Sequels Janet Husband, Jonathan F. Husband, 1997 Sequels the most popular and long lasting guide to novels in series returns with greatly expanded series listings. Mysteries continue to be a mainstay with fantasy, science fiction and romance listings plus non genre fiction selections from authors such as Edward Abbey and Lawrence Durrell. The authors have carefully sifted through a growing group of series to select those most likely to be available in a medium sized public library, weeding out esoteric, obscure and less popular series. This classic reference includes hundreds of annotated series title and subject indexes and suggestions for reading order. Library professionals will find Answers to the perennial question What should I read next? Guidance on the chronology of a series. Easy to use tools to identify novels by character, setting and author. The definitive resource for novels in series. Including series started since 1989 and updated through 2007. Sequels will be the most complete resource for general readers and library patrons as well as readers advisors, public university and high school reference librarians, acquisition and collection management librarians and even bookstore staff and book reviewers. The expanded Sequels 4th edition will become the RA and reference librarian's resource of choice. Fantasy Literature for Children and Young Adults Ruth Nadelman Lynn, 2005-03-30 Bibliographic information, grade level and annotations for nearly 7,500 fantasy books for grades 3-12 are given. The introduction discusses the history of fantasy and awards presented to fantasy titles are listed. **The Publishers' Trade List Annual**, 1995 **Twice Seven** Ben Bova, 1998 From his acclaimed bestseller Mars to his phenomenal Moonbase Saga, Ben Bova deftly uses the mysterious possibilities of science and technology to create science fiction that astonishes and captivates readers. Here are 14 exhilarating stories, each a shining testament to this award winning author's uncommon talent as a master storyteller. **The Dark Shore** Adam Lee, 1998 The first entry in an epic adventure trilogy from a distinctive new voice in fantasy fiction. Once a city floated regally among the clouds. It is gone, its citizens slain, its few remaining children scattered by the winds. All that is good has been crushed. But there are those who survive and remember those who still revere the magic that failed them all. The highborn and lowly, a handful allied against the most terrible force ever massed, dedicate themselves to the impossible salvation of their home, their Earth. *Brinkman's cumulatieve catalogus van boeken*, 2002 Voorts een alfabetische lijst van Nederlandsche boeken in
