effectively meet the diverse literacy needs of the growing Latino population by learning how to evaluate and select quality Latino children's literature. Latinos are the fastest growing and largest ethnic minority in the United States. The number of Latino children is at a historic high. As a result, librarians and teachers in the United States must know how to meet the informational, cultural, and traditional literacy needs of this student demographic group. An ideal way to overcome this challenge is by providing culturally accurate and authentic children's literature that represents the diversity of the Latino cultures. Much more than simply a topical bibliography, this book details both historical and current practices in educating Latino children, explains why having quality Latino children's literature in classrooms and libraries is necessary for the ethnic identity development of Latino children, and offers a historical overview of Latino children's literature in America. Web resources of interest to educators working with Latino children are also included.

Library Services to Youth of Hispanic Heritage Barbara Immroth, Kathleen de la Peña McCook, 2000-05-15. As the United States becomes ever more comfortable with recognizing the cultural diversity of the many groups that make up its population, library services must seek to meet patrons' needs as they are shaped and expressed by their cultural backgrounds. This goal is particularly important for youth library services. For young people of Hispanic heritage, library services attuned to their specific needs and interests are crucial. Many librarians struggle with how to properly create and maintain library programs and collections that are suitable to the needs of Hispanic youth. In this series of essays prepared for the Trejo Foster Foundation for Hispanic Library Education, Fourth National Institute, national leaders in librarianship present their insights about how best to meet the needs of young Hispanic library patrons. The text is introduced by the editors, and the essays are arranged in parts: Programs, Collections, Planning and Evaluating, Bibliographical Resources, and For the Future. Information about the contributors and an index conclude the volume.
