apprehensive of Ku alin's intense power fearing physical and psychological turmoil Others seek it out hungry for experiences both spiritual and sensual But what does this story leave out What are its cultural and historical roots What do the many ways of experiencing Ku alin tell us about this elusive phenomenon The Serpent's Tale traces the intricate global histories of Ku alin from its Sanskrit origins to its popularity in the West Sravana Borkataky Varma and Anya Foxen explore its symbolic link with the serpent its fraught connections to sexuality and its commercialization in the form of Ku alin yoga Ranging from esoteric texts to global gurus from the cliffs of California to the charnel grounds of Assam they show that there has never been one single authentic model of Ku alin but a multiplicity of visions Bridging the gaps between textual and historical analysis and the complexities of embodied practice Borkataky Varma and Foxen reflect on the narration and transmission of experiences including their own Lively accessible and nuanced The Serpent's Tale offers rich insights for scholars practitioners and all readers drawn to Ku alin

izlaganje o Kundalini koje je obavezno itanje za svakoga ko je zainteresovan za ovu temu i duhovni rast The Superhumanities Jeffrey J. Kripal, 2022-09-23 A bold challenge to rethink the humanities as intimately connected to the superhuman and to decolonize reality itself What would happen if we reimagined the humanities as the superhumanities If we acknowledged and celebrated the undercurrent of the fantastic within our humanistic disciplines entirely new cultural worlds and meanings would become possible That is Jeffrey J Kripal s vision for the future to revive the suppressed dimension of the superhumanities which consists of rare but real altered states of knowledge that have driven the creative processes of many of our most revered authors artists and activists In Kripal s telling the history of the humanities is filled with precognitive dreams evolving superhumans and doubled selves The basic idea of the superhuman for Kripal is at the core of who and what the human species has tried to become over millennia and around the planet After diagnosing the basic malaise of the humanities that the truth must be depressing Kripal shows how it can all be done differently He argues that we have to decolonize reality itself if we are going to take human diversity seriously Toward this pluralist end he engages psychoanalytic Black critical feminist postcolonial queer and ecocritical theory He works through objections to the superhumanities while also recognizing the new realities represented by the contemporary sciences In doing so he tries to move beyond naysaying practices of critique toward a future that can embrace those critiques within a more holistic view a view that recognizes the human being as both a social political animal as well as an evolved cosmic species that understands and experiences itself as something super **Archaeologia**, 1895 **The Return of the Serpents of Wisdom** Mark Amaru Pinkham, 2011-03-10 According to ancient records the patriarchs and founders of the early civilizations in Egypt India China Peru Mesopotamia Britain and the Americas were colonized by the Serpents of Wisdom spiritual masters associated with the serpent who arrived in these lands after abandoning their beloved homelands and crossing great seas While bearing names denoting snake or dragon such as Naga Lung Djedhi Amaru Quetzalcoatl Adder etc these Serpents of Wisdom oversaw the construction of magnificent civilizations within which they and their descendants served as the priest kings and as the enlightened heads of mystery school traditions The Return of the Serpents of Wisdom recounts the history of these Serpents where they came from why they came the secret wisdom they disseminated and why they are returning now **The Roman Imperial Coinage: pt. 1. Valerian I-Florian** Harold Mattingly, Edward Allen Sydenham, 1927 Terrors of the Night John Robert Colombo, 2005-10-29 Terrors of the Night is a collection of more than 100 accounts of eerie events and weird experiences that have been recorded by Canadians over the last 400 years These incredible accounts come from all parts of the country and concern witchcraft peculiar weather conditions wild beasts hardly human creatures omens prophecies powers beyond ours miraculous cures and bizarre behaviour generally The narratives often in the words of witnesses themselves are taken from the columns of old newspapers journals and correspondence It is an engrossing and unsettling experience to read these stories because the reader keeps asking the question Could such things happen Mythical Beings

Serena Vaughn, AI, 2025-05-06 **Mythical Beings** explores the fascinating intersection of history and science examining how real world observations and cultural needs may have inspired the creation of mythological creatures The book posits that many of these beings aren't pure fantasy but rather stem from misidentified fossils misunderstood animal anatomy and the human need to personify abstract concepts For example the Cyclops myth may originate from misinterpreted elephant skulls while other creatures embody cultural anxieties and early scientific limitations The book delves into ancient texts artwork and archaeological findings from civilizations like Greece Rome and Egypt alongside insights from paleontology and anthropology It investigates how a lack of accurate information often fueled speculative interpretations of the natural world leading to the creation of creatures like the Griffin and Minotaur By examining these potential real world origins the book offers a deeper understanding of the societies that created these myths revealing their beliefs fears and understanding of the world The book progresses by first establishing a theoretical framework based on misidentification and symbolic representation Then it examines specific case studies such as the Cyclops exploring potential origins in fossil discoveries and cultural narratives Finally it broadens the scope to analyze how widespread environmental phenomena and cultural archetypes contributed to similar mythical creatures across different cultures before reflecting on the lasting influence of these creatures on contemporary culture

Miracle and Mission James A. Kelhoffer, 2000 The Longer Ending of the Gospel of Mark Mark 16 9 20 was appended to the Gospel of Mark in the first half of the second century James A Kelhoffer explores this passage's distinct witness to the use of gospel traditions and the development of Christian thought Concerning the origin of this passage he argues that a single author made use of the New Testament Gospels in forging a more satisfactory ending to Mark He studies the passage's sometimes innovative literary forms as well Also of interest is the passage's claim that the ascended Lord will help those who believe to perform miraculous signs casting out demons speaking in new languages picking up snakes drinking poison with impunity and healing the sick when they preach the gospel verses 17 18 20 This expectation is compared with portraits of miracles especially in the context of mission in the New Testament various apocryphal acts and Christian apologists of the second and third centuries In the two final chapters the author interprets the signs of picking up snakes verse 18a and drinking a deadly substance with impunity verse 18b in their history of religions contexts An Epilogue summarizes the findings of this study and explores what can be ascertained about the otherwise unknown Christian author of Mark 16 9 20
