**9/11: Culture, Catastrophe and the Critique of Singularity** Diana Gonçalves, 2016-10-24 Even though much has been said and written about 9 11 the work developed on this subject has mostly explored it as an unparalleled event a turning point in history This book wishes to look instead at how disruptive events promote a network of associations and how people resort to comparison as a means to make sense of the unknown i e to comprehend what seems incomprehensible In order to effectively discuss the complexity of 9 11 this book articulates different fields of knowledge and perspectives such as visual culture media studies performance studies critical theory memory studies and literary studies to shed some light on 9 11 and analyze how the event has impacted on American social and cultural fabric and how the American society has come to terms with such a devastating event A more in depth study of Don DeLillo s *Falling Man* and Jonathan Safran Foer s *Extremely Loud and Incredibly Close* draws attention to the cultural construction of catastrophe and the plethora of cultural products 9 11 has inspired It demonstrates how the event has been integrated into American culture and exemplifies what makes up the 9 11 imaginary , *War Time* Mary L. Dudziak, 2013-09-19 When is wartime In common usage it is a period of time in which a society is at war But we now live in what President Obama has called an age without surrender ceremonies where the war on terror remains open ended and presidents announce an end to conflict in Iraq even as conflict on the ground persists It is no longer easy to distinguish between wartime and peacetime In this inventive meditation on war time and the law Mary L Dudziak argues that wartime is not a discrete or easily defined period of time Indeed America has been engaged in some form of ongoing overseas armed conflict for over a century Yet policy makers and the American public continue to view wars as exceptional events that eventually give way to normal peace times a conception that Dudziak believes has two significant consequences First because war is thought to be exceptional wartime remains a shorthand argument justifying extreme actions like torture and detention without trial Second ongoing warfare is enabled by the inattention of the American people More disconnected than ever from the wars their nation is fighting public disengagement leaves us without political restraints on the exercise of American war powers Articulating the disconnect between the way we imagine wartime and the practice of American wars Dudziak illuminates the way the changing nature of American warfare undermines democratic accountability yet makes democratic engagement all the more necessary Dust jacket **TV Captures Terrorism on September 11** Emma Bernay, Emma Carlson Berne, 2018-08 Primary source photographs combined with strong narration bring the horrific events of 9 11 to readers in historical context People living at the time saw the planes flying into the towers in real time on television changing America s understanding of terrorism Readers will understand the

significance behind this event through text and clips of the event itself via the Capstone 4D augmented reality app **The War of My Generation** David Kieran, 2015-08-04 Following the 9 11 attacks approximately four million Americans have turned eighteen each year and more than fifty million children have been born These members of the millennial and post millennial generation have come of age in a moment marked by increased anxiety about terrorism two protracted wars and policies that have raised questions about the United States s role abroad and at home Young people have not been shielded from the attacks or from the wars and policy debates that followed Instead they have been active participants as potential military recruits and organizers for social justice amid anti immigration policies as students in schools learning about the attacks or readers of young adult literature about wars The War of My Generation is the first essay collection to focus specifically on how the terrorist attacks and their aftermath have shaped these new generations of Americans Drawing from a variety of disciplines including anthropology sociology cultural studies and literary studies the essays cover a wide range of topics from graphic war images in the classroom to computer games designed to promote military recruitment to emails from parents in the combat zone The collection considers what cultural factors and products have shaped young people s experience of the 9 11 attacks the wars that have followed and their experiences as emerging citizen subjects in that moment Revealing how young people understand the War on Terror and how adults understand the way young people think The War of My Generation offers groundbreaking research on catastrophic events still fresh in our minds **The Cultural Turn in**

**U. S. History** James W. Cook, Lawrence B. Glickman, Michael O'Malley, 2012-06-12 A definitive account of one of the most dominant trends in recent historical writing The Cultural Turn in U S History takes stock of the field at the same time as it showcases exemplars of its practice The first of this volume s three distinct sections offers a comprehensive genealogy of American cultural history tracing its multifaceted origins defining debates and intersections with adjacent fields The second section comprises previously unpublished essays by a distinguished roster of contributors who illuminate the discipline s rich potential by plumbing topics that range from nineteenth century anxieties about greenback dollars to confidence games in 1920s Harlem from Shirley Temple s career to the story of a Chicano community in San Diego that created a public park under a local freeway Featuring an equally wide ranging selection of pieces that meditate on the future of the field the final section explores such subjects as the different strains of cultural history its relationships with arenas from mass entertainment to public policy and the ways it has been shaped by catastrophe Taken together these essays represent a watershed moment in the life of a discipline harnessing its vitality to offer a glimpse of the shape it will take in years to come

*9/11 and the Visual Culture of Disaster* Thomas Stubblefield, 2014-12-17 An insightful view on how 9 11 is perceived in American society the day that refuses to enter history the tragedy that has in effect not yet passed *Journal of Popular Culture* The day the towers fell indelible images of plummeting rubble fire and falling bodies were imprinted in the memories of people around the world Images that were caught in the media loop after the

disaster and coverage of the attack its aftermath and the wars that followed reflected a pervasive tendency to treat these tragic events as spectacle Though the collapse of the World Trade Center was the most photographed disaster in history it failed to yield a single noteworthy image of carnage Thomas Stubblefield argues that the absence within these spectacular images is the paradox of 9 11 visual culture which foregrounds the visual experience as it obscures the event in absence erasure and invisibility From the spectral presence of the Tribute in Light to Art Spiegelman s nearly blank New Yorker cover from the elimination of the Twin Towers from TV shows and films to the monumental cavities of Michael Arad s 9 11 memorial the void became the visual shorthand for the incident By examining configurations of invisibility and erasure across the media of photography film monuments graphic novels and digital representation Stubblefield interprets the post 9 11 presence of absence as the reaffirmation of national identity that implicitly laid the groundwork for the impending invasions of Iraq and Afghanistan A concise engaging and thought provoking work that asks the reader to reassess their knowledge and relationship to that moment and the resulting milieu of post 9 11 life in America ARLIS NA Reviews Extraordinarily brilliant will change how we think about disasters and tragedies The book is a must read for both students and practitioners of media studies Repository *Mothers, Infants and Young Children of September 11, 2001* Beatrice Beebe, Phyllis Cohen, K. Mark Sossin, Sara Markese, 2013-09-13 The group of papers presented in this volume represents ten years of involvement of a group of eight core therapists working originally with approximately forty families who suffered the loss of husbands and fathers on September 11 2001 The project focuses on the families of women who were pregnant and widowed in the disaster or of women who were widowed with an infant born in the previous year This book maps the support and services provided without cost to the families by the primary prevention project the September 11 2001 Mothers Infants and Young Children Project organised by a highly trained group of therapists specialising in adult child mother infant and family treatment as well as in nonverbal communication The demands of the crisis led these therapists to expand on their psychoanalytic training fostering new approaches to meeting the needs of these families They sought out these families offering support groups for mothers and their infants and young children in the mothers own neighbourhoods They also brought the families to mother child videotaped play sessions at the New York State Psychiatric Institute at Columbia University followed by video feedback and consultation sessions In 2011 marking the 10th anniversary of the World Trade Center tragedy the Project continues to provide services without cost for these mothers who lost their husbands for their infants who are now approximately ten years old and for the siblings of these children This book was originally published as a special issue of the Journal of Infant Child and Adolescent Psychotherapy [After the End of History](#) Samuel Cohen, 2009-10-01 In this bold book Samuel Cohen asserts the literary and historical importance of the period between the fall of the Berlin wall and that of the Twin Towers in New York With refreshing clarity he examines six 1990s novels and two post 9 11 novels that explore the impact of the end of the Cold War Pynchon s *Mason Dixon* Roth s *American Pastoral* Morrison s *Paradise* O'Brien s *In the Lake of the Woods*

Didion's *The Last Thing He Wanted*, Eugenides's *Middlesex*, Lethem's *Fortress of Solitude* and DeLillo's *Underworld*. Cohen emphasizes how these works reconnect the past to a present that is ironically keen on denying that connection. Exploring the ways ideas about paradise and pastoral, difference and exclusion, innocence and righteousness, triumph and trauma deform the stories Americans tell themselves about their nation's past, *After the End of History* challenges us to reconsider these works in a new light, offering fresh insightful readings of what are destined to be classic works of literature. At the same time, Cohen enters into the theoretical discussion about postmodern historical understanding. Throwing his hat in the ring with force and style, he confronts not only Francis Fukuyama's triumphalist response to the fall of the Soviet Union but also the other literary and political end of history claims put forth by such theorists as Fredric Jameson and Walter Benn Michaels. In a straightforward affecting style, *After the End of History* offers us a new vision for the capabilities and confines of contemporary fiction.

**American Foreign Policy in a New Era** Robert Jervis, 2013-01-11 To say that the world changed drastically on 9/11 has become a truism and even a cliché. But the incontestable fact is that a new era for both the world and US foreign policy began on that infamous day and the ramifications for international politics have been monumental. In this book, one of the leading thinkers in international relations, Robert Jervis provides us with several snapshots of world politics over the past few years. Jervis brings his acute analysis of international politics to bear on several recent developments that have transformed international politics and American foreign policy, including the War on Terrorism, the Bush Doctrine and its policies of preventive war and unilateral action, and the promotion of democracy in the Middle East, including the Iraq War and around the world. Taken together, Jervis argues, these policies constitute a blueprint for American hegemony, if not American empire. All of these events and policies have taken place against a backdrop equally important but less frequently discussed: the fact that most developed nations, states that have been bitter rivals, now constitute a security community within which war is unthinkable. *American Foreign Policy in a New Era* is a must read for anyone interested in understanding the policies and events that have shaped and are shaping US foreign policy in a rapidly changing and still very dangerous world.

**The Cultural Life of Catastrophes and Crises** Carsten Meiner, Kristin Veel, 2012-10-30 Catastrophes and crises are exceptions. They are disruptions of order. In various ways and to different degrees, they change and subvert what we regard as normal. They may occur on a personal level in the form of traumatic or stressful situations, on a social level in the form of unstable political, financial, or religious situations, or on a global level in the form of environmental states of emergency. The main assumption in this book is that in contrast to the directness of any given catastrophe and its obvious physical, economical, and psychological consequences, our understanding of catastrophes and crises is shaped by our cultural imagination. No matter in which eruptive and traumatizing form we encounter them, our collective repertoire of symbolic forms, historical sensibilities, modes of representation, and patterns of imagination determine how we identify, analyze, and deal with catastrophes and crises. This book presents a series of articles investigating how we address and interpret catastrophes.

and crises in film literature art and theory ranging from Voltaire s eighteenth century Europe haunted by revolutions and earthquakes to the 1994 genocide in Rwanda to the bleak prophetic landscapes of Cormac McCarthy      **9/11 and the War on Terror** David Holloway,2008-05-19 This interdisciplinary study of how 9 11 and the war on terror were represented during the Bush era shows how culture often functioned as a vital resource for citizens attempting to make sense of momentous historical events that frequently seemed beyond their influence or control Illustrated throughout the book discusses representation of 9 11 and the war on terror in Hollywood film the 9 11 novel mass media visual art and photography political discourse and revisionist historical accounts of American empire between the September 11 attacks and the Congressional midterm elections in 2006 As well as prompting an international security crisis and a crisis in international governance and law David Holloway suggests the culture of the time also points to a crisis unfolding in the institutions and processes of republican democracy in the United States His book offers a cultural and ideological history of the period      *International History of the Twentieth Century and Beyond* Anthony Best,2008 This major global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors cover events in Europe Asia the Middle East Africa and the Americas from the last century and beyond Among the areas this book covers are the decline of European hegemony over the international order the diffusion of power to the two superpowers the rise of newly independent states in Asia and Africa the course and consequences of the majo      Political Mourning Heather Pool,2021-05-21 Political Mourning examines four case studies the Triangle Fire Emmett Till s murder the attacks of September 11th and the Black Lives Matter movement to shed light on moments when everyday people died when their deaths were the basis of calls for political change and when such a change actually occurred
