Sacred Passions The Life And Music Of Manuel De Falla:

Sacred Passions : The Life and Music of Manuel de Falla Carol A. Hess Assistant Professor of Music Bowling Green State University,2004-11-11 The work of composer Manuel de Falla 1876 1946 ranges from late romantic salon pieces to evocations of flamenco to stark neoclassicism Yet his music has met with conflicting reactions depending on the audience In his native Spain Falla is considered the most innovative composer of the first half of the twentieth century Likewise in the United States Falla enjoyed a strong following in the concert hall But many of his works especially some of the colorful or exotic dances from *The Three Cornered Hat* and *El Amor Brujo* were taken up during the Latin music craze of the 1930s and 40s and appeared in everything from jazz and pop arrangements to MGM musicals Similarly enigmatic are the details of Falla's life He never sustained a lasting intimate relationship with a woman yet he created compelling female roles for the lyric stage Although he became incensed when publishers altered his music he more than once tinkered with Chopin and Debussy Despite insisting that he was apolitical Falla ultimately took sides in the Spanish Civil War initially allying himself rather half heartedly with Franco's Nationalists but later rejecting the honors they proffered All his life his rigorous brand of Roman Catholicism brought him both solace and agony in his quest for spiritual and artistic perfection In *Sacred Passions The Life and Music of Manuel de Falla* Carol A Hess explores these contradictions and offers a fresh understanding of this fascinating composer Building on over a decade of research Hess examines Falla's work in terms of musical style and explores the cultural milieus in which he worked During a seven year sojourn to Paris just prior to World War I Falla associated with composers Dukas Stravinsky Ravel and the rest of the group known as *les Apaches* Later back in Spain he played a pivotal role in the remarkable cultural renaissance known as the Silver Age during which Lorca Bunuel Dali Unamuno and of course Falla himself made some of their boldest artistic statements Hess also explores a number of myths cultivated in earlier biographies including Falla's supposed misogynistic tendencies and accusations of homosexuality which have led some biographers to consider him a saint like ascetic She offers a balanced view of his behavior during the Spanish Civil War a wrenching event for a Spaniard of his generation and one that Falla biographers have left largely untouched With superb analysis of his music and enlightening detail about its critical reception Hess also examines Falla's status in some circles as little more than a high class pop composer given the mass appeal of much of his music She incorporates recent research on Falla draws upon untapped sources in the Falla archives and reevaluates his work in terms of current issues in musicology Ultimately Hess places Falla's variegated oeuvre which straddles popular and serious idioms securely among the best of his better known European contemporaries What emerges is a gracefully written balanced portrait of a man whose lofty spiritual values inspired singular musical utterances but were often at odds with the decidedly imperfect world he inhabited

Gerardo Diego's Creation Myth of Music Judith Stallings-Ward, 2020-01-29 Since its publication nearly eight decades ago the consensus among scholars about *Fuera de Equis y Zeda* by the Spanish poet Gerardo Diego 1896 1987 remains unchanged *Fuera* is an enigmatic avant garde curiosity It seems to rob the reader of the reason necessary to interpret it even as it lures him or her ineluctably to the task nevertheless the present study makes the case that this work is in fact not inaccessible and that what the *anhelante arquitecto* intended with his masterpiece was a creation myth that explains the evolution of music in his day This monograph unlocks the fullness of the poem's meaning sourced in music's mythical consciousness and expressed in a poetic idiom that replicates aesthetic concepts and cubist strategies of form embraced by the neoclassical composers Bartok Falla Ravel and Stravinsky
