CRACK99 David Locke Hall,2015-10-01 The utterly gripping story of the most outrageous case of cyber piracy prosecuted by the U S Department of Justice A former U S Navy intelligence officer David Locke Hall was a federal prosecutor when a bizarre sounding website CRACK99 came to his attention It looked like Craigslist on acid but what it sold was anything but amateurish thousands of high tech software products used largely by the military and for mere pennies on the dollar Want to purchase satellite tracking software No problem Aerospace and aviation simulations No problem Communications systems designs No problem Software for Marine One the presidential helicopter No problem With delivery times and customer service to rival the world s most successful e tailers anybody anywhere including rogue regimes terrorists and countries forbidden from doing business with the United States had access to these goods for any purpose whatsoever But who was behind CRACK99 and where were they The Justice Department discouraged potentially costly risky cases like this preferring the low hanging fruit that scored points from politicians and the public But Hall and his colleagues were determined to find the culprit They bought CRACK99 s products for delivery in the United States buying more and more to appeal to the budding entrepreneur in the man they identified as Xiang Li After winning his confidence they lured him to Saipan a U S commonwealth territory where Hall s own father had stormed the beaches with the marines during World War II There they set up an audacious sting that culminated in Xiang Li s capture and imprisonment The value of the goods offered by CRACK99 A cool 100 million An eye opening look at cybercrime and its chilling consequences for national security CRACK99 reads like a caper that resonates with every amazing detail **Complete CompTIA A+ Guide to PCs** Cheryl A.
