Tense and Aspect in Informal Welsh Bob Morris Jones, 2010-08-31 The book provides a descriptive account of the semantics of three grammatical areas in informal Welsh inflections of finite verbs perfect aspect and progressive aspect The analyses distinguish context independent primary meanings from other meanings which are due to implications and contextual effects The inflections convey factuality tense morphological aspect and habituality but the inflections and their meanings are differently distributed over different sorts of verbs The analysis of factuality outlines different sorts of counterfactual situations and discusses whether counterfactual meaning can best be accounted for in terms of true statements in imagined possible worlds or in terms of false statements in the actual world The analysis of tense argues that it conveys evaluation time and not situation time which can be different to evaluation time and that tense is not a collection of simple labels like past or present but is a combination of two times a deictic reference time and a relative evaluation time which organize the tenses as a system Morphological aspect is discussed in terms of perfective and imperfective meanings Habituality is a property of situations which can be described by all inflections but the study shows that bod be alone has specialized forms to convey habituality The discussion of the perfect aspect considers the appropriateness of anterior time retrospective view and current relevance to account for its meaning The author argues that the progressive aspect conveys a durative view and the non progressive a non durative view and shows that the progressive can describe situations which are described by the non progressive in other languages The study also considers whether other expressions can be aspect markers The book shows that the primary meanings of the three grammatical areas are subject to various constraints

Geiriadur Cymraeg a Seisoneg William Spurrell, 1866 '*The Bard is a Very Singular Character*' Ffion Mair Jones, 2010-06-15 This volume approaches the fascinating figure of Iolo Morganwg stonemason poet and literary forger from three distinct but interrelated angles They all take as their starting point Iolo Morganwg's marginality within mainstream literary society both in London and in Wales and demonstrate the strategies that he used to overcome the frustrations of his situation Iolo's notoriety as a literary forger provides the context for the first discussion in the volume which considers his efforts to pass on his own work as that of famous Welsh writers of the past This chapter looks at how important the editorial apparatus with which Iolo surrounded his forgeries was to his attempt to ensure their satisfactory reception Secondly two collections of printed books owned by Iolo and containing marginal commentary in his hand are explored The discussion here demonstrates Iolo's keen interest in the forging of a path for the Welsh language within the developing public domain of the regional eisteddfodau and also his complex personal relations with some of the more successful authors of his day Iolo's vulnerability and marginality within the context of a Welsh public sphere are both brought to the fore in this chapter Finally

the volume turns to the marginalia left by Iolo on letters within his collection of correspondence showing his extraordinary creativity and bringing to attention for the first time some of his unpublished work in the fields of Welsh and English poetry and on matters relating to the Welsh language
