Collection Management in Academic Libraries Clare Jenkins, Mary Morley, 1999 Economic constraints curriculum changes growing student numbers and the information explosion resulting from technological developments have put a higher priority on the successful management of increasingly diverse library collections This new edition of Collection Management in Academic Libraries written by senior university librarians and expert commentators from both the UK and North America provides an enlightening overview of collection management policy and practice in academic libraries today Though recognizing the continuing importance of traditional printed holdings the book highlights the central role now played in academic libraries by electronic information It explores possible scenarios for the future and discusses the management of access to remote sources of information and issues relating to infrastructure support New chapters are included on the management of electronic information learning support document delivery strategies preservation and disaster planning and collection management for the twenty first century The chapters on organization of collection management finance and budgeting performance measurement serials management stock retention and relegation have been revised in the light of recent changes in collection priorities and user demand Collection Management in Academic Libraries is chiefly aimed at library managers and students of library and information science Those responsible for acquisitions reader services and serials management will also find that lessons from the experience and research described in the book will help to equip them better for the challenges in their own institutions

Human Resource Management in Today's Academic Library Janice Simmons-Welburn, Beth McNeil, 2004-01-30 This book provides a comprehensive look at issues that shape the nature of Human Resources in academic libraries Libraries in varying academic environments have undergone tremendous change during the last two decades of the 20th century as they have sought redefinition as learning organizations As organizations they have experienced significant changes in the role and definition of professionalism along

with challenges from such shifting workplace demographics as age and ethnicity and technological issues which have also had direct impact on the recruitment and retention of staff Much of the attention of human resources administrators in academic libraries has focused on an array of issues that mirrors concerns across campuses affirmative action and diversity the rights of employees with disabilities under the Americans with Disabilities Act the impact of the Family Medical Leave Act and other directives on employee benefits salary equity and a desire among employees for flexible work schedules

Encyclopedia of Library and Information Science Allen Kent, 2002-06-04 This supplement covers topics ranging from academic library funding to visual information querying Leadership and Administration of Successful Archival Programs Bruce W. Dearstyne, 2001-10-30 Strong archival programs are rare in part because the archival field has not given sustained attention to program leadership and management issues over the years As a consequence many programs are underfunded and undersupported and lack sufficient space staff and other resources to carry out their immensely important work This collection of essays from eight of the archival field's notably successful leaders provides first hand accounts of how to carry out planning build coalitions and alliances garner resources empower and inspire program personnel change program direction and take programs in new dynamic directions There is an abundance of literature on archival theory techniques and practice but leadership program building and related topics are seldom covered in archival literature This collection of essays provides varying perspectives insights advice caveats and other helpful information based on the experiences of highly regarded professionals in the field who have actually developed and administered successful programs They address such issues as how to define program success the traits of a successful program leadership traits and similarities and differences between archival program and similar programs such as libraries Encyclopedia of Library and Information Sciences John D. McDonald, Michael Levine-Clark, 2017-03-15 The Encyclopedia of Library and Information Sciences comprising of seven volumes now in its fourth edition compiles the contributions of major researchers and practitioners and explores the cultural institutions of more than 30 countries This major reference presents over 550 entries extensively reviewed for accuracy in seven print volumes or online The new fourth edition which includes 55 new entries and 60 revised entries continues to reflect the growing convergence among the disciplines that influence information and the cultural record with coverage of the latest topics as well as classic articles of historical and theoretical importance *Planning for a New Generation of Public Library Buildings* Gerard B. McCabe, 2000-01-30 The public library director needs information that helps in understanding what is involved in planning for a public library building project This applies whether the subject is a free standing independent building a branch library a joint use facility with a museum a senior academic library a community or junior college library or a school library Reading this book will not turn a reader into a qualified specialist on library buildings but it will help librarians and others learn what should be known about a project so that they may function effectively as part of the planning team The concept of modern libraries is moving toward interactive connections with

information sources far beyond the immediate community For the contemporary public library this means connection to a network with several terminals constantly online to the Internet New library buildings must be constructed with these and other needs in mind The public library director needs information that helps in understanding what is involved in planning for a public library building project This applies whether the subject is a free standing independent building a branch library a joint use facility with a museum a senior academic library a community or junior college library or a school library This book will help librarians and others learn what should be known about a project so that they may function effectively as part of the planning team
