Sentimental Imperialists James Claude Thomson, Peter W. Stanley, John Curtis Perry, 1985 *This Rebellious House* Steven J. Keillor, 1996-10-03 Examining United States history from Columbus to Clinton Steven J Keillor disabuses us of the notion that our nation has ever been a genuinely Christian one He focuses on various political economic and cultural policies or events the Civil War westward expansion that are now often cited to disprove or debunk Christianity **Sentimental Imperialists (videorecording)**. , 1992 *Almost All Aliens* Paul Spickard, 2009-05-07 *Almost All Aliens* offers a unique reinterpretation of immigration in the history of the United States Leaving behind the traditional melting pot model of immigrant assimilation Paul Spickard puts forward a fresh and provocative reconceptualization that embraces the multicultural reality of immigration that has always existed in the United States His astute study illustrates the complex relationship between ethnic identity and race slavery and colonial expansion Examining not only the lives of those who crossed the Atlantic but also those who crossed the Pacific the Caribbean and the North American Borderlands *Almost All Aliens* provides a distinct inclusive analysis of immigration and identity in the United States from 1600 until the present For additional information and classroom resources please visit the *Almost All Aliens* companion website at www.routledge.com/textbooks/almostallaliens **The Vietnam Lobby** Joseph G. Morgan, 2000-11-09 Established in 1955 as a private advocacy group the American Friends of Vietnam worked to influence U S attitudes and policies toward Vietnam for nearly two decades AFV members wrote articles gave speeches sponsored aid drives and forged ties with journalists academics and government officials in an effort to generate American assistance for South Vietnam In *The Vietnam Lobby* Joseph Morgan shifts the focus away from the much examined antiwar demonstrations that took place in America to concentrate instead on the actions of those who endorsed U S intervention in Vietnam Drawing on a wide range of documentary sources Morgan presents a comprehensive study of the AFV and its activities He traces the group s establishment and growth examines its internal organization and politics and ultimately evaluates its effectiveness in guiding government policy and public opinion Morgan also assesses the charges of antiwar critics who claimed the AFV exerted an excessive perhaps disastrous influence in shaping America s Vietnam policy Finally he offers insights into the thinking of those who believed that the United States had the unique ability even the obligation to help shape Vietnam s future Originally published in 1997 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **Imperial Alibis** Stephen Rosskamm Shalom, 1993 Lucidly argued and carefully documented Stephen Shalom s study of the pretexts for intervention is an invaluable guide to the recent past and unlikely future Noam Chomsky author of *Necessary Illusions* Lightning Print On Demand Title **Night on Earth** Davide Rodogno, 2021-12-09 *Night on Earth* is a broad ranging account of international

humanitarian programs in Central and Eastern Europe the Balkans and the Near East from 1918 to 1930 Davide Rodogno shows that international relief and development were intertwined long before the birth of the United Nations with humanitarians operating in a region devastated by war and famine and in which state sovereignty was deficient Influenced by colonial motivations and ideologies these humanitarians attempted to reshape entire communities and nations through reconstruction and rehabilitation programmes The book draws on the activities of a wide range of secular and religious organisations and philanthropic foundations in the US and Europe including the American Relief Administration the American Red Cross the Quakers Save the Children the Near East Relief the American Women s Hospitals the League of Nations and the International Committee of the Red Cross [The China Mystique](#) Karen J. Leong,2005-07-25 Throughout the history of the United States images of China have populated the American imagination Always in flux these images shift rapidly as they did during the early decades of the twentieth century In this erudite and original study Karen J Leong explores the gendering of American orientalism during the 1930s and 1940s Focusing on three women who were popularly and publicly associated with China Pearl S Buck Anna May Wong and Mayling Soong Leong shows how each negotiated what it meant to be American Chinese American and Chinese against the backdrop of changes in the United States as a national community and as an international power The China Mystique illustrates how each of these women encountered the possibilities as well as the limitations of transnational status in attempting to shape her own opportunities During these two decades each woman enjoyed expanding visibility due to an increasingly global mass culture rising nationalism in Asia the emergence of the United States from the shadows of imperialism to world power and the more assertive participation of women in civic and consumer culture *The Fortnightly Review* ,1899 **Uncle Sam's War of 1898 and the Origins of Globalization** Thomas D. Schoonover,2013-07-24 The roots of American globalization can be found in the War of 1898 Then as today the United States actively engaged in globalizing its economic order its political institutions and its values Thomas Schoonover argues that this drive to expand political and cultural reach the quest for wealth missionary fulfillment security power and prestige was inherited by the United States from Europe especially Spain and Great Britain Uncle Sam s War of 1898 and the Origins of Globalization is a pathbreaking work of history that examines U S growth from its early nationhood to its first major military conflict on the world stage also known as the Spanish American War As the new nation s military industrial and economic strength developed the United States created policies designed to protect itself from challenges beyond its borders According to Schoonover a surge in U S activity in the Gulf Caribbean and in Central America in the late nineteenth and early twentieth centuries was catalyzed by the same avarice and competitiveness that motivated the European adventurers to seek a route to Asia centuries earlier Addressing the basic chronology and themes of the first century of the nation s expansion Schoonover locates the origins of the U S goal of globalization U S involvement in the War of 1898 reflects many of the fundamental patterns in our national history exploration and discovery labor exploitation

violence racism class conflict and concern for security that many believe shaped America's course in the twentieth and twenty first century Postcolonial Theory and the United States Amritjit Singh, Peter Schmidt, 2009-11-12 At the beginning of the twenty first century we may be in a transnational moment increasingly aware of the ways in which local and national narratives in literature and elsewhere cannot be conceived apart from a radically new sense of shared human histories and global interdependence To think transnationally about literature history and culture requires a study of the evolution of hybrid identities within nation states and diasporic identities across national boundaries Studies addressing issues of race ethnicity and empire in US culture have provided some of the most innovative and controversial contributions to recent scholarship Postcolonial Theory and the United States Race Ethnicity and Literature represents a new chapter in the emerging dialogues about the importance of borders on a global scale This book collects nineteen essays written in the 1990s in this emergent field by both well established and up and coming scholars Almost all the essays have been either especially written for this volume or revised for inclusion here These essays are accessible well focused resources for college and university students and their teachers displaying both historical depth and theoretical finesse as they attempt close and lively readings The anthology includes more than one discussion of each literary tradition associated with major racial or ethnic communities Such a gathering of diverse complementary and often competing viewpoints provides a good introduction to the cultural differences and commonalities that comprise the United States today The volume opens with two essays by the editors first a survey of the ideas in the individual pieces and second a long essay that places current debates in US ethnicity and race studies within both the history of American studies as a whole and recent developments in postcolonial theory

Life and Adventure in Japan Daniel A. Metraux, Jessica Puglisi, 2002-02 E Warren Clark's 1878 book *Life and Adventure in Japan* is an exquisite portrait of Japan in the 1870s Japan had just opened itself to the West and had commenced a vigorous program of modernization Clark a young American scientist and missionary worked in Japan for 4 years as a teacher meeting many of Japan's leaders including the Emperor His book reproduced here provides a fascinating personal view of Japan during this critical stage of history The editors introduction place Clark's work in historical context **American**

Season of High Adventure S. Bernard Thomas,2024-06-07 In 1928 Edgar Snow 1905 1972 set out to see the world hoping to make his mark as a travel adventure writer Shanghai was to be a mere stopover but Snow stayed on in China for thirteen more years The idealistic young Midwesterner became a journalist and ultimately developed close friendships with China s emerging revolutionary leaders His 1938 classic Red Star over China strongly influenced American views of the Chinese Communists and is still in print nearly sixty years later This biography breaks fresh ground with its unique and extensive use of Snow s diaries of over forty years These writings convey Snow s private hopes and fears his moods and motivations Thomas skillfully links them with Snow s public writings and deeds By recreating the milieu in which Snow worked in China Thomas provides a clearer understanding of both the man and his times Snow came to China devoid of any political agenda or sinological background He returned home a politically astute China hand and famed journalist author His writing had taken on the nature of political action which resulted in troubled soul searching that Snow usually confined to his diary

Thomas's portrait of Ed Snow reveals a man caught up in an important historical moment a man who profoundly influenced and was influenced by the events that swirled around him This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997 **The Fortnightly**

,1901 *Fighting for American Manhood* Kristin L. Hoganson,1998-01-01 This groundbreaking book blends international relations and gender history to provide a new understanding of the Spanish American and Philippine American wars Kristin L. Hoganson shows how gendered ideas about citizenship and political leadership influenced jingoist political leaders' desire to wage these conflicts and she traces how they manipulated ideas about gender to embroil the nation in war She argues that racial beliefs were only part of the cultural framework that undergirded U.S. martial policies at the turn of the century Gender beliefs also affected the rise and fall of the nation's imperialist impulse Drawing on an extensive range of sources including congressional debates campaign speeches political tracts newspapers magazines political cartoons and the papers of politicians soldiers suffragists and other political activists Hoganson discusses how concerns about manhood affected debates over war and empire She demonstrates that jingoist political leaders distressed by the passing of the Civil War generation and by women's incursions into electoral politics embraced war as an opportunity to promote a political vision in which soldiers were venerated as model citizens and women remained on the fringes of political life These gender concerns not only played an important role in the Spanish American and Philippine American wars they have echoes in later time periods says the author and recognizing their significance has powerful ramifications for the way we view international relations Yale Historical Publications *Trustee for the Human Community* Robert A. Hill,Edmond J. Keller,2010-08-15 Ralph J. Bunche 1904-1971 winner of the Nobel Peace Prize in 1950 was a key U.S. diplomat in the planning and creation of the United Nations in 1945 In 1947 he was invited to join the permanent UN Secretariat as director of the new Trusteeship Department In this position Bunche played a key role in setting up the trusteeship system that provided important impetus for postwar decolonization ending European control of Africa as well as an international framework for the oversight of the decolonization process after the Second World War *Trustee for the Human Community* is the first volume to examine the totality of Bunche's unrivalled role in the struggle for African independence both as a key intellectual and an international diplomat and to illuminate it from the broader African American perspective These commissioned essays examine the full range of Ralph Bunche's involvement in Africa The scholars explore sensitive political issues such as Bunche's role in the Congo and his views on the struggle in South Africa *Trustee for the Human Community* stands as a monument to the profoundly important role of one of the greatest Americans in one of the greatest political movements in the history of the twentieth century Contributors David Anthony Ralph A.
