Human Rights in Global Health Benjamin Mason Meier, Lawrence O'Gallagher, Gostin, 2018 Institutions matter for the advancement of human rights in global health Given the dramatic development of human rights under international law and the parallel proliferation of global institutions for public health there arises an imperative to understand the implementation of human rights through global health governance This volume examines the evolving relationship between human rights global governance and public health studying an expansive set of health challenges through a multi sectoral array of global organizations To analyze the structural determinants of rights based governance the organizations in this volume include those international bureaucracies that implement human rights in ways that influence public health in a globalizing world This volume brings together leading health and human rights scholars and practitioners from academia non governmental organizations and the United Nations system They explore the foundations of human rights as a normative framework for global health governance the mandate of the World Health Organization to pursue a human rights based approach to health the role of inter governmental organizations across a range of health related human rights the influence of rights based economic governance on public health and the focus on global health among institutions of human rights governance Contributing chapters each map the distinct human rights efforts within a specific institution of global governance for health Through the comparative institutional analysis in this volume the contributing authors examine institutional dynamics to operationalize human rights in organizational policies programs and practices and assess institutional factors that facilitate or inhibit human rights mainstreaming for global health advancement

The Oxford Handbook of Peace History Charles F. Howlett, Christian Philip Peterson, Christian Peterson, Deborah D. Buffton, David L. Hostetter, 2023 The Oxford Handbook of Peace History uniquely explores the distinctive dynamics of peacemaking across time and place and analyzing how past and present societies have created diverse cultures of peace and applied strategies for peaceful change The analysis draws upon the expertise of many well respected and distinguished scholars from disciplines such as anthropology economics history international relations journalism peace studies sociology and theology This work is divided into six parts The first three sections address the chronological sweep of peace history from the Ancient Egyptians to the present while the last three cover biographical profiles of peace advocates key issues in peace history and the future of peace history A central theme throughout is that the quest for peace is far more than the absence of war or the pursuit of social justice ideals Students and scholars alike will appreciate that this work examines the

field of peace history from an international perspective and expands analysis beyond traditional Eurocentric frameworks This volume also goes far beyond previously published handbooks and anthologies in answering what are the strengths and limits of peace history as a discipline and what can it offer for the future It also has the unique features of a state of the field introduction with a detailed treatment of peace history historiography and a chapter written by a noted archivist in the field that provides a comprehensive list of peace research resources It is a work ably suited applicable for classrooms and scholarly bookshelves

The Good International Citizen: Volume 3, The Official History of Australian Peacekeeping, Humanitarian and Post-Cold War Operations David Horner, John Connor, 2014-04-17 Volume 3 of the official history of Australian peacekeeping humanitarian and post cold war operations explores Australia s involvement in six overseas missions following the end of the Gulf War Cambodia 1991 99 Western Sahara 1991 94 the former Yugoslavia 1992 2004 Iraq 1991 Maritime Interception Force operations 1991 99 and the contribution to the inspection of weapons of mass destruction facilities in Iraq 1991 99 These missions reflected the increasing complexity of peacekeeping as it overlapped with enforcement of sanctions weapons inspections humanitarian aid election monitoring and peace enforcement Granted full access to all relevant Australian Government records David Horner and John Connor provide readers with a comprehensive and authoritative account of Australia s peacekeeping operations in Asia Africa and Europe

Lessons From Kosovo: The KFOR Experience , 2002-01-01 Civil military unity of effort has been an essential yet frustrating elusive requirement for success in post cold war peace operations The need to coordinate collaborate and share information between civilian and military entities is on the rise and deemed essential requirements for success Today s information and communications technologies serve to facilitate the exchange of information among the disparate players of peace operations but the ability to actually realize open information sharing in real world coalition operations remains problematic The integration of relevant information and the timely dissemination of the processed information to interested parties in the field is well within the realities of today s technology Increased civil military involvement in peacekeeping and humanitarian operations around the world is matched in part by the rise in the number and complexity of these situations There are many more actors on today s peace operations landscape with competing as well as common interests and expectations The need to improve cooperation coordination and more open information sharing is on the rise Efforts to improve and facilitate more open working together and information sharing among the disparate participants must overcome a continuing lack of trust among the civil military actors obsolete national and international policies unrealistic legal and funding constraints and outdated organization cultural traditions and behavior patterns Additionally all actors need to better understand each other and the roles they can and should play in an increasingly complex operational environment In order to obtain closure and improve the future situation the actors must develop relationships based on mutual trust and there must be a clear understanding that cooperation coordination and information sharing is a two way street In reality inefficiencies are inherent

in any multilateral activity and competing interests and fear of loss of power and prestige make unity of effort a desired objective but also one that will be difficult to achieve Furthermore information is power and can be an effective means to an end but only if it can be interpreted shared and used effectively for military political or civil use Information can also help reduce uncertainty and provide those that possess it a decided advantage in the decisionmaking process There continues to be a general lack of trust among the players coupled with the lack of a shared understanding of the added value through more open and improved information sharing Information sharing among the actors on the peace operations landscape continues to be largely a manual process These obstacles need to be recognized and to the extent possible practical recommendations developed for ameliorating them Application of new technology must go beyond simply modernizing existing practices and capabilities The civil military community needs to look at new ways of doing business and how the rapidly advancing information technology can be used to leverage the power of information to help achieve timely and appropriate success of peace operations The patterns of conflict for the post cold war environment are changing and so are the approaches to military command and control Advances in information technology have enabled organizations and individuals to more effectively leverage the power of information yet for coalition operations where information sharing is essential to meet mission needs it continues to be problematic The issue is not technology but largely the will on the part of organizations and individuals to make it happen There is also a number of policy doctrine C4ISR systems cultural and environmental challenges that influence the ability to achieve more open sharing of information in coalition operations

The Best Intentions James Traub, 2007-10-30 A man who had won the Nobel Peace Prize who was widely counted one of the greatest UN Secretary Generals was nearly hounded from office by scandal Indeed both Annan and the institution he incarnates were so deeply shaken after the Bush Administration went to war in Iraq in the face of opposition from the Security Council that critics and even some friends began asking whether this sixty year old experiment in global policing has outlived its usefulness Do its failures arise from its own structure and culture or from a clash with an American administration determined to go its own way in defiance of world opinion James Traub a New York Times Magazine contributor who has spent years writing about the UN and about foreign affairs delves into these questions as no one else has done before Traub enjoyed unprecedented access to Annan and his top aides throughout much of this traumatic period He describes the despair over the Oil for Food scandal the deep divide between those who wished to accommodate American critics and those who wished to confront them the failed attempt to goad the Security Council to act decisively against state sponsored ethnic cleansing in Sudan And he recounts Annan's effort to respond to criticism with sweeping reform an effort which ultimately shattered on the resistance of U S Ambassador John Bolton In The Best Intentions Traub recounts the dramatically entwined history of Kofi Annan and the UN from 1992 to the present In Annan he sees a conscientious idealist given too little credit for advancing causes like humanitarian intervention and an honest broker crushed between American

conservatives and Third World opponents but also a UN careerist who has absorbed that culture and can not in the end escape its limitations *No End in Sight* Charles Ferguson, 2009-02-23 The first book of its kind to chronicle the reasons behind Iraq's descent into guerilla war warlord rule criminality and anarchy *No End In Sight* is a shocking story of wholesale incompetence recklessness and venality Culled from over 200 hours of footage collected for the film the book provides a candid and alarming retelling of the events following the fall of Baghdad in 2003 by high ranking officials Iraqi civilians American soldiers and prominent analysts Together these voices reveal the principal errors of U S policy that largely created the insurgency and chaos that engulf Iraq today and what we could and should do about them now *No End In Sight* marks the first time Americans will be allowed inside the White House Pentagon and Baghdad's Green Zone to understand for themselves the disintegration of Iraq and how arrogance and ignorance turned a military victory into a seemingly endless and deepening nightmare of a war **The Reform Process of United Nations Peace Operations** Nassrine De

Rham-Azimi, Li Lin Chang, Institute of Policy Studies (Singapore), 2001-09-26 In March 2000 the United Nations Secretary General convened an international panel to conduct a major study on United Nations Peace Operations Chaired by former Algerian Foreign Minister and current Under Secretary General Lakhdar Brahimi the Panel was tasked to conduct a wide ranging study and analysis over lessons learned from past operations such as those in Rwanda and Somalia as well as current missions in Kosovo East Timor and the Democratic Republic of the Congo The Panel looked at how peacekeeping missions could achieve greater efficiency and success in attaining the key objectives of maintaining peace and promoting reconciliation and reconstruction It also reviewed the context within which peacekeeping missions took place the resources and limitations of the United Nations Department of Peacekeeping Operations DPKO specifically and the modality efficacy and extent of assistance rendered by the international community within the framework of peacekeeping and peace building in general The fifth in a series of conferences organised on lessons learnt from peacekeeping operations was held under the auspices of the United Nations Institute for Training and Research UNITAR the Institute of Policy Studies IPS of Singapore and the Japan Institute of International Affairs JIIA Throughout two intense days in Singapore in April 2001 an eminent group of academics government officials representatives of international organisations representatives from ongoing UN Missions and military scholars gathered behind closed doors to reflect upon the recommendations of the Brahimi Report and the obstacles to reform of peacekeeping This volume contains all the papers presented at that event It also includes the Co Chairs Summary and Recommendations The Report is a summary of the many animated debates that took place during the conference Recommendations of the Co Chairs have been drawn from the broad range of opinions and insights from the conference The findings and reactions of the participants to the Brahimi Report should give policy makers researchers and international affairs analysts a candid review and critique of past experiences that is essential to the comprehension of the failures of current peacekeeping and requirements for future success Hunting in the Shadows: The Pursuit of Al Qa'ida

Since 9/11 Seth G. Jones, 2012-05 This landmark history chronicles the dramatic decade long war against al Qaeda and provides a model for understanding the ebb and flow of terrorist activity Tracing intricately orchestrated terrorist plots and the elaborate multiyear investigations to disrupt them Seth G Jones identifies three distinct waves of al Qaeda violence As Jonathan Mahler wrote in the New York Times Book Review studying these waves and the counterwaves that repelled them can tell us a lot about what works and what doesn't when it comes to fighting terrorism The result is a sweeping insider's account of what the war has been and what it might become

Visible Dissent Teresa V. Longo, 2018-05-15 As Teresa Longo's groundbreaking examination reveals North America's dissident literature has its roots in the Latin American literary tradition From Pablo Neruda's *Canto General* to Eduardo Galeano's *Open Veins of Latin America* to Gabriel Garcia Marquez's *One Hundred Years of Solitude* among others contemporary writers throughout the Americas have forced us to reconsider the United States's relationship with Latin America and more broadly with the Global South Highlighting the importance of reading and re-reading the Latin American canon in the United States Longo finds that literature can be an instrument of progressive social change and argues that small literary presses City Lights Curbstone and Seven Stories have made that dissent visible in the United States In the book's final two chapters on the Robert F Kennedy Center's Speak Truth to Power initiative and the publication of Marc Falkoff's *Poems from Guantanamo* the author turns our attention further outward probing the role poetry theater and photography play in global human rights work Locating the work of artists and writers alongside that of scholars and legal advocates *Visible Dissent* not only unveils the staying power of committed writing it honors the cross currents and the on the ground implications of humane political engagement
