Sentencing Fragments Michael Tonry, 2015-12-02 Almost everyone agrees Right on Crime the ACLU Koch Industries George Soros's Open Society Foundation the editorial boards of the New York Times and the Wall Street Journal that America's current systems for sentencing criminal offenders are a shambles with crazy quilts of incompatible and conflicting laws policies and practices in every state and the federal system Most everyone agrees that punishments are too severe and too many people are in prison However the kinds of major changes required to undo mass incarceration and rebuild American sentencing are simply not happening Despite well intentioned rhetoric and media coverage there has been very little meaningful change In *Sentencing Fragments* Michael Tonry explains what needs to be done to rebuild just systems of sentencing and punishment and how to do it This book tells the story of sentencing policy changes since 1975 examines research findings concerning their effects and explains what does and does not work Beyond calling attention to the devastating effects on the lives of the poor and disadvantaged and the latest empirical evidence Tonry identifies the common moral theories behind criminal sentencing as well as their larger assumptions about human nature and discusses the ways in which different theories have bred very different sentencing policies *Sentencing Fragments* concludes with a set of proposals for creating better policies and practices for the future calling for American legislators and politicians to remake sentencing into the humane and just process that it always should have been In lucid and engaging prose Michael Tonry reveals the historical foundation for the current state of the American criminal justice system while simultaneously offering a game plan for long overdue reform

Champion, 1989-11-03 A distinguished group of noted criminal justice specialists here examines the impact of the new U S sentencing guidelines imposed in 1987 on law enforcement the prosecution and courts and corrections Although these guidelines were created with the expressed purpose of increasing judicial fairness and reducing prison overcrowding the contributors argue that their long range effects will be to aggravate present overcrowding problems to intolerably high levels To make their case contributors address individually such issues as plea bargaining the new role of parole and corrections officers the likely effects of the scheduled abolition of the parole board in 1992 and more Both students of criminal justice and practicing parole and corrections officers will find these chapters enlightening reading Following an introductory overview that puts the U S sentencing guidelines in perspective two chapters discuss their impact on law enforcement officer discretion and crime control and deterrence Turning to an exploration of the courts the contributors address prosecutorial discretion in plea bargaining judicial discretion and sentencing disparities case processing and sentencing alternatives and how predictions of dangerousness affect the sentencing process In their analysis of the relationship between the sentencing guidelines and corrections trends the contributors examine issues such as community based corrections and privatization inmate litigation and constitutional issues and recidivism Finally editor Dean Champion offers a perceptive synthesis of the volume by summarizing the serious problems posed by imposition of the U S sentencing guidelines Four appendices provide additional related information for the student and researcher

Predictive Sentencing Jan W de Keijser, Julian V Roberts, Jesper Ryberg, 2019-05-16 Predictive Sentencing addresses the role of risk assessment in contemporary sentencing

practices Predictive sentencing has become so deeply ingrained in Western criminal justice decision making that despite early ethical discussions about selective incapacitation it currently attracts little critique Nor has it been subjected to a thorough normative and empirical scrutiny This is problematic since much current policy and practice concerning risk predictions is inconsistent with mainstream theories of punishment Moreover predictive sentencing exacerbates discrimination and disparity in sentencing Although structured risk assessments may have replaced gut feelings and have now been systematically implemented in Western justice systems the fundamental issues and questions that surround the use of risk assessment instruments at sentencing remain unresolved This volume critically evaluates these issues and will be of great interest to scholars of criminal justice and criminology

Sentencing Multiple Crimes Jesper Ryberg, Julian V. Roberts, Jan Willem de Keijser, 2018 *Sentencing Multiple Crimes* confronts the practical and theoretical challenges for the criminal justice system when punishing multiple crime offenders including the proportionality of the crimes committed the temporal span between the crimes and the relationship between theories about the punitive treatment of recidivists and multiple offenders It provides a comprehensive examination of the dynamics involved with sentencing multiple offenders from the perspective of several legal theories

The Social Contexts of Criminal Sentencing Martha A. Myers, Susette M. Talarico, 2012-12-06 Historically the announcement and invocation of criminal penalties were public spectacles Today fear of crime and disaffection with the criminal justice system guarantee that this public fascination with punishment continues In the past decade virtually every legislature in the country has undertaken sentencing reform in the hope that public concern with crime would be allayed and disparities in criminal sentences would be reduced if not eliminated Scholars have intensified

their longstanding preoccupation with discrimination and the sources of disparate treatment during sentencing issues that continue to fuel contemporary reform efforts As documented in Chapter 1 empirical research on sentencing has concentrated much of its attention on the offender Only recently have attempts been made to imbed sentencing in its broader organizational and social contexts Our study extends these attempts by quantitatively analyzing the relationship between the offender and the social contexts in which he or she is sentenced We use data on felony sentencing in Georgia between 1976 and 1985 to ask three questions The first addresses an issue of perennial concern during sentencing how important are offender attributes both those of explicit legal relevance and traits whose legal relevance is questionable or nonexistent The second question directs attention to the social contexts of sentencing and asks whether they directly affect sentencing outcomes

Determinate Sentencing Pamela L. Griset, 1991-07-03 This book discusses in depth the rise and fall of the determinate ideal once heralded as a replacement to the old order of criminal justice Using new materials and combining political empirical and theoretical perspectives Griset examines the attempt in New York State to establish determinate sentencing punishment for its own sake to replace the existing policy of rehabilitation In portraying New York's experience against the backdrop of a national reform agenda she analyzes the development and ultimate failure of a major social movement

social good may be promoted by allocating parts of the most important task of the criminal court that of determining legal punishment to computerized sentencing algorithms The Right to Be Punished Gabriel Hallevy, 2012-10-12 Does an offender have the right to be punished The right to be punished may sound like an oxymoron but it is not necessarily so With the emergence of modern criminal law the offender gained the right to be punished by rational criminal law rather than being lynched by an angry mob The present day offender may have the right to be punished by doctrinal sentencing rather than being subjected to verdicts based on vague unclear and uncertain principles In modern criminal law the imposition of criminal liability follows accurate and strict rules whereas there are no similar rules for the imposition of punishment The process of sentencing is vague and obscure as are the considerations used for the imposition of punishments The objective of the present book is to propose a comprehensive general and legally sophisticated theory of modern doctrinal sentencing The challenges of such a legal theory are plenty and complex In addition to increasing clarity and certainty modern doctrinal sentencing must deal with modern types of delinquency e g organized crime recidivism corporate offenders high tech offenses etc and modern principles of criminal law Modern doctrinal sentencing must serve to ensure optimal sentencing

Just Sentencing Richard S. Frase, 2013 This title presents a fully developed punishment theory which incorporates both utilitarian and retributive sentencing purposes The author describes and defends a hybrid sentencing model that integrates theory and practice blending and balancing both the competing principles of retribution and rehabilitation and the procedural concern of weighing rules against discretion
