This is Not Just a Painting Bernard Lahire, 2019-04-15 In 2008 the Musée des Beaux Arts de Lyon acquired a painting called *The Flight into Egypt* which was attributed to the French artist Nicolas Poussin Thought to have been painted in 1657 the painting had gone missing for more than three centuries Several versions were rediscovered in the 1980s and one was passed from hand to hand from a family who had no idea of its value to gallery owners and eventually to the museum A painting that had been sold as a decorative object in 1986 for around 12 000 euros was acquired two decades later by the Musée des Beaux Arts de Lyon for 17 million euros What does this remarkable story tell us about the nature of art and the way that it is valued How is it that what seemed to be just an ordinary canvas could be transformed into a masterpiece that a decorative object could become a national treasure This is a story permeated by social magic the social alchemy that transforms lead into gold the ordinary into the extraordinary the profane into the sacred Focusing on this extraordinary case Bernard Lahire lays bare the beliefs and social processes that underpin the creation of a masterpiece Like a detective piecing together the clues in an unsolved mystery he carefully reconstructs the steps that led from the same material object being treated as a copy of insignificant value to being endowed with the status of a highly prized painting commanding a record breaking price He thereby shows that a painting is never just a painting and is always more than a piece of stretched canvass to which brush strokes of paint have been applied this object and the value we attach to it is also the product of a complex array of social processes with its distinctive institutions and experts that lies behind it

And through the history of this painting Lahire uncovers some of the fundamental structures of our social world For the social magic that can transform a painting from a simple copy into a masterpiece is similar to the social magic that is present throughout our societies in economics and politics as much as art and religion a magic that results from the spell cast by power on those who tacitly recognize its authority By following the trail of a single work of art Lahire interrogates the foundations on which our perceptions of value and our belief in institutions rest and exposes the forms of domination which lie hidden behind our admiration of works of art

Notes on Bergson and Descartes Charles Peguy, 2019-02-12 Charles Peguy 1873 1914 was a French religious poet philosophical essayist publisher social activist Dreyfusard and Catholic convert There has recently been a renewed recognition of Peguy in France as a thinker of unique significance a reconsideration inspired in large part by Gilles Deleuze's *Différence et répétition* which ranked him with Nietzsche and Kierkegaard In the English speaking world however access to Peguy has been hindered by a scarcity of translations of his work This first complete translation of one of his most important prose works with accompanying interpretive introduction and notes will introduce English speaking readers to a new voice which speaks in a powerful and original way to a modern West in a condition of cultural and spiritual crisis The immediate circumstance of the writing of this last prose essay unfinished at the time of Peguy's early death was the placing of Henri Bergson's philosophical works on the Catholic Index and Peguy's undertaking to defend his former teacher from his critics both Catholic and secular But the subject of Bergson is also a springboard for the exploration of the perennial themes philosophical theological and literary most central to Peguy's thought

Man's Fate and God's Choice Bhimeswara Challa, 2021-06-29 Stagnate as a creepy caterpillar or transform into a beautiful butterfly this path breaking book of a rare genre suggests is the seminal choice before mankind and every one of us In this setting the book raises some fundamental questions What is man's rightful place

in the cosmos and his manifest destiny on earth Why are we so self righteously self destructive Are we a doomed species Or divine beings struggling to overcome the hubris of the human intellect Is God getting weary of mankind How should we synergize human effort and Divine Grace The book posits that any betterment in human behavior needs a cathartic change at the deepest levels That requires diluting the dominance of the mind and reawakening the long dormant intelligence of the human heart To meet that challenge we need minimum numbers a critical mass to create self sustained momentum for transformation through consciousness change And every single human of this generation should behave in such a way that he or she is that single person whose transformation could make the decisive species scale difference The book offers a menu of ideas and an agenda of action This book could be itself become an input to mobilize that very critical mass it advocates for human transformation Well planned and cohesively written the book is noteworthy for its delightful blend of information and arguments and reveals the depth of the author s understanding of the human predicament This is a closely argued and thought provoking book The Hindu 13 Sept 2011 This book is a gripping exposition on human nature and self transformation without preference to religion Challa has critically provided a foundational argument for a deeper discussion of philosophical and practical ideals concerning self transformation harmonizing the head and the heart is the way for humans to function as spiritual beings Recommended by the USR The US Review of Books The author reflects upon the crisis of contemporary civilizations and outlines a blueprint for a new world order based on progressive spiritual values and change of human consciousness The strength of this treatise is the sweep of Challa s reach and his treatment of a vastly complex set of issues that bedevil humankind today India International Center Quarterly Summer 2012 As a thinker and erudite scholar the author has made a profound study of the world situation and the moral decadence of man This book deserves to be on the shelves of university college and public libraries Triveni Magazine July Sept 2011 It is difficult to pigeon hole this book as a prophetic discourse a journey into the human mind a guide for human survival a spiritual treatise It is an amalgam of all these and more the volume reaches out to those who are already uneasy about the way we on this earth are progressing The Book Review India June 2013 *Dis/organization as Communication* Consuelo Vásquez, Timothy Kuhn, 2019-03-13 This book accounts for the transformation of organizations in a post bureaucratic era by bringing a communicational lens to the ontological discussion on organization disorganization offering a conceptual and methodological toolbox for studying dis organization as communication Increasingly scholars acknowledge that communication is constitutive of organization because meaning is always indeterminate communication also and simultaneously generates disorganization The book synthesizes the major theoretical trends and empirical studies in communication that engage with dis organization Drawing on dialectics relational ontologies critical theory systems theory and affect thinking the first part of the book offers communicational explanations of how dis organization unfolds The second part of the book grounds this theoretical reflection providing empirical studies that mobilize diverse methodological and analytical frameworks e g ethnography situational

interactional and genre analysis for studying the practices of dis organization Overall the book exposes organizations and organizing processes as significantly messier irrational or a rational and paradoxical than scholars of organization typically think It also offers readers the conceptual and methodological tools to understand these complex processes as communication This book will be essential reading for scholars in organizational communication or management and organization studies together with senior undergraduate and graduate students studying organizational communication organizational discourse discourse analysis including rhetoric semiotics pragmatism narratology and courses in management studies It will also be richly rewarding for organizational consultants managers and executives

Durkheim's Sociology of Religion WSF Pickering, 2009-05-28 Religion is central to Durkheim's theory of society and his work laid most of the foundations of the sociology of religion Daring and brilliant though his analysis was its bold claims and questionable premises has made it the subject of ongoing academic debate Durkheim's work on the subject reached a peak with the publication in 1912 of what turned out to be a classic in its field *The Elementary Forms of the Religious Life* No other book has explained Durkheim's views on religion using the whole corpus of his writings Dr Pickering shows how Durkheim's position developed and explains the themes and theories that run through Durkheim's work This includes Durkheim's attitude towards secularisation and Christian churches as well as his notion of the contemporary cult of the individual

The Liberty Wars: The Trump Time Bomb Joe Dixon, 2018-02-07 Trump is in the White House Forget the Culture Wars the Liberty Wars are about to erupt on the grand apocalyptic scale Do you know the difference between positive and negative liberty You had better find out fast They define the world we live in and the immense conflicts to come Politics has failed The advent of Donald Trump a Plutocrat with zero political experience as the President of the USA shows that democracy is now coming to its end If the President can be a non politician a demagogue of the old school why do we need any politicians at all What have the politicians ever done for us The Reckoning is here As John F Kennedy said The hottest places in Hell are reserved for those who in time of moral crisis preserve their neutrality

My Tax Dollars Ruth Braunstein, 2025-04-15 When the mundane reality of paying taxes takes on moral significance In *My Tax Dollars* Ruth Braunstein maps the contested moral landscape in which Americans experience and make sense of the tax system Braunstein tells the stories of Americans who view taxpaying as more than a mundane chore antigovernment tax defiers who challenge the legitimacy of the tax system antiwar activists who resist the use of their taxes to fund war antiabortion activists against taxpayer funded abortions and a diverse group of people who promote taxpaying as a moral good Though taxpaying is often portrayed as dull and technical exposure to collective rituals civic education propaganda and protest transforms the practice for many Americans into either a sacred rite of citizenship or a profane threat to what they hold dear These sacred and profane meanings can apply to the act of taxpaying itself or to the specific uses of tax dollars Despite intense disagreement about these meanings politically diverse Americans engaged in both taxpaying and tax resistance valorize the individual taxpayer and my tax dollars

Braunstein explores the profound implications of this meaning making for tax consent the legitimacy of the tax system and citizens broader understandings of their political relationships Going beyond the usual focus on tax policy Braunstein s innovative view of taxation through the lens of cultural sociology shows how citizens in value diverse societies coalesce around shared visions of the sacred and fears of the profane

To Take Place Jonathan Z. Smith, 1987 In this broad ranging inquiry into ritual and its relation to place Jonathan Z Smith prepares the way for a new approach to the comparative study of religion Smith stresses the importance of place in particular constructed ritual environments to a proper understanding of the ways in which empty actions become rituals He structures his argument around the territories of the Tjilpa aborigines in Australia and two sites in Jerusalem the temple envisioned by Ezekiel and the Church of the Holy Sepulchre The first of these locales the focus of one of the more important contemporary theories of religious ritual allows Smith to raise questions concerning the enterprise of comparison His close examination of Eliade s influential interpretation of the Tjilpa tradition leads to a powerful critique of the approach to religion myth and ritual that begins with cosmology and the category of The Sacred In substance and in method To Take Place represents a significant advance toward a theory of ritual It is of great value not only to historians of religion and students of ritual but to all whether social scientists or humanists who are concerned with the nature of place This book is extraordinarily stimulating in prompting one to think about the ways in which space or place is perceived marked and utilized religiously A provocative example of the application of humanistic geography to our understanding of what takes place in religion Dale Goldsmith Interpretation

Mine! Michael A. Heller, James Salzman, 2022-02-15 Mine is one of the first words babies learn and by the time we grow up the idea of ownership seems natural whether we are buying a cup of coffee or a house But who controls the space behind your airplane seat you reclining or the squished laptop user behind you Why is plagiarism wrong but it s okay to knock off a recipe or a dress design And after a snowstorm why does a chair in the street hold your parking space in Chicago while in New York you lose both the space and the chair In Mine Michael Heller and James Salzman two of the world s leading authorities on ownership explain these puzzles and many more Remarkably they reveal there are just six simple rules that everyone uses to claim everything Owners choose the rule that steers us to do what they want But we can pick differently This is true not just for airplane seats but also for battles over digital privacy climate change and wealth inequality Mine draws on mind bending often infuriating and always fascinating accounts from business history courtrooms and everyday life to reveal how the rules of ownership control our lives and shape our world

Animals as Religious Subjects Celia Deane-Drummond, Rebecca Artinian-Kaiser, David L. Clough, 2013-08-01 This book examines one of the most pressing cultural concerns that surfaced in the last decade the question of the place and significance of the animal This collection of essays represents the outcome of various conversations regarding animal studies and shows multidisciplinary at its very best namely a rigorous approach within one discipline in conversation with others around a common theme The contributors discuss the most relevant

disciplines regarding this conversation namely philosophy anthropology religious studies theology history of religions archaeology and cultural studies The first section Thinking about Animals explores philosophical anthropological and religious perspectives raising general questions about the human perception of animals and its crucial cultural significance The second section explores the intriguing topic of the way animals have been used historically as religious symbols and in religious rituals The third section re examines some Christian theological and biblical approaches to animals in the light of current concerns The final section extends the implications of traditional views about other animals to more specific ethical theories and practices *Artificial Intelligence* Ronald Chrisley, Sander Begeer, 2000 **Reflections on The Moral &**

Spiritual Crisis in Education David E. Purpel, William M. McLaurin, 2004 This book takes a sharply critical view of contemporary society with a searing indictment of our morally and intellectually bankrupt educational system Uniquely the book contains both the original version of David Purpel's highly influential Moral and Spiritual Crisis in Education first published in 1989 as well as an updated critique of that work reflections from our current times of growing despair about the directions of education and the nation Reflections on the Moral and Spiritual Crisis in Education focuses on the possibility and necessity of generating hope through the redemptive and energizing power of the human spirit **Anti-Abortion**

Activism in the UK Pam Lowe, Sarah-Jane Page, 2022-04-19 Taking a lived religion approach that draws on extensive ethnographic research on abortion debates in public spaces Anti Abortion Activism in the UK explores the sacred and profane commitments of anti abortion activists and counter demonstrations outside clinics examining the contestations over space

Nurturing the Souls of Our Children Robert Mitchell, 2005 The Sin of Obedience is one of the few works of fiction or non fiction that looks profoundly and with deep personal reflection into the training of a Catholic priest The novel rich and accurate in detail is the story of a young prodigy torn with between the rigid religious traditions and convictions of his mother and the more humanity oriented respect for freedom of his father Building on his own experiences including being the subject of sexual abuse by a seminary teacher the author unfolds a picture of religious life in which the cornerstones of celibacy and a vow of obedience have forced seminarians and priests to make difficult and often impossible decisions in their own personal lives This well crafted story enables the reader to go along with a young boy seminarian and priest on his idealistic pursuit and mission and the consequences he has to face as a result *Melting the Venusberg* Heidi

Epstein, 2004-10-15 This book begins with a pointed critique of the foundations of the understanding of Western music that music from Pythagoras to the Renaissance has been viewed as the source and model of order in the universe and in society Unfortunately that order was rigidly hierarchical so that over the centuries music reinforced established social prejudices particularly those against women Nowhere was this more evident than in religious music that was regarded by male ecclesiastics and scholars as the instrument of choice for taming hysterical female eruptions Through her mordant commentary on a rich selection of texts by major thinkers from two millennia of Christian theology Heidi Epstein shows in

the first part of Melting the Venusberg that music as the erotic embodiment of human engenderment has been ignored or suppressed while music as the expression of transcendent harmony order and restraint has been extolled The second re constructive part of Melting the Venusberg draws on ignored sources and lost tropes from the Christian tradition as well as on insights from the music and thought of historical and contemporary woman composers and performers from Hildegard of Bingen and Lucrezia Vizzana to Rosetta Tharpe and Diamanda Galas Through this recuperative synthesis music s theological significance changes keys as it moves beyond its symbolic function as divinely ordained harmonious microcosm into more dissonant metaphorical registers Those who have ears to hear will be delighted
