Serious Crimes:

The Nationality, Immigration and Asylum Act 2002 (Specification of Particularly Serious Crimes) Order 2004 Great Britain. Parliament. Joint Committee on Human Rights, 2004 The Committee's report considers concerns over the compatibility of the Order S I 2004 1910 ISBN 0110495802 made under the Nationality Immigration Asylum Act 2002 with the UK's international human rights obligations The Refugee Convention has established a general principle of non refoulement which prohibits the expulsion or return of a refugee to a country where his/her life might be threatened on account of race religion nationality or due to membership of a particular social group or political opinion The Convention allows an exception to this principle in cases where the person has been convicted of a particularly serious crime and is therefore deemed to be a danger to the general community of the host country The Order specifies a wide range of offences under the 2002 Act with the effect that anyone convicted of such an offence will have his asylum claim dismissed unless he/she can establish they are not a danger to the community The Committee finds that the Order as drafted is ultra vires the order making power because the wide range of offences specified go beyond the interpretation of particularly serious crimes intended by the Refugee Convention and therefore undermines the principle of non refoulement *Major and Serious Crime Investigations* Richard Carr, Colin Davies, 2025-02-28 This text explores the concept of major and serious crime investigations as it takes the reader through the fundamental elements of investigative theory and practice that are relevant to this area of criminality Unlike other texts that concentrate on either bespoke areas of criminality such as homicide terrorism or trends in concepts such as county lines this book recognises that the reader will be new to investigative study with little practitioner experience to anchor their learning By using the latest evidence based policing knowledge and critical thinking it explores the concepts of major and serious crime detailing key areas of legislation and how investigative strategies and decision making can influence successful outcomes Other topics examined in this text is the key areas of risk for major and serious crime investigations the impact on investigators the concept of disclosure investigative interviewing and how civil orders designed to tackle this type of criminality can provide a successful alternative to prosecution Both students and practitioners can find this book useful with this book's contemporary approach of using case studies and contemporary investigative examples relevant to the topic This book brings together academic theory and operational understanding of major and serious crime that provides learners with an easy to follow guide that they can keep returning to throughout their career

This book examines those guilty pleas and the methods used to obtain them presenting analyses of practices in Sierra Leone East Timor Cambodia Argentina Bosnia and Rwanda Although current plea bargaining practices may be theoretically unsupportable and can give rise to severe victim dissatisfaction the author argues that the practice is justified as a means of increasing the proportion of international offenders who can be prosecuted She then incorporates principles drawn from the domestic practice of restorative justice to construct a model guilty plea system to be used for international crimes
