Symbolism, Synesthesia, and Semiotics, Multidisciplinary Approach Bonaventure Balla, 2012-10-09 Have you ever heard about symbols and sounds or music inherently associated with colors Have you ever heard about people who always dream in color see sounds or hear colors odors and who cannot dissociate days of week months numbers and letters from specific colors This phenomenon is real and called synesthesia It can be literary scientific and or cognitive It is analyzed within the framework of symbolism and neuroscience It takes place in the left hemisphere of the human brain and the neo cortex It is activated by the limbic system and the tangling of two or more synapses In this book I aspire to reflect on this phenomenon under the auspices of symbolism and neuroscience However I will emphasize the literary aspect of synesthesia synesthesia as a metaphor while pondering on symbolism as a general trend along with its scientific and cognitive aspects      **Repetition and Semiotics** Stamos Metzidakis, 1986      **Semiotics and City Poetics** Mary Coghill, 2022-12-05 Roman Jakobson stands alone in his semiotic theory of poetic analysis which combines semiotics linguistics and structuralist poetics This groundbreaking book proposes methods for developing Jakobson s theories of communication and poetic function It provides

an extensive range of examples of the kinds of Formalist praxis that have been neglected in recent years developing them for the analysis of all poetry but especially the poetry of our urban future Throughout the book the parameters of a city poetic genre are proposed and established the book also develops the theory of the function of shifters and deixis with special reference to women as narrators It also instantiates an experimental poetic praxis based on the work of one of Jakobson's great influences Charles Sanders Peirce Steadfastly adhering to the text in itself this volume reveals the often surprising hitherto unconsidered structural and semiotic patterns within poems as a whole Johannine Christology Stanley E. Porter, Andrew W. Pitts, 2020-07-13 Johannine Christology provides a snapshot of the foremost investigations of this important topic by a selection of scholars representing a range of expertise in this field The volume is organized into four major parts which are concerned with the formation of Johannine Christology Johannine Christology in Hellenistic and Jewish contexts Christology and the literary character of the Johannine writings and the application of Christology for the Johannine audience and beyond The fifteen contributors to this volume comprise an international set of Johannine scholars who explore various ways of both describing and then pursuing the implications of Johannine Christology Their contributions focus primarily upon the Gospel but involve other key texts as well **The Semiotic Sphere** Thomas A. Sebeok, Jean Umiker-Sebeok, 2012-12-06 Although semiotics has in one guise or another flourished uninterruptedly since pre Socratic times in the West and important semiotic themes have emerged and developed independently in both the Brahmanic and Buddhist traditions semiotics as an organized undertaking began to bloom only in the 1960s Workshops materialized with a perhaps surprising spontaneity over much of Europe Eastern and Western and in North America Thereafter others quickly surfaced almost everywhere over the literate globe Different places strategically allied themselves with different legacies but all had a common thrust to aim at a general theory of signs by way of a description of different sign systems their comparative analysis and their classification More or less permanent confederations were forged with the most diverse academic disciplines and amazingly varied frameworks were devised suited to the needs of the times and the sites to carry the work of consolidation forward Bit by bit mutually supportive international networks were put together Today it can truly be asserted that semiotics has become a global enterprise This of course is far from saying that the map is uniform or even that world wide homogeneity is in the least desirable While our conjoint ultimate goal remains steadily in focus the multiplicity of avenues available for its realization is inherent in the adventure of the search itself The Semiotics of Performances Paul Bouissac, 2025-01-09 What is a live performance And why is semiotics the best approach for the analysis and interpretation of the performing arts Drawing on semiotic developments of the past five decades this book introduces students to the semiotic analysis of live performances and provides them with a clear method for untangling the multimodal complexity of performance from the spectator's point of view Presenting live performances as two way communication processes social events and cognitive and affective experiences each chapter of this highly accessible book begins first with

an overview of the basics This is followed by a case study and moves through to a more advanced discussion accompanied by suggestions for exercises and further reading Diagrams and flow charts help to clearly illustrate the conceptual tools used in the analytical process and a companion website contains recorded extracts from the live performances discussed in the book which students can use to put their knowledge into practice The book explores a broad range of performance types from across different cultures including music opera ballet theatre circus mime improvisation and immersion It offers a guide for understanding the way in which a performance is produced from an initial idea through to the final presentation in front of a live audience and provides the reader with the tools and understanding they need for a successful semiotic analysis of live performance

**Translingual Creative Writing Theory, Practice, and Pedagogy** Jennifer Quist,2025-05-15 In a challenge to monolingual Anglophone dominated creative writing workshops this book explores why and how students multilingual backgrounds and lack of fluency with the English language can emerge as assets rather than impediments to artistry and creativity Grounded in the Chinese tradition of Daoism as an ongoing discourse this exploration uses rigorous academic readings of the philosophical text the Zhuangzi as an analytical framework and takes a translingual approach to writing where translation and composition intersect inscribing one language upon another within a single text With concepts that resist expression such as inspiration uncertainty non knowing spontaneity unity forgetting the self and the perfection behind the imperfection of language Jennifer Quist demonstrates how Daoism s theories and metalanguage can re imagine creative writing education whilst de naturalizing the authority of English and Euro American literary traditions With analytical lenses derived from East Asia given context through translations of Chinese educators primary accounts of the history and theory of postsecondary creative writing education in 21st century China Quist develops a method for examining the practices of exemplary translingual writers from China Japan and their diasporas Featuring translingual writing prompts and practices for individual or classroom use by students at all levels of multilingualism Translingual Creative Writing Theory Practice and Pedagogy opens up the current workshop model and discloses the possibilities of linguistic transcendence for instructors and students With writing strategies based in cross cultural collaboration and balanced with de Anglicization of creative writing pedagogy this book calls to rework the structures methods and metaphors of the workshop and presents ideas for more collaborative collective equitable diverse and inclusive programs

Panorama s miotique      **Reading Visual Poetry After Futurism** Michael Webster,1995 Early in the century poets expanded the possibilities of their genre by creating sound poems by dispensing with syntax and punctuation and by arranging words and letters across the page in new visual patterns This book explores ways of reading the aesthetically challenging and semiotically subversive texts created by four poets F T Marinetti 1876 1944 Kurt Schwitters 1887 1948 and e e cummings 1894 1962 The book shows us how to read these experimental texts in a variety of interrelated ways as products of each poet s individual aesthetic as part of the avant garde s reaction to aestheticism as efforts to bring art closer to life and as attempts to c reate a new kind of semiotically and aesthetically open work The book concludes by emphasizing the individual invention of its four central figures rather than placing them in their usual roles as precursors to the concrete poetry movement of the fifties      **Semiotics, Self, and Society** Benjamin Lee,Greg Urban,1989 No detailed description available for Semiotics Self and Society      The Semiotic Web 1990: Recent Developments in Theory and History Thomas A.
