Psychology and Mental Health James Arthur Hadfield,2022-02-11 First published in 1950 Psychology and Mental Health describes the origin of behaviour disorders and the psychoneuroses especially as regards their causes in early childhood Most psychologists agree that such disorders as hysteria sex perversion the obsessions and anxiety states as well as many behaviour disorders and delinquencies find their roots in childhood experiences If this is the case it should be possible to prevent them from developing into full blown neurotic disorders which may take years to cure The purpose of this book is to describe the early causes of these disorders with a view to their treatment but more particularly with a view to their prevention As mental health is the concern not only of the doctor but of the parson and the priest of the teacher and the parent this book is written in non technical language as far as the demands of accuracy will allow It embodies the result of over thirty years experience in the treatment of patients suffering from these disorders and the views here maintained which differ somewhat from the other analytic schools are illustrated with clinical examples throughout This book is a reissue originally published in 1950 The language used reflects its era and no offence is meant by the Publishers to any reader by this republication

Coining for Capital Jyotsna Kapur,2005-07-11 Since the 1980s a peculiar paradox has evolved in American film Hollywood s children have grown up and the adults are looking and behaving more and more like children In popular films such as Harry Potter Toy Story Pocahantas Home Alone and Jumanji it is the children who are clever savvy and self sufficient while the adults are often portrayed as bumbling and ineffective Is this transformation of children into little adults an invention of Hollywood or a product of changing cultural definitions more broadly In Coining for Capital Jyostna Kapur explores the evolution of the concept of childhood from its portrayal in the eighteenth century as a pure innocent and idyllic state the opposite of adulthood to its expression today as a mere variation of adulthood complete with characteristics of sophistication temptation and corruption Kapur argues that this change in definition is not a media effect but rather a structural feature of a deeply consumer driven society Providing a new and timely perspective on the current widespread alarm over the loss of childhood Coining for Capital concludes that our present moment is in fact one of hope and despair As

children are fortunately shedding false definitions of proscribed innocence both in film and in life they must now also learn to navigate a deeply inequitable antagonistic and consumer driven society of which they are both a part and a target

Girls, Boys, and Junior Sexualities Emma Renold, 2005 This book takes an unrelenting look at the hidden worlds of young children's sexualities

Picturing the Woman-Child Morna Laing, 2021-01-28 The childlike character of ideal femininity has long been critiqued by feminists from Mary Wollstonecraft to Simone de Beauvoir Yet women continue to be represented as childlike in the western fashion media despite the historical connotations of inferiority This book questions why such images still hold appeal to contemporary women after three or even four waves of feminism Focusing on the period of 1990-2015 Picturing the Woman Child traces the evolution of childlike femininity in British fashion magazines including Vogue i D and Lula Girl of my Dreams These images draw upon a network of references from Kinderwhore and Lolita to Alice in Wonderland and the femme enfant of Surrealism Alongside analysis of fashion photography the book presents the findings of original research into audience reception Inviting contemporary women to comment on images of the woman child provides an insight into the meaning of this figure as well as an evaluation of theory on the female gaze Both scholarly and accessible the book paves the way for future studies on how readers make sense of fashion imagery

The heart of the Church - the heart of the Country Part 1 Johann Theron, 2025-03-31 I am writing this book primarily for the ministers of the Word and the confessing members of the Dutch Reformed Church of South Africa With the confession we made before God and His congregation we subjected ourselves to the authority of the Word of God and the Confessions of the church We vowed to remain steadfast in this doctrine until the end of our lives and to reject all teachings that contradict it Especially in the Reformed tradition the divine election has been regarded as the heart of the church the cor ecclesiae The Confessions teach that God's gracious election does not occur based on any quality in mankind but that mankind is saved solely by God's grace in Jesus Christ In the history of the Dutch Reformed Church in South Africa this confession has been compromised by accommodating racial prejudices This has torn the church apart and built a wall of separation This dividing wall stands in direct opposition to the Word of God which teaches us that Jesus Christ through His blood has broken down the dividing wall Eph 2:14 In Christ's church there is no Gentile or Jew circumcised or uncircumcised barbarian Scythian slave or free but Christ is all and is in all Col 3:11 The Holy Communion is above all the symbol of this unity of Christ's Body the church It is precisely in the Communion that this division began deeply affecting the heart of the church The wall of separation that was built became entrenched in the structure of the church and later of the whole country It is my conviction that rediscovering the heart of the church can bring healing to a fractured church and a divided country because the heart of the nation has been shaped spiritually and structurally by the Dutch Reformed Church Therefore the healing of the heart of the church will also bring restoration to the heart of the country This book also contains valuable information for researchers It includes transcribed excerpts from the handwritten minutes of the Dutch Reformed Church in Somerset West formerly known as

Somerset Hottentots Holland the Dutch Reformed Church in Stockenström located in the towns of Hertzog and Balfour the Dutch Reformed Grey Church as well as the Presbytery of Albany and the Cape Synod of 1829 1857 1862 1863 1881 and 1883 concerning the unity and division of the church There are also excerpts from various church newspapers and magazines related to this issue The relevant minutes and reports are linked in the text to the transcribed Dutch which are included as appendices at the end of the book For quick reference links from the appendices back to the headings in the text have also been provided Efforts were made to keep the English text my translation in the book as close as possible to the original Dutch The book is written in two parts Part 1 deals mostly with the nineteenth century history of the Dutch Reformed Church while Part 2 which will follow later will examine the twentieth century and the further developments in the Dutch Reformed Church on this matter May Jesus Christ the Word of God heal the heart of the church and the heart of the country even if the sword of His Holy Spirit must cut between joints and marrow to remove sin

Rethinking Therapeutic Culture Timothy Aubry, Trysh Travis, 2015-06-05 Social critics have long lamented America's descent into a culture of narcissism as Christopher Lasch so lastingly put it fifty years ago From first world problems to political correctness from the Oprahfication of emotional discourse to the development of Big Pharma products for every real and imagined pathology therapeutic culture gets the blame Ask not where the stereotype of feckless overmedicated half paralyzed millennials comes from for it comes from their parents therapist's couches *Rethinking Therapeutic Culture* makes a powerful case that we've got it all wrong Editors Timothy Aubry and Trysh Travis bring us a dazzling array of contributors and perspectives to challenge the prevailing view of therapeutic culture as a destructive force that encourages narcissism insecurity and social isolation The collection encourages us to examine what legitimate needs therapeutic practices have served and what unexpected political and social functions they may have performed Offering both an extended history and a series of critical interventions organized around keywords like pain privacy and narcissism this volume offers a more nuanced empirically grounded picture of therapeutic culture than the one popularized by critics *Rethinking Therapeutic Culture* is a timely book that will change the way we've been taught to see the landscape of therapy and self help
