Sacred Peggy V. Beck,1990 **Nihikéyah** Lloyd L. Lee,2023-10-31 The book provides individual Din Navajo examinations and understandings of N hi K yah Navajo homeland These examinations and understandings represent a distinctive lens of Din Navajo peoples and way of life **Contemporary American Indian Literatures and the Oral**

Tradition Susan Berry Brill de Ramírez,1999-07-01 Because American Indian literatures are largely informed by their respective oral storytelling traditions they may be more difficult to understand or interpret than the more text based literatures with which most readers are familiar In this insightful new book Susan Berry Brill de Ram rez addresses the limitations of contemporary criticism and theory in opening up the worlds of story within American Indian literatures proposing instead a conversive approach for reading and understanding these works In order to fully understand American Indian literatures Brill de Ram rez explains that the reader must become a listener reader an active participant in the written stories To demonstrate this point she explores literary works both by established Native writers such as Sherman Alexie N Scott Momaday Leslie Marmon Silko and Luci Tapahonso and by less well known writers such as Anna Lee Walters Della Frank Lee Maracle and Louis Owens Through her literary engagements with many poems novels and short stories she demonstrates a new way to read and understand the diverse body of American Indian literatures Brill de Ram rez s conversive approach interweaves two interconnected processes co creating the stories by participating in them as listener readers and recognizing orally informed elements in the stories such as verbal minimalism and episodic narrative structures Because this methodology is rooted in American Indian oral storytelling traditions Native voices from these literary works are able to more directly inform the scholarly process than is the case in more textually based critical strategies Through this innovative approach Brill de Ram rez shows that literature is not a static text but an interactive and potentially transforming conversation between listener readers storyteller writers and the story characters as well Her book furthers the discussion of how to read American Indian and other orally informed literatures with greater sensitivity to their respective cultural traditions and shows that the immediacy of the relationship between teller story and listener can also be experienced in the relationships between writers literary works and their listener readers **Honoring the Medicine** Kenneth S.

Native American Catholic Studies

Reader David J. Endres,2022-08-12 Before there was an immigrant American Church there was a Native American Church The Native American Catholic Studies Reader offers an introduction to the story of how Native American Catholicism has

developed over the centuries beginning with the age of the missions and leading to inculturated indigenous forms of religious expression. Though the Native Christian relationship could be marked by tension, coercion and even violence, the Christian faith took root among Native Americans and for those who accepted it and bequeathed it to future generations it became not an imposition but a way of expressing Native identity. From the perspective of historians and theologians, the Native American Catholic Studies Reader offers a curated collection of essays divided into three sections: education and evangelization, tradition and transition, and Native American lives. Contributors include scholars currently working in the field: Mark Clatterbuck, Damian Costello, Conor J. Donnan, Ross Enochs, Allan Greer, Mark G. Thiel, and Christopher Vecsey, as well as selections from a past generation: Gerald McKevitt SJ and Carl F. Starkloff SJ. These contributions explore the interaction of missionaries and tribal leaders, the relationship of traditional Native cosmology and religiosity to Christianity, and the role of geography and tribal consciousness in accepting and maintaining indigenous and religious identities. These readings highlight the state of the emergent field of Native Catholic studies and suggest further avenues for research and publication. For scholars, teachers, and students, the Native American Catholic Studies Reader explores how the faith of the American Church's eldest members became a means of expressing and celebrating language, family, and tribe.

This work brings together theorists that inform a cultural ecological analysis of the environmental crisis by exploring the ways in which language informs ways of knowing and being, as they outline how metaphor plays a major role in human relationships with natural and reconstructed environments. This book will be of interest to educational researchers and practitioners who will find the text important for envisioning education as an endeavour that situates learning in relation to and informed by an Indigenous Environmental Studies and Eco justice Education frameworks. This integrated collection of theory and practice of environmental and Indigenous education is an essential tool for researchers, graduate and undergraduate students in faculties of education, environmental studies, social studies, multicultural education, curriculum theory and methods, global and comparative education, and women's studies. Moreover, this work documents methods of developing ways of implementing Indigenous and Environmental Studies in classrooms and local communities through a framework that espouses an eco-ethical consciousness. The proposed book is unique in that it offers a wide variety of perspectives, inviting the reader to engage in a broader conversation about the multiple dimensions of the relationship between ecology, language, culture, and education in relation to the cultural roots of
