The Death of Sacred Texts Kristina Myrvold,2016-03-09 The Death of Sacred Texts draws attention to a much neglected topic in the study of sacred texts the religious and ritual attitudes towards texts which have become old and damaged and can no longer be used for reading practices or in religious worship This book approaches religious texts and scriptures by focusing on their physical properties and the dynamic interactions of devices and habits that lie beneath and within a given text In the last decades a growing body of research studies has directed attention to the multiple uses and ways people encounter written texts and how they make them alive even as social actors in different times and cultures Considering religious people seem to have all the motives for giving their sacred texts a respectful symbolic treatment scholars have paid surprisingly little attention to the ritual procedures of disposing and renovating old texts This book fills this gap providing empirical data and theoretical analyses of historical and contemporary religious attitudes towards and practices of text disposals within seven world religions Judaism Islam Christianity Hinduism Buddhism Jainism and Sikhism Exploring the cultural and historical variations of rituals for religious scriptures and texts such as burials cremations and immersion into rivers and the underlying beliefs within the religious traditions this book investigates how these religious practices and stances respond to modernization and globalization processes when new technologies have made it possible to mass produce and publish religious texts on the Internet

Reading Spiritualities Dawn Llewellyn,2016-04-01 The phenomenon of sacred text has undergone radical deconstruction in recent times reflecting how religion has broken out of its traditional definitions and practices and how current literary theories have influenced texts inside the religious domain and beyond Reading Spiritualities presents both commentary and vivid examples of this evolution engaging with a variety of reading practices that work with traditional texts and those that extend the notion of text itself The contributors draw on a range of textual sites such as an interview

Caribbean literature drama and jazz women's writings emerging church blogs Neopagan websites the reading practices of Buddhist nuns empirical studies on the reading experiences of Gujarati Christian and post Christian women Chicana short stories the mosque cinema modern art and literature These examples open up understandings of where and how sacred texts are emerging and being reassessed within contemporary religious and spiritual contexts and make room for readings where the spiritual resides not only in the textual but in other unexpected places Reading Spiritualities includes contributions from Graham Holderness Ursula King Michael N Jagessar David Jasper Anthony G Reddie Michelle Roberts and Heather Walton to reflect and encourage the interdisciplinary study of sacred text in the broad arena of the arts and social sciences It offers a unique and well focused snapshot of the textual constructions and representations of the sacred within the contemporary religious climate accessible to the general reader as well as more specialist interests of students and researchers working in the crossover fields of religious theological cultural and literary studies

Friedrich Max Müller and the Sacred Books of the East Arie L. Molendijk,2016-07-21 This volume offers a critical analysis of one the most ambitious editorial projects of late Victorian Britain the edition of the fifty substantial volumes of the Sacred Books of the East 1879 1910 The series was edited and conceptualized by Friedrich Max M

Müller 1823 1900 a world famous German born philologist orientalist and religious scholar Müller and his influential Oxford colleagues secured financial support from the India Office of the British Empire and from Oxford University Press Arie L Molendijk documents how the series has become a landmark in the development of the humanities especially the study of religion and language in the second half of the nineteenth century The edition also contributed significantly to the Western perception of the religious or even mystic East which was textually represented in English translations The series was a token of the rise of big science and textualized the East by selecting their sacred books and bringing them under the power of western scholarship *History of the Sacred Scriptures of the New Testament* Eduard Reuss, 1884 *Politics of the Islamic Tradition* Mohammed Moussa, 2015-10-05 Over the last two centuries the Muslim world has undergone dramatic transformations impacting the Islamic tradition and throwing into question our understanding of tradition The notion of tradition as an unmoving edifice is contradicted by the very process of its transmission and the complex role human beings play in creating and sustaining traditions is evident in the indigenous mechanisms of change within the Islamic tradition *Politics of the Islamic Tradition* locates the work of Egyptian cleric Muhammad al Ghazali within the context of this dynamic Islamic tradition with special focus on his political thought Al Ghazali inherited a vast and diverse heritage which he managed to reinterpret in a changing world An innovative exploration of the change and continuity present within Muslim discourses this book brings together disparate threads of the Islamic tradition religious exegesis the contemporary Arab Middle East the Islamic state and idea of renewal in al Ghazali's thought As well as being one of the first complete treatments of al Ghazali's works this book provides an original critical approach to tradition and its capability for innovation and change countering the dichotomy between tradition and modernity that typically informs most scholarly studies on contemporary Islam Offering highly original insights into Islamic thought and engaging with critical notions of tradition this book is essential reading for students and scholars of Islamic Politics and History **Sacred Texts Interpreted** Carl Olson, 2017-10-05 Covering the major monotheistic religions Christianity Judaism and Islam as well as selected Eastern religions and Bah Zoroastrianism and Mormonism this cross cultural book offers excerpts of sacred texts and interprets passages to enable a deeper understanding of these religious writings *Sacred Texts Interpreted Religious Documents Explained* gives readers the opportunity to examine directly the primary sources of different religions and to better understand these texts through expert commentary on selected passages The interpretative material investigates the nature of sacred texts along with the relationship between sacred scripture and canon and it explains why these sacred texts have enduring significance and influence The author provides suggestions on how to read a sacred text before turning to the textual selections from 13 religious traditions arranged alphabetically beginning with the Bah religion and ending with Zoroastrianism Each chapter is devoted to the primary textual sources of a particular religious tradition and is prefaced by an introduction to the literature that places it within its historical and cultural heritage The emphasis for each religion is on

its foundational scriptures that are often considered sacred by its adherents Readers will gain a much greater appreciation of how powerful religious texts have always been across human culture and throughout millennia and of how religious thought and ideology have shaped daily life built civilizations inspired art and literature and incited wars and violence **A Concise Encyclopedia of the Philosophy of Religion** Anthony C. Thiselton, 2014-10-01 Covering thinkers from Plato to Freud offering detailed explanations of key themes such as evil and outlining clear definitions of complex ideas like the doctrine of analogy this is a comprehensive reference tool for all those studying or interested in the philosophy of religion **Japanese Mythology** Jun'ichi Isomae, Mukund Subramanian, 2016-04-08 Before the westernisation of Japan mythological events were treated as national history Two key documents have contributed to this history both written over 1300 years ago Kojiki the Tale of Old Age and Nihonshoki the Chronicle of Japanese History Both the Imperial Court and the general public searched for the origin of their identity in these documents which took on the central and sacred role of scripture Through the act of commentary and interpretation the sacred books connected interpreters to their historical origins authenticating where they came from the emergence of the Japanese archipelago and the uniqueness of the Japanese people Japanese Mythology explores the nation's attraction to this act of historical grounding and the varying identities that emerged during different historical periods The study reveals that rather than having any clear and unified substance Japanese mythology has always been the result of a nostalgic desire to retrieve historical origins **Contemporary Yoga and Sacred Texts** Susanne Scholz, Caroline Vander Stichele, 2024-09-10 This book explores the textual traditions that authorize the history legitimacy and authenticity of today's physical posture practice The volume focuses on why and how yoga communities have adopted various texts that they consider sacred or spiritually meaningful Among the texts discussed are Yogananda's Autobiography Sri Aurobindo's Savitri Patanjali's Yoga Sutra the Bhagavad Gita the Hatha Yoga Pradipika the Upanishads the Vedas and the Yogin Tantra Famous thinkers included are Aurobindo Yogananda Osho Rajneesh Sogyal Rimpoche Charles Johnston and Howard Thurman Offering a starting point the ten chapters address the nature selection and function of various ancient and contemporary texts read in contemporary yoga settings The attention centers on how and why texts are read and for whom they are read As yoga is practiced in ashrams yoga studios gyms meeting rooms and even private living rooms scholarly approaches to investigate the connections between yoga and texts are necessarily diverse This volume aims to inspire further scholarship on the reading of texts in past and present yoga communities The collection demonstrates that textual traditions deserve to be an important part of contemporary yoga scholarship The volume will therefore be of great interest to scholars of religious studies yoga studies and Asian studies as well as those studying sacred texts **The Word Among Us** Terry L. Burden, 2022-07-19 The Word Among Us Theologies of the Hebrew Bible Old Testament is a topical approach to the study of the Judeo Christian Bible Each topic is a survey of the many theological themes we encounter in the Biblical narrative such as the theology of Biblical History Torah Moses Election Covenant Land Kingship Prophecy and many more Special topics

include The Theology of the Fall of Israel Theology of Messianic Expectations and The Theology of Israel Of particular interest is The Theology of Story which introduces the story oriented literary discipline At the center of Biblical theology is the tragic fall of the Northern Kingdom of Israel in 722 B C E and the Southern Kingdom of Judah in 586 B C E From these periods many of the theological motifs such as covenant law and prophecy arise to address and to explain these tragedies in Israelite history The primary purpose of the present study is a better understanding of the theological function of these motifs or themes A theological function is the power of a Biblical narrative to constitute and to restore the Israelite people who were struggling to survive the late period of Biblical history A special feature of my study are the several promptings from Biblical topics of the many discussions that relate to the New Testament and Christian teachings My approach to the study of the Hebrew Bible Old Testament is unique among other introductions to the Hebrew Bible This book therefore is very important to both the Jewish and the Christian reader

Bees, Wasps, and Weasels Blaženka Scheuer, 2023-07-25 In this book Bla enka Scheuer explores the zoomorphic content of Zibburta bee wasp and Karku ta weasel demeaning names given by R Na man of b Meg 14b to Deborah and Huldah two distinguished prophets of the Hebrew Bible Looking closely at relevant texts she explores ancient beliefs about bees wasps and weasels recounting a variety of key literary and visual motifs that highlight the different attributes of these animals Scheuer demonstrates the multiple ways in which zoomorphic images were used as interpretative keys both in the formation of Deborah and Huldah stories in the Hebrew Bible and in their subsequent versions In a constant process of interaction with their cultural contexts such zoomorphism represents an attempt to define the rabbinic beliefs about the role of women in Jewish tradition but also about the nature of God Scheuer argues that the symbolic association of bees and weasels with asexual conception and birth also made the zoomorphic slurs about Deborah and Huldah effective as an argument against the doctrine of virgin birth in early Christianity Emphasizing the foundational process of constant negotiation of traditions and textual interpretations Scheuer exposes the culturally rich and religiously competitive world in which the biblical texts were transmitted
