Sericulture The Proper Employment Of Women In 19th Century China:

Sericulture Grace Wright,2006-01-01 Through their labor in the production of silk women had an important place in the economy of China The government encouraged this as a legitimate female occupation from the Shang dynasty into the 19th century It gave women a position in society outside of the family structure wherein they could support themselves

Making and Growing Elizabeth Hallam,Tim Ingold,2016-05-13 Making and Growing brings together the latest work in the fields of anthropology and material culture studies to explore the differences and the relation between making things and growing things and between things that are made and things that grow Though the former are often regarded as artefacts and the latter as organisms the book calls this distinction into question examining the implications for our understanding of materials design and creativity Grounding their arguments in case studies from different regions and historical periods the contributors to this volume show how making and growing give rise to co produced and mutually modifying organisms and artefacts including human persons They attend to the properties of materials and to the forms of knowledge and sensory experience involved in these processes and explore the dynamics of making and undoing growing and decomposition The book will be of broad interest to scholars in the fields of anthropology archaeology material culture studies history and sociology

Threads of globalization Melia Belli Bose,2024-02-06 Threads of globalization is an interdisciplinary volume that brings fashion specific garments motifs materials and methods of production into dialogue with gender and identity in various cultures throughout Asia during the long twentieth century It examines how the shift from artisanal production to fast fashion over the past 150 years has devalued women s textile labour and how skilled textile garment makers and the organizations that support them are preserving and reviving heritage traditions It also offers examples of how socially engaged artists in Asia and the diaspora use their work to criticize labour and environmental abuses in the global fashion industry

The Visual Culture of Meiji Japan Ayelet Zohar,Alison J. Miller,2021-11-29 This volume examines the visual culture of Japan s transition to modernity from 1868 to the first decades of the twentieth century Through this important moment in Japanese history contributors reflect on Japan s transcultural artistic imagination vis a vis the discernment negotiation assimilation and assemblage of diverse aesthetic concepts and visual pursuits The collected chapters show how new cultural notions were partially modified and integrated to become the artistic methods of modern Japan based on the hybridization of major ideologies visualities technologies productions formulations and modes of representation The book presents case studies of creative transformation demonstrating how new concepts and methods were perceived and altered to match views and theories prevalent in Meiji Japan and by what means different practitioners negotiated between their existing skills and the knowledge generated from incoming ideas to create innovative modes of practice and representation that reflected the specificity of modern Japanese artistic circumstances The book will be of interest to scholars working in art history Japanese studies Asian studies and Japanese history as well as those who use approaches and methods related to

globalization cross cultural studies transcultural exchange and interdisciplinary studies *The Oxford Handbook of Agricultural History* Jeannie M. Whayne, 2024 Agricultural history has enjoyed a rebirth in recent years in part because the agricultural enterprise promotes economic and cultural connections in an era that has become ever more globally focused but also because of agriculture's potential to lead to conflicts over precious resources The Oxford Handbook of Agricultural History reflects this rebirth and examines the wide reaching implications of agricultural issues featuring essays that touch on the green revolution the development of the Atlantic slave plantation the agricultural impact of the American Civil War the rise of scientific and corporate agriculture and modern exploitation of agricultural labor **The Great Divergence** Kenneth Pomeranz, 2021-04-13 A landmark comparative history of Europe and China that examines why the Industrial Revolution emerged in the West The Great Divergence sheds light on one of the great questions of history Why did sustained industrial growth begin in Northwest Europe Historian Kenneth Pomeranz shows that as recently as 1750 life expectancy consumption and product and factor markets were comparable in Europe and East Asia Moreover key regions in China and Japan were no worse off ecologically than those in Western Europe with each region facing corresponding shortages of land intensive products Pomeranz's comparative lens reveals the two critical factors resulting in Europe's nineteenth century divergence the fortunate location of coal and access to trade with the New World As East Asia's economy stagnated Europe narrowly escaped the same fate largely due to favorable resource stocks from underground and overseas This Princeton Classics edition includes a preface from the author and makes a powerful historical work available to new readers *Science and Civilisation in China, Part 9, Textile Technology: Spinning and Reeling* Joseph Needham, Dieter Kuhn, 1988-06-09 This study the first of two parts gives a comprehensive account of Chinese textiles and textile technology and deals with the evolution of bast fibre spinning and silk reeling in the history of China These operations are the basic techniques in the production of yarn and thread pre requisite to weaving and any study of Chinese textile technology must start with the raw material obtained from fibre plants such as hemp ramie jute cotton etc and silk reeled off from cocoons of the domestic silkworm The time span covered runs from the neolithic to the nineteenth century Archaeological and pictorial evidence the bulk of it hitherto unpublished in the West is brought together with Chinese textual sources which are extensively translated and interpreted to illustrate Chinese achievements in this field Professor Kuhn's study reveals the way in which Chinese textile technological inventiveness has influenced textile production in other regions of the world and in medieval Europe It explains how textile technology reached its high point between the tenth and thirteenth centuries and attempts to indicate the reasons for its subsequent relative decline The development of the textile industry in Europe was a key factor in the rise of capitalism In the case of China after Sung times textile technology and the organisation of textile labour may help indicate why such a development did not take place in China Women in Asia Barbara N. Ramusack, Sharon L. Sievers, 1999-06-22 Barbara N. Ramusack writes on South and Southeast Asia surveying both the prescriptive roles and the lived experiences of women as

well as the construction of gender from early states to the 1990s Although both regions are home to Hindu Buddhist and Muslim religious traditions and had extended trade relations they reveal striking differences in the status and roles of women and the processes of cultural adaptation Sharon Sievers presents an overview of women's participation in the histories of China Japan and Korea from prehistory to the modern period that provides a framework for incorporating women into world history classrooms It offers analyses on major issues derived from recent research and discusses such stereotypical cultural practices as footbinding long seen as exotic in the West in the context of women's lives Book jacket Rethinking the Decline of China's Qing Dynasty Daniel McMahon, 2014-08-21 The many instances of regional insurgency and unrest that erupted on China's borderlands at the turn of the nineteenth century are often regarded by scholars as evidence of government disability and the incipient decline of the imperial Qing dynasty This book based on extensive original research argues that on the contrary the response of the imperial government went well beyond pacification and reconstruction and demonstrates that the imperial political culture was dynamic innovative and capable of confronting contemporary challenges The author highlights in particular the Jiaqing Reforms of 1799 which enabled national reformist ideology activist oriented administrative education the development of specialised frontier officials comprehensive borderland rehabilitation and the sharing of borderland administration best practice between different regions Overall the book shows that the Qing regime had sustained vigour albeit in difficult and changing circumstances **Millard's China National Review** Thomas Franklin Fairfax Millard, John Benjamin Powell, John William Powell, 1919 Vol 34 includes Special tariff conference issue Nov 6 1925

A Fashionable Century Rachel Silberstein, 2020-06-30 Honorable Mention for the 2023 Bei Shan Tang Monograph Prize sponsored by the Association for Asian Studies An innovative look at late Qing cultural and fashion history Clothing and accessories from nineteenth century China reveal much about women's participation in the commercialization of textile handicrafts and the flourishing of urban popular culture Focusing on women's work and fashion A Fashionable Century presents an array of visually compelling clothing and accessories neglected by traditional histories of Chinese dress examining these products potential to illuminate issues of gender and identity In the late Qing the expansion of production systems and market economies transformed the Chinese fashion system widening access to fashionable techniques materials and imagery Challenging the conventional production model in which women embroidered items at home Silberstein sets fashion within a process of commercialization that created networks of urban guilds commercial workshops and subcontracted female workers These networks gave rise to new trends influenced by performance and prints and they offered women opportunities to participate in fashion and contribute to local economies and cultures Rachel Silberstein draws on vernacular and commercial sources rather than on the official and imperial texts prevalent in Chinese dress history to demonstrate that in these fascinating objects regulated by market desires rather than imperial edict fashion formed at the intersection of commerce and culture A Fashionable Century is the winner of the Costume Society of America's Millia

Davenport Publication Award and was long listed for the Textile Society of America's R L Shep Award. The judges described the book as an extraordinary achievement in scholarship working with source materials that are little known outside of China and not otherwise available in English. **Singapore Women** Aline K. Wong, Wai Kum Leong, 1993. Christianity in China Xiaoxin Wu, 2015-07-17. Now revised and updated to incorporate numerous new materials, this is the major source for researching American Christian activity in China, especially that of missions and missionaries. It provides a thorough introduction and guide to primary and secondary sources on Christian enterprises and individuals in China that are preserved in hundreds of libraries, archives, historical societies, headquarters of religious orders, and other repositories in the United States. It includes data from the beginnings of Christianity in China in the early eighth century through 1952, when American missionary activity in China virtually ceased. For this new edition, the institutional base has shifted from the Princeton Theological Seminary Protestant to the Ricci Institute for Chinese Western Cultural Relations at the University of San Francisco Jesuit, reflecting the ecumenical nature of this monumental undertaking. Millard's Review of the Far East, 1919. *The Social History of Agriculture* Christopher Isett, Stephen Miller, 2016-11-09. This innovative text provides a compelling narrative world history through the lens of food and farmers. Tracing the history of agriculture from earliest times to the present, Christopher Isett and Stephen Miller argue that people rather than markets have been the primary agents of agricultural change. Exploring the actions taken by individuals and groups over time and analyzing their activities in the wider contexts of markets, states, wars, the environment, population increase, and similar factors, the authors emphasize how larger social and political forces inform decisions and lead to different technological outcomes. Both farmers and elites responded in ways that impeded economic development. Farmers, when able to trade with towns, used the revenue to gain more land and security. Elites used commercial opportunities to accumulate military power and slaves. The book explores these tendencies through rich case studies of ancient China, precolonial South America, early modern France, England, and Japan, New World slavery, colonial Taiwan, socialist Cuba, and many other periods and places. Readers will understand how the promises and problems of contemporary agriculture are not simply technologically derived but are the outcomes of decisions and choices people have made and continue to make. *The Annals of the American Academy of Political and Social Science*, 1929. *China on Paper* Marcia Reed, Paola Demattè, Getty Research Institute, 2011. Published to accompany the exhibition held at the Getty Research Institute, Nov 6 2007 to Feb 10 2008. **The Oxford Encyclopedia of Women in World History** Bonnie G. Smith, 2008. The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4-volume work. Although there has been extensive research on women in history by region, no text or reference work has comprehensively covered the role women have played throughout world history. The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe. Historians have investigated women's daily lives in virtually every region and have

researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike

Technology and Gender Francesca Bray, 2023-07-28 In this feminist history of eight centuries of private life in China Francesca Bray inserts women into the history of technology and adds technology to the history of women Bray takes issue with the Orientalist image that traditional Chinese women were imprisoned in the inner quarters deprived of freedom and dignity and so physically and morally deformed by footbinding and the tyrannies of patriarchy that they were incapable of productive work She proposes a concept of gynotechnics a set of everyday technologies that define women's roles as a creative new way to explore how societies translate moral and social principles into a web of material forms and bodily practices Bray examines three different aspects of domestic life in China tracing their developments from 1000 to 1800 A D She begins with the shell of domesticity the house focusing on how domestic space embodied hierarchies of gender She follows the shift in the textile industry from domestic production to commercial production Despite increasing emphasis on women's reproductive roles she argues this cannot be reduced to childbearing Female hierarchies within the family reinforced the power of wives whose responsibilities included ritual activities and financial management as well as the education of children In this feminist history of eight centuries of private life in China Francesca Bray inserts women into the history of technology and adds technology to the history of women Bray takes issue with the Orientalist image that traditional Chinese women were
