Thomas, 2012-08-02 1 Introduction to sensory evaluation 2 The organization and operation of a sensory evaluation program 3 Measurement 4 Test strategy and the design of experiments 5 Discrimination testing 6 Descriptive analysis 7 Affective testing 8 Strategic applications 9 Epilogue

**Sensory Evaluation Practices** Herbert Stone, Joel L. Sidel, 2012-12-02 This Second Edition of Sensory Evaluation Practices provides the background and understanding necessary to make informed decisions about managing a sensory evaluation program designing tests and interpreting and reporting results The authors have been in the sensory management consulting business for more than 20 years and bring their expertise to the enthusiastic and comprehensive revision of this invaluable book Sensory evaluation of a product is the measurement of what is perceived about that product not only in terms of its efficacy but also by the more subtle influences of sight smell taste touch and where applicable sound A key benefit from this exciting and quantitative science is cost reduction in product reformulation due to the ability to evaluate a product's consumer acceptance in the marketplace Reveals changes in the field particularly in the business view of sensory evaluation as a product information source Clarifies

the relationships between product specialists experts and sensory panels between sensory and market research and between study of perception and sensory evaluation of products Includes discussion of test requests and their hidden agenda product selection and the relative merits of testing products from different laboratory pilot plant production sources Introduces two new methods of quantitative descriptive analysis and an investigation of the merits of product specific versus global panels Discusses affective testing and the advantages of various methods including testing with children the interaction between sensory and market research the use of employees versus non employees and the effect of the number of judgments on product decisions *Food Science: An Ecological Approach* Sari Edelstein, 2018-01-16 *Food Science An Ecological Approach* presents the field of food science the study of the physical biological and chemical makeup of food and the concepts underlying food processing in a fresh approachable manner that places it in the context of the world in which we live today

Surimi and Surimi Seafood Jae W. Park, 2013-11-12 Originating in Japan in the twelfth century surimi is refined fish myofibrillar proteins produced through various processes The development of the surimi product crabstick in Japan in the 1970s played a major role in globalizing surimi and expanding surimi seafood consumption to the United States Europe and Russia Commercial surimi production Statistical Methods for Food Science John A. Bower, 2009-11-09 The recording and analysis of food data are becoming increasingly sophisticated Consequently the food scientist in industry or at study faces the task of using and understanding statistical methods Statistics is often viewed as a difficult subject and is often avoided because of its complexity and a lack of specific application to the requirements of food science This situation is changing there is now much material on multivariate applications for the more advanced reader but a case exists for a univariate approach aimed at the non statistician This book provides a source text on accessible statistical procedures for the food scientist and is aimed at professionals and students in food laboratories where analytical instrumental and sensory data are gathered and require some form of summary and analysis before interpretation It is suitable for the food analyst the sensory scientist and the product developer and others who work in food related disciplines involving consumer survey investigations will also find many sections of use There is an emphasis on a hands on approach and worked examples using computer software packages and the minimum of mathematical formulae are included The book is based on the experience and practice of a scientist engaged for many years in research and teaching of analytical and sensory food science at undergraduate and post graduate level Food Science, Production, and Engineering in Contemporary Economies Jean-Vasile, Andrei, 2016-05-12 As the population of the world continues to surge upwards it is apparent that the global economy is unable to meet the nutritional needs of such a large populace In an effort to circumvent a deepening food crisis it is pertinent to develop new sustainability strategies and practices Food Science Production and Engineering in Contemporary Economies features timely and relevant information on food system sustainability and production on a global scale Highlighting best practices theoretical concepts and emergent research in the field this book is a critical resource for
