Serfdom And Social Control In Russia Petrovskoe A Village In Tambov:

Serfdom and Social Control in Russia Steven Laurence Hoch,1983 Serfdom and Social Control in Russia Stephen L. Hoch,1986 This book includes an excellent analysis of the material and demographic foundations of patriarchal society which will force historians to reevaluate the profitability of the estate economy and the standard of living among Russian serfs This is an important book which should be read by anyone interested in peasant studies and servile systems of production

SERFDOM AND SOCIAL CONTROL IN NINETEENTH CENTURY RUSSIA Steven Laurence Hoch,1984 **Peasants in Russia from Serfdom to Stalin** Boris B. Gorshkov,2018-02-08 The peasantry accounted for the large majority of the Russian population during the Imperialist and Stalinist periods it is for the most part how people lived Peasants in Russia from Serfdom to Stalin provides a comprehensive realistic examination of peasant life in Russia during both these eras and the legacy this left in the post Soviet era The book paints a full picture of peasant involvement in commerce and local political life and through Boris Gorshkov s original ecology paradigm for understanding peasant life offers new perspectives on the Russian peasantry under serfdom and the emancipation Incorporating recent scholarship including Russian and non Russian texts along with classic studies Gorshkov explores the complex interrelationships between the physical environment peasant economic and social practices culture state policies and lord peasant relations He goes on to analyze peasant economic activities including agriculture and livestock social activities and the functioning of peasant social and political institutions within the context of these interrelationships Further reading lists study questions tables maps primary source extracts and images are also included to support and enhance the text wherever possible Peasants in Russia from Serfdom to Stalin is the crucial survey of a key topic in modern Russian history for students and scholars alike **After Oriental Despotism**

Alessandro Stanziani,2014-07-31 The concepts of economic backwardness Asiatic despotism and orientalism have strongly influenced perceptions of modernization democracy and economic growth over the last three centuries This book provides an original view of Russian and Asian history that views both in a global perspective Via this analysis Alessandro Stanziani opens new dimensions in the study of state formation the global slave trade warfare and European and Asian growth After Oriental Despotism questions conventional oppositions between Europe and Asia By revisiting the history of Eurasia in this context the book offers a serious challenge to existing ideas about the aims and goals of economic growth **Iron-making**

Societies Maria Ågren,1998-03-01 The title of this book has a double meaning on the one hand it deals with two very different societies both of which made iron in the early modern period On the other hand iron made these societies the needs of iron production and the resistance to these demands from local peasant communities gave the societies a special kind of cohesion and rationality This volume presents the findings of a joint team of Swedish and Russian scholars examining the social organization of work in early modern iron industry and their respective societies The comparison was carried out against the backdrop of the international discussion on proto industrialization its prerequisites and consequences There has

however been a certain bias in much of that debate the focus being mainly on Western Europe particularly on Britain and on textile trades This book offers an important contribution to the debate in that it widens the perspective by discussing Northern and Eastern Europe and by studying the iron industry More particularly it examines actual production processes the organization of work social conflict questions of ownership and its evolution as well as the diffusion and organization of technical knowledge The comparative approach is consistently applied throughout with each chapter closely integrating the results relating to the two selected geographical areas thus showing ways of solving some of the problems arising from comparative history

Bondage Alessandro Stanziani, 2015-11 For the first time this book provides the global history of labor in Central Eurasia Russia Europe and the Indian Ocean between the sixteenth and the twentieth centuries It contests common views on free and unfree labor and compares the latter to many Western countries where wage conditions resembled those of domestic servants This gave rise to extreme forms of dependency in the colonies not only under slavery but also afterwards in form of indentured labor in the Indian Ocean and obligatory labor in Africa Stanziani shows that unfree labor and forms of economic coercion were perfectly compatible with market development and capitalism proven by the consistent economic growth that took place all over Eurasia between the seventeenth and the nineteenth centuries This growth was labor intensive commercial expansion transformations in agriculture and the first industrial revolution required more labor not less Finally Stanziani demonstrates that this world did not collapse after the French Revolution or the British industrial revolution as is commonly assumed but instead between 1870 and 1914 with the second industrial revolution and the rise of the welfare state

Marriage, Household and Home in Modern Russia Barbara Alpern Engel, 2021-08-12 Barbara Alpern Engel's *Marriage Household and Home in Modern Russia* is the first book to explore the intricacies of domestic life in Russia across the modern period Surveying the period from 1700 right up to the present day the book explores the marital and domestic arrangements of Russians at multiple levels of society and the impact of broader historical developments including war and revolution upon them It also traces the evolution of marriage household and home as institutions over three centuries whilst also highlighting the inter relationship between public policy and private life in what is a wholly original historical assessment of domesticity in modern Russia In the process the author expertly synthesizes the key works arguments and discussions in the field mapping out the historiographical landscape of this compelling aspect of Russian social history *Marriage Household and Home in Modern Russia* is crucial reading for any student or scholar of modern Russian history

Russia's Women Barbara Evans Clements, Barbara Alpern Engel, Christine D. Worobec, 2023-09-01 By ignoring gender issues historians have failed to understand how efforts to control women and women's reactions to these efforts have shaped political and social institutions and thus influenced the course of Russian and Soviet history These original essays challenge a host of traditional assumptions by integrating women into the Russian past Using recent advances in the study of gender the family class and the status of women the authors examine various roles of Russian women and

L. Bush, 2014-01-09 Serfdom and Slavery compares the two forms of legal servitude in cultures in Western civilization in Europe and the New World from ancient times to the modern period Within a tightly controlled framework of general contextual chapters followed by specific case studies a distinguished team of scholars offers 17 specially written essays that illuminate the nature development impact and termination of serfdom and slavery in European society While the case studies range from classical Greece to early modern Brandenburg and from medieval England to nineteenth century Russia the volume as a whole is closely integrated It makes an important contribution to a topic of increasing international interest Russia on the Move Sylvia Sztern, 2022-02-18 This book explores the impact of railroads on 19th century Russian peasant collectivism The mutual insurance mechanism in a precarious agricultural environment provided by a structured communal village system predicated on the reputation and authority of community norms is exposed to rationalist exchange occasioning an institutional adaptation process the individualization of property rights in land Spatial mobility technology animated market integration specialization literacy and human capital acquisition among peasant wage workers who commuted from their villages Temporarily rising transaction costs forced the Tsar to concede household property rights in land in the so called Stolypin reform of 1906 This challenge to the imperial patrimony powered by the railroads steered late imperial Russia toward constitutional governance The spatial mobility technology gave peasants access to centers of agglomeration of knowledge changed cognitive perceptions of distance and reduced the uncertainty and opportunity costs of travel The empirical findings in this monograph corroborate the conclusion that the railroads occasioned a cultural revolution in late imperial Russia and made Stalin unnecessary for the modernization of the Euro asian giant This book highlights the profound effect that the development of the railroads had on Russian economic and political institutions and practices It will be of indispensable value to students and researchers interested in transitional economics and economic history *The Cambridge World History: Volume 7, Production, Destruction and Connection, 1750-Present, Part 2, Shared Transformations?* J. R. McNeill, Kenneth Pomeranz, 2015-04-16 Since 1750 the world has become ever more connected with processes of production and destruction no longer limited by land or water based modes of transport and communication Volume 7 of the Cambridge World History series divided into two books offers a variety of angles of vision on the increasingly interconnected history of humankind The second book questions the extent to which the transformations of the modern world have been shared focusing on social developments such as urbanization migration and changes in family and sexuality cultural connections through religion science music and sport ligaments of globalization including rubber drugs and the automobile and moments of particular importance from the Atlantic Revolutions to 1989 **The Standard of Living and Revolutions in Imperial Russia,**

1700-1917 Boris Mironov, 2012-05-31 This is the first full scale anthropometric history of Imperial Russia 1700 1917 It mobilizes an immense volume of archival material to chart the growth weight and other anthropometric indicators of the male and female populations in order to chart how the standard of living in Russia changed over slightly more than two centuries It draws on a wide range of data statistics on agricultural production taxation prices and wages nutrition and demography to draw conclusions on the dynamics in the standard of living over this long period of time The economic social and political interpretation of these findings make it possible to reconsider the prevailing views in the historiography and to offer a new perspective on Imperial Russia **Fertility and Resources** Society for the Study of Human Biology. Symposium, 1990-10-25 Fertility in animals reflects access to scarce resources such as food and territory In humans the situation is more complex In this book the gap between socio ecology and population demography is bridged by showing how animals and humans adjust their fertility to environmental conditions **The Locus of Care** Peregrine Horden, Richard Smith, 2013-01-11 The care of the needy and the sick is delivered by various groups including immediate family the wider community religious organisations and the State funded institutions The Locus of Care provides an historical perspective on welfare detailing who carers were in the past where care was provided and how far the boundary between family and state or informal and organised institutions have changed over time Eleven international contributors provide a wide ranging examination of themes such as child care mental health and provision for the elderly and question the idea that there has been a recent evolutionary shift from informal provision to institutional care Chapters on Europe and England use case studies and link evidence from ancient and medieval periods to contemporary problems and the recent past whilst studies on China and South Africa look to the future of welfare throughout the world By placing welfare in its historical social cultural and demographic contexts Locus of Care reassesses community and institutional care and the future expectations of welfare provision *A History of Russia and Its Empire* Kees Boterbloem, 2018-06-26 This clear and focused text provides an introduction to imperial Russian and Soviet history from the crowning of Mikhail Romanov in 1613 to Vladimir Putin's new term Through a consistent chronological narrative Kees Boterbloem considers the political military economic social religious and cultural developments and crucial turning points that led Russia from an exotic backwater to superpower stature in the twentieth century The author assesses the tremendous price paid by those who made Russia and the Soviet Union into such a hegemonic power both locally and globally He considers the complex and varied interactions between Russians and non Russians and investigates the reasons for the remarkable longevity of this last of the colonial powers whose dependencies were not granted independence until 1991 He explores the ongoing legacies of this fraught decolonization process on the Russian Federation itself and on the other states that succeeded the Soviet Union The only text designed and written specifically for a one semester course on this four hundred year period it will appeal to all readers interested in learning more about the history of the people who have inhabited one sixth of the earth's landmass for centuries Russia Edward
