Young,2009-12-04 A crucial question in the analysis of legal practices concerns the processes of identification with in and as law a question of how and by what route law achieves its ends While it is conventional to interpret the practices of law through the institutional sources of the legal tradition The Scene of Violence considers how law and legal practices figure in the cultural field and specifically in film Bret Easton Ellis's Controversial Fiction Sonia Baelo-Allué,2011-04-21 Both

literary author and celebrity Bret Easton Ellis represents a type of contemporary writer who draws from both high and the low culture using popular culture references styles and subject matters in a literary fiction that goes beyond mere entertainment His fiction arousing the interest of the academia mass media and general public has fuelled heated controversy over his work This controversy has often prevented serious analysis of his fiction and this book is the first monograph to fill in this gap by offering a comprehensive textual and contextual analysis of his most important works up to the latest novel Imperial Bedrooms Offering a study of the reception of each novel the influence of popular mass and consumer culture in them and the analysis of their literary style it takes into account the controversies surrounding the novels and the changes produced in the shifty terrain of the literary marketplace It offers anyone studying contemporary American fiction a thorough and unique analysis of Ellis s work and his own place in the literary and cultural panorama

Polyptych: Adaptation, Television, and Comics Reginald Wiebe,2021-09-07 Through each of its chapters Polyptych Adaptation Television and Comics examines the complex dynamics of adapting serialized texts The transmedial adaptation of collaborative and unstable texts does not lend itself to the same strategies as other more static adaptations such as novels or plays Building off the foundational work of Linda Hutcheon and Gerard Genette Polyptych considers the analogy of adaptation as a palimpsest a manuscript page that has been reused leaving traces of the previous work behind as needing to be reevaluated A polyptych is a multi panel artwork and provides a new model for analyzing how adaptation works when translating collaborative and unstable texts Given that most television and comic books are episodic and serialized and considering that both media are also the cumulative work of many artists this book offers a series of distanced readings to reassess how adaptation works in this field Comic book adaptations on television are plentiful and are nearly completely ignored in critical discussions of adaptation This collection focuses on texts that fall outside the most common subjects of study among the corpus and contributes to expanding the field of inquiry The book features texts that are subjects of previous academic interest as well as studies of texts that have never before been critically considered It also includes an appendix that provides the first list of comic book adaptations on North American television Polyptych is a unique and timely contribution to dynamic and growing fields of study The book will be of interest to scholars and researchers in the fields of

Comic Studies Adaptation Studies and Critical Media Studies more broadly as well as to students undertaking courses on these subjects It will also appeal to comic book and pop culture fans who wish to expand their knowledge on the subject

Distributing Silent Film Serials Rudmer Canjels, 2011-01-25 Tracing the international consumption distribution and cultural importance of silent film serials in the 1910s and 1920s Canjels provides an exciting new understanding of the cultural dimension and the cultural transformation and circulation of media forms Specifically he demonstrates that the serial film form goes far beyond the well known American two reel serial the cliffhanger Throughout the book Canjels focuses on the biggest producers of serials America France and Germany while imported serials such as those in the Netherlands are also examined This research offers new views on the serial work of well known directors as D W Griffith Abel Gance Erich von Stroheim and Fritz Lang while foregrounding the importance of lesser known directors such as Louis Feuillade or Joe May In the early twentieth century serial productions were constantly undergoing change and were not merely distributed in their original form upon import As adjusted serials were present in large quantities or confronted different social spaces nationalistic feelings and views stimulated by the unrest of World War I and the expanding American film industry could be incorporated and attached to the serial form Serial productions were not only adaptable to local discourses they could actively stimulate and interact as well influencing reception and further film production By examining the distribution reception and cultural contexts of American and European serials in various countries this cross cultural research makes both local and global observations Canjels thus offers a highly relevant case study of transnational transcultural and transmedia relations

Enchanted Hunters: The Power of Stories in Childhood Maria Tatar, 2009-04-20 Highly illuminating for parents vital for students and book lovers alike Enchanted Hunters transforms our understanding of why children should read Ever wondered why little children love listening to stories why older ones get lost in certain books In this enthralling work Maria Tatar challenges many of our assumptions about childhood reading Much as our culture pays lip service to the importance of literature we rarely examine the creative and cognitive benefits of reading from infancy through adolescence By exploring how beauty and horror operated in C S Lewis s Chronicles of Narnia Philip Pullman s His Dark Materials J K Rowling s Harry Potter novels and many other narratives Tatar provides a delightful work for parents teachers and general readers not just examining how and what children read but also showing through vivid examples how literature transports and transforms children with its intoxicating captivating and occasionally terrifying energy In the tradition of Bruno Bettelheim s landmark The Uses of Enchantment Tatar s book is not only a compelling journey into the world of childhood but a trip back for adult readers as well

Film Adaptation and Its Discontents Thomas Leitch, 2007-06-15 Most books on film adaptation the relation between films and their literary sources focus on a series of close one to one comparisons between specific films and canonical novels This volume identifies and investigates a far wider array of problems posed by the process of adaptation Beginning with an examination of why adaptation study has so often supported

the institution of literature rather than fostering the practice of literacy Thomas Leitch considers how the creators of short silent films attempted to give them the weight of literature what sorts of fidelity are possible in an adaptation of sacred scripture what it means for an adaptation to pose as an introduction to rather than a transcription of a literary classic and why and how some films have sought impossibly close fidelity to their sources After examining the surprisingly divergent fidelity claims made by three different kinds of canonical adaptations Leitch s analysis moves beyond literary sources to consider why a small number of adapters have risen to the status of auteurs and how illustrated books comic strips video games and true stories have been adapted to the screen The range of films studied from silent Shakespeare to Sherlock Holmes to The Lord of the Rings is as broad as the problems that come under review **The Flash Gordon Serials,**
