Sentimental Journey 319:

Laurence Sterne Alan B. Howes, 2002-09-09 The Critical Heritage gathers together a large body of critical sources on major figures in literature Each volume presents contemporary responses to a writer's work enabling student and researcher to read the material themselves **Mourning Happiness** Vivasvan Soni, 2010 A work of rare scope and power that grapples with the big questions Is happiness the proper end of life as the Greeks conceived it to be or is life as it appears since the early English novel an endless trial Adam Potkay MusicMaster Paul C. Mawhinney, 1983 Music directory with records for artists titles labels and year of release for 45 RPM records published between 1947 and 1982 Classic Tales, 1906 *An Archaeology of Sympathy* James Chandler, 2013-06-17 In the middle of the eighteenth century something new made itself felt in European culture a tone or style that came to be called the sentimental The sentimental mode went on to shape not just literature art music and cinema but people's very structures of feeling their ways of doing and being In what is sure to become a critical classic *An Archaeology of Sympathy* challenges Sergei Eisenstein's influential account of Dickens and early American film by tracing the unexpected history and intricate strategies of the sentimental mode and showing how it has been reimagined over the past three centuries James Chandler begins with a look at Frank Capra and the Capraesque in American public life then digs back to the eighteenth century to examine the sentimental substratum underlying Dickens and early cinema alike With this surprising move he reveals how literary spectatorship in the eighteenth century anticipated classic Hollywood films such as Capra's *It Happened One Night* *Mr Deeds Goes to Town* and *It's a Wonderful Life* Chandler then moves forward to romanticism and modernism two cultural movements often seen as defined by their rejection of the sentimental examining how authors like Mary Shelley Joseph Conrad James Joyce and Virginia Woolf actually engaged with sentimental forms and themes in ways that left a mark on their work Reaching from Laurence Sterne to the Coen brothers *An Archaeology of Sympathy* casts new light on the long eighteenth century and the novelistic forebears of cinema and our modern world **A Culture of Mimicry** Warren L. Oakley, 2010 After his death in 1768 the famous novelist Laurence Sterne did not rest undisturbed in his grave While rumours of the theft and dissection of Sterne's corpse circulated in the anatomy schools numerous writers took possession of his literary body of work New forms of Sternean entertainment were produced by literary mimics who impersonated the author through the medium of print impersonations which included startling and unique interpretations of Sterne's character and fiction Warren Oakley introduces two new critical concepts to eighteenth century literary study bodysnatching and mimicry to understand these texts that have been neglected and overlooked in Sterne studies This lucid account reveals the personal stories of such literary mimics the creative techniques they employed and the consequences of their actions upon the posthumous perception of Sterne the man and his cadaverous goods **The Life and Times of Laurence Sterne** Wilbur Lucius Cross, 1909 **The American**, 1887 *Systems Failure* Andrew Franta, 2019-04-16 How eighteenth century writers stretched systems designed to explain social relations to

their breaking point showing the flaws in their design The Enlightenment has long been understood and often understood itself as an age of systems In 1759 Jean Le Rond d'Alembert one of the architects of the Encyclopédie claimed that the true system of the world has been recognized developed and perfected In *Systems Failure* Andrew Franta challenges this view by exploring the fascination with failure and obsession with unpredictable social forces in a range of English authors from Samuel Johnson to Jane Austen Franta argues that attempts to extend the Enlightenment's systematic spirit to the social world prompted many prominent authors to reject the idea that knowledge is synonymous with system In readings of texts ranging from novels by Sterne Smollett Godwin and Austen to Johnson's literary biographies and De Quincey's periodical essays Franta shows how writers repeatedly take up civil and cultural institutions designed to rationalize society only to reveal the weaknesses that inevitably undermine their organizational and explanatory power Diverging from influential accounts of the rise of the novel *Systems Failure* audaciously reveals that in addition to representing individual experience and social reality the novel was also a vehicle for thinking about how the social world resists attempts to explain or comprehend it Franta contends that to appreciate the power of systems in the literature of the long eighteenth century we must pay attention to how often they fail and how many of them are created for the express purpose of failing In this unraveling literature arrives at its most penetrating insights about the structure of social life

novelists experimented with different forms and genres epistolary novels romances Gothic thrillers novels in verse parodies science fiction episodic road trips and family sagas along with quirky unclassifiable experiments in fiction that resemble contemporary avant garde works As in his previous volume Moore privileges the innovators and outriders those who kept the novel novel In the most comprehensive history of this period ever written Moore examines over 400 novels from around the world in a lively style that is as entertaining as it is informative Though written for a general audience *The Novel An Alternative History* also provides the scholarly apparatus required by the serious student of the period This sequel like its predecessor is a zestfully encyclopedic avidly opinionated and dazzlingly fresh history of the most elastic of literary forms
