The Separation of Church and State in Italian Thought from Cavour to Mussolini Samuel William Halperin, 1971 *A History of Italian Unity* Bolton King, 1924 **Italy from Liberalism to Fascism** Christopher Seton-Watson, 2024-03-08 First published in 1967 Italy from Liberalism to Fascism is essentially the political history of Italy concerned with both domestic and foreign policy and their interaction Designed in chronological order the book is divided into four parts the consolidation of Italy after its unification the stresses and strains the country went through the expansion of liberalism and the onset and development of fascism This seminal book on the history of Italy will be of interest to students of history and political science

Nineteenth-Century European Catholicism Eric C. Hansen, 2017-09-07 Included in this bibliography originally published in 1989 are books pamphlets dissertations and articles from periodicals and collections published for the most part since 1900 which present Catholic development in the nineteenth century as its major theme Each entry is annotated with the major idea or theme of the work as expressed by its author or editor This title will be of interest to students of European History and Religious Studies *The Oxford Handbook of Italian Politics* Erik Jones, Gianfranco Pasquino, 2015 The Oxford Handbook of Italian Politics provides a comprehensive look at the political life of one of Europe's most exciting and turbulent democracies Under the hegemonic influence of Christian Democracy in the early post World War II decades Italy went through a period of rapid growth and political transformation In part this resulted in tumult and a crisis of governability however it also gave rise to innovation in the form of Eurocommunism and new forms of political accommodation The great strength of Italy lay in its constitution its great weakness lay in certain legacies of the past Organized crime popularly but not exclusively associated with the mafia is one example A self contained and well entrenched caste of political and economic elites is another These weaknesses became apparent in the breakdown of political order in the late 1980s and early 1990s This ushered in a combination of populist political mobilization and experimentation with electoral systems design and the result has been more evolutionary than transformative Italian politics today is different from what it was during the immediate post World War II period but it still shows many of the influences of the past *A History of Italian Law* Carlo Calisse, 1928 *Benedetto Croce and Italian Fascism* Fabio Fernando Rizi, Rizi, 2003-01-01 Benedetto Croce and Italian Fascism provides a unique analysis of the political life of the major Italian philosopher and literary figure Benedetto Croce 1866 1932 Drawing on a variety of resources rarely used before in Croce studies including police documents archival materials and the private edition of Croce's diaries the Taccuini published in recent years Fabio Rizi sheds new light on Croce and his influence throughout the Fascist era Tracing important events and influences in Croce's life this biography clarifies misconceptions about his political contributions and his role in the resistance movement Well documented and insightful Benedetto Croce and Italian Fascism offers a valuable contribution to Croce studies Book Jacket *Italian Colonialism* R. Ben-Ghiat, M. Fuller, 2016-04-30 Italian Colonialism is a pioneering anthology of texts by scholars from seven

countries who represent the best of classical and newer approaches to the study of Italian colonization Essays on the political economic and military aspects of Italian colonialism are featured alongside works that reflect the insights of anthropology race and gender studies film architecture and oral and cultural history The volume includes many essays by Italian and African scholars that have never been translated into English It is a unique resource that offers students and scholars a comprehensive view of the field *Routledge Library Editions: 19th Century Religion* Various Authors,2021-07-09 Reissuing works originally published between 1973 and 1997 Routledge Library Editions 19th Century Religion 18 volumes offers a selection of scholarship covering historical developments in religious thinking Topics include the origin of Catholicism in America sexual liberation and religion in Europe and the emergence of Atheism in Victorian England This set also includes collections of sermons and essays from some of the most influential preachers of the nineteenth century Appletons' Annual Cyclopædia and Register of Important Events of the Year ... ,1887 *Appletons' Annual Cyclopedia and Register of Important Events* ,1887 Watson's Jeffersonian Magazine ,1879 **Watson's Magazine** Thomas Edward Watson,1913

Catholicism in Modern Italy John Pollard,2008-06-30 John Pollard s book surveys the relationship between Catholicism and the process of change in Italy from Unification to the present day Central to the book is the complex set of relationships between traditional religion and the forces of change In a broad sweep Catholicism in Modern Italy looks at the cultural social political and economic aspects of the Catholic church and its relationship to the different experiences across Italy over this dramatic period of change and modernisation *A Secular Europe: Law and Religion in the European Constitutional Landscape* Lorenzo Zucca,2012-10-11 How to accommodate diverse religious practices and laws within a secular framework is one of the most pressing and controversial problems facing contemporary European public order In this provocative contribution to the subject Lorenzo Zucca argues that traditional models of secularism focusing on the relationship of state and church are out dated and that only by embracing a new picture of what secularism means can Europe move forward in the public reconciliation of its religious diversity The book develops a new model of secularism suitable for Europe as a whole The new model of secularism is concerned with the way in which modern secular states deal with the presence of diversity in the society This new conception of secularism is more suited to the European Union whose overall aim is to promote a stable peaceful and unified economic and political space starting from a wide range of different national experiences and perspectives The new conception of secularism is also more suited for the Council of Europe at large and in particular the European Court of Human Rights which faces growing demands for the recognition of freedom of religion in European states The new model does not defend secularism as an ideological position but aims to present secularism as our common constitutional tradition as well as the basis for our common constitutional future *Romantic Europe and the Ghost of Italy* Joseph Luzzi,2008-11-24 This groundbreaking study considers Italian Romanticism and the modern myth of Italy Ranging across European and international borders he examines the metaphors facts and fictions about Italy that were born in the

Romantic age and continue to haunt the global literary imagination *Appletons' Annual Cyclopædia and Register of Important Events ...* ,1887 Law, Religion and Tradition Jessica Giles,Andrea Pin, Frank S. Ravitch,2018-09-27 This book explores different theories of law religion and tradition from both a secular and a religious perspective It reflects on how tradition and change can affect religious and secular legal reasoning identifying the patterns of legal evolution within religious and secular traditions It is often taken for granted that even in law change corresponds and correlates to progress that things ought to be changed and they will necessarily get better There is no doubt that legal changes over the centuries have made it possible to enhance the protection of individual rights and to somewhat contain the possibility of tyranny and despotism But progress is not everything in law stability and certainty lie at the core of the rule of law Similarly religions and religious laws could not survive without traditions and yet they still evolve and their evolution is often intermingled with secular law The book asks and in some ways answers the questions What is the role of tradition within religions and religious laws What is the impact of religious traditions on secular laws and vice versa How are the elements of tradition to be identified Are they the same within the secular and the religious realm Do secular law and religious law follow comparable patterns of change Do their levels of resilience differ significantly How does the history of religion and law affect changes within religious traditions and legal systems The overall focus of the book addresses the extent to which tradition plays a role in shaping and re shaping secular and religious laws as well as their mutual boundaries The Risorgimento and the Unification of Italy Derek Beales,Eugenio F. Biagini,2014-06-06 This book introduces the reader to the relationship between the Italian national movement achieved by the Risorgimento and the Italian unification in 1860 These themes are discussed in detail and related to the broader European theatre Covering the literary cultural religious and political history of the period Beales and Biagini show Italy struggled towards nation state status on all fronts The new edition has been thoroughly rewritten It also contains a number of new documents In addition all the most up to date research of the last 20 years has been incorporated The Risorgimento and the Unification of Italy remains the major text on nineteenth century Italy The long introduction and useful footnotes will be of real assistance to those interested in Italian unification **The Legal Treatment of Muslim Minorities in Italy** Andrea Pin,2017-05-15 Islam is a growing presence practically everywhere in Europe In Italy however Islam has met a unique model of state neutrality religious freedom and church and state collaboration This book gives a detailed description of the legal treatment of Muslims in Italy contrasting it with other European states and jurisprudence and with wider global tendencies that characterize the treatment of Islam Through focusing on a series of case studies the author argues that the relationship between church and state in Italy and more broadly in Europe should be reconsidered both to secure religious freedom and general welfare Working on the concepts of religious freedom state neutrality and relationship between church and state Andrea Pin develops a theoretical framework that combines the state level with the supranational level in the form of the European Convention of Human Rights which

ultimately shapes a unitary but flexible understanding of pluralism This approach should better accommodate not just Muslims needs but religious needs in general in Italy and elsewhere
