been liberated from restlessness and is focused on the Infinite to be focused only on God or sacred thoughts and ideas Meditation consists in certain physical psychological and metaphysical processes by which the static of restlessness can be removed from the body mind and soul radios which can then be tuned in with the Infinite By calm continuous one pointed attention the ego must be kept connected to the Spirit until they both become merged into everlasting bliss In Metaphysical Meditations Paramhansa Yogananda author of the best selling spiritual classic Autobiography of a Yogi gives some concrete metaphysical methods of meditation for the student who has already struggled through the mobs of rowdy thoughts and crossed the portals of silence The instructions will be found in the various sections of the book preceding each type of meditation prayers or demands addressed to the Divine affirmations about God and those spoken to the individual consciousness
