Sergeant Lawrence Goes France:

Sergeant Lawrence Goes to France Cyril Lawrence, 1987 *Behind the Front* Craig Gibson, 2014-03-27 This book uncovers the vital relationships between British troops and local inhabitants in France and Belgium during the First World War *At the Eleventh Hour* Hugh Cecil, Peter H. Liddle, 1998-08-12 Following on from the highly acclaimed *Facing Armageddon and Passchendaele in Perspective* *At the Eleventh Hour* recognises that a world was ending in November 1918 and by international collaboration on the 80th Anniversary we learn through this book what it was like to experience the transition from war to peace Distinguished historians brilliantly convey a sense of immediacy as the Armistice is recreated and analysed The reader will not just acquire new areas of information he will have some of the existing knowledge which he thought was soundly held strikingly challenged in the pages of this superbly illustrated book 'Boredom is the Enemy' Amanda Laugesen, 2016-04-15 War is often characterised as one percent terror 99 per cent boredom Whilst much ink has been spilt on the one per cent relatively little work has been directed toward the other 99 per cent of a soldier's time As such this book will be welcomed by those seeking a fuller understanding of what makes soldiers endure war and how they cope with prolonged periods of inaction It explores the issue of military boredom and investigates how soldiers spent their time when not engaged in battle work or training through a study of their creative imaginative and intellectual lives It examines the efforts of military authorities to provide solutions to military boredom and the problem of discipline and morale through the provisioning of entertainment and education but more importantly explores the ways in which soldiers responded to such efforts arguing that soldiers used entertainment and education in ways that suited them The focus in the book is on Australians and their experiences primarily during the First World War but with subsequent chapters taking the story through the Second World War to the Vietnam War This focus on a single national group allows questions to be raised about what might or might not be exceptional about the experiences of a particular national group and the ways national identity can shape an individual's relationship and engagement with education and entertainment It can also suggest the continuities and changes in these experiences through the course of three wars The story of Australians at war illuminates a much broader story of the experience of war and people's responses to war in the twentieth century **Communication, Interpreting and Language in Wartime** Amanda Laugesen, Richard Gehrmann, 2019-10-18 This edited book provides a multi disciplinary approach to the topics of translation and cross cultural communication in times of war and conflict It examines the historical and contemporary experiences of interpreters in war and in war crimes trials as well as considering policy issues in communication difficulties in war related contexts The range of perspectives incorporated in this volume will appeal to scholars practitioners and policy makers particularly in the fields of translating and interpreting conflict and war studies and military history *The Great War* Peter Hart, 2013 Named one of the Ten Best Books of 2013 by *The Economist* World War I altered the landscape of the modern world in every conceivable arena Millions died empires collapsed new

ideologies and political movements arose poison gas warplanes tanks submarines and other technologies appeared Total war emerged as a grim mature reality In The Great War Peter Hart provides a masterful combat history of this global conflict Focusing on the decisive engagements Hart explores the immense challenges faced by the commanders on all sides He surveys the belligerent nations analyzing their strengths weaknesses and strategic imperatives Russia for example was obsessed with securing an exit from the Black Sea while France having lost to Prussia in 1871 before Germany united constructed a network of defensive alliances even as it held a grudge over the loss of Alsace Lorraine Hart offers deft portraits of the commanders the prewar plans and the unexpected obstacles and setbacks that upended the initial operations
