**The Senses of Ornament** Bruno Pedretti,1990      The Understanding of Ornament in the Italian Renaissance Clare Lapraik Guest,2015-11-16 In this paradigm shifting study developed through close textual readings and sensitive analysis of artworks Clare Lapraik Guest re evaluates the central role of ornament in pre modern art and literature Moving from art and thought in antiquity to the Italian Renaissance she examines the understandings of ornament arising from the Platonic Aristotelian and Sophistic traditions and the tensions which emerged from these varied meanings The book views the Renaissance as a decisive point in the story of ornament when its subsequent identification with style and historicism are established It asserts ornament as a fundamental not an accessory element in art and presents its restoration to theoretical dignity as essential to historical scholarship and aesthetic reflection      **Senses of Style** Jeff Dolven,2024-05-31 In an age of interpretation style eludes criticism Yet it does so much tacit work telling time telling us apart telling us who we are What does style have to do with form history meaning our moment s favored categories What do we miss when we look right through it Senses of Style essays an answer An experiment in criticism crossing four hundred years and composed of nearly four hundred brief aphoristic remarks it is a book of theory steeped in examples drawn from the works and lives of two men Sir Thomas Wyatt poet and diplomat in the court of Henry VIII and his admirer Frank O Hara the midcentury American poet curator and boulevardier Starting with puzzle of why Wyatt s work spoke so powerfully to O Hara across the centuries Jeff Dolven ultimately explains what we talk about when we talk about style whether in the sixteenth century the twentieth or the twenty first      **The Art Journal** ,1902      **The technical educator, an encyclopædia** Technical educator,1888

*Writing Borderless Histories of Art* Claire Farago,2025-06-30 *Writing Borderless Histories of Art* is an aspirational historical and critical project that offers a fundamental rethinking of the relationship of humans to the rest of nature Social justice Indigeneity abuses of power and the environmental crisis are the burning issues of today A transcultural approach calls for abandoning structures of domination that are built into the academic disciplines regardless of the scale or extent of interpretation Drawing upon writings from a wide range of fields Claire Farago argues that Art History can play a role in advancing the public s interconnectedness with the planetary life support system that so urgently needs to be restored Studying the discourse on art at the intersection of global capitalism environmental degradation and human subjection over four centuries *Writing Borderless Histories of Art* advocates ontologies that do not distinguish between the sentience of humans and other animals and go beyond the dualistic metaphysics of the nature culture divide While this book is addressed to a wide audience its multilayered approach also reaches out to art historians for whom chronology canons and style are structures fundamental to the organization and operation of the discipline The book is neither a history of ideas nor a search for the origins of art history but a recognition of the structures that drive its narratives      *Elegant extracts ...
