Linguistic Meaning Keith Allan, 2014-02-03 Dr Keith Allan presents a coherent consistent and comprehensive account of linguistic meaning centred around an informally presented theory of meaning It is intended for graduate and undergraduate students of linguistics or any linguist curious about what a theory of meaning should seek to accomplish and the way to achieve that

aim The work assumes that the primary task of a theory of linguistic meaning is to describe the meaning of speech acts This in turn presupposes a theory of semantics and a theory of prosodic meaning as well as a proper treatment of the co operative principle context and background information These matters are dealt with in detail The second task of a theory of linguistic meaning is to identify what meaning is to explain the relationships between sense and denotation and to explicate the nature of meaningful properties and meaning relations These matters are fully covered and the work concludes with a summary of the principle arguments presented

Tome 1 Philosophie du langage, Logique philosophique / Volume 1 Philosophy of language, Philosophical logic Guttorm Fløistad, G.H. Von Wright, 2012-12-06 The present publication is a continuation of two earlier series of chronicles Philosophy in the Mid Century Firenze 1958-59 and Contemporary Philosophy Firenze 1968 edited by Raymond KJibansky As with the earlier series the present chronicles purport to give a survey of significant trends in contemporary philosophical discussion The time space covered by the present series is approximately 1966-1978 The need for such surveys has I believe increased rather than decreased over the last years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the emergence of new schools of thought particularly in philosophical logic and the philosophy of language the convergence of interest though not necessarily of opinion of different traditions upon certain problems and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributory factors Surveys of the present kind are a valuable source of knowledge of this complexity and may as such be an assistance in renewing the understanding of one's own philosophical problems The surveys it is to be hoped may also help to strengthen the Socratic element of modern philosophy the dialogue or *Kommunikationsgemeinschaft* So far four volumes have been prepared for the new series The present chronicles in the Philosophy of Language and Philosophical Logic Vol I are followed by chronicles in the Philosophy of Science Vol II and Philosophy of Action Vol III
