Ingrid H. Tague

Servant Of Quality:

Women of Quality Ingrid H. Tague, 2002 An examination of the interaction between ideology and experience in the lives of English women during a period of great social and intellectual change Focusing on the complex relationship between discourse and experience *Women of Quality* examines the role of gender in aristocratic women's daily lives during a period of significant cultural change In the years following the Glorious Revolution didactic writers and other social critics responded to a perceived crisis of gender relations by creating a new discourse of natural feminine behavior in opposition to the luxury and decadence of fashionable women Modern scholars have often portrayed this agenda as representing the rise of a middle class ideology but Ingrid Tague argues that the new rhetoric held enormous appeal for those women who would appear to be its greatest targets wealthy fashionable women of quality Using the correspondence and diaries of these women Tague traces the ways in which they adopted adapted and exploited ideals of femininity In their hands feminine values could become powerful tools that enabled them to compete for status and reputation Ironically by identifying femininity with private trivial concerns these ideals created unique opportunities for elite women Female participation in informal social and political activities placed women at the heart of aristocratic power in the early eighteenth century even as they employed the language of wifely subordination and domesticity Ingrid Tague is Assistant Professor of History at the University of Denver

Dignaga on the Interpretation of Signs R.P. Hayes,1988-02-29 Buddhist philosophy in India in the early sixth century C E took an important turn away from the traditional methods of explaining and systematizing the teachings in Sutra literature that were attributed to the Buddha The new direction in which several Indian Buddhist philosophers began to move was that of following reasoning to its natural conclusions regardless whether the conclusions conflicted with traditional teachings The central figure in this new movement was Dignaga a native of South India who found his way to the centre of Buddhist education at Nalanda studied the treatises that were learned by the Buddhist intellectuals of his day and eventually wrote works of his own that formed the core of a distinctly new school of Buddhist thought Inasmuch as virtually every Indian philosopher after the sixth century had either to reject Dignaga's methods or build upon the foundations provided by his investigations into logic epistemology and language his influence on the evolution of Indian philosophy was considerable and indeed some familiarity with Dignaga's arguments and conclusions is indispensable for anyone who wishes to understand the historical development of Indian thought Moreover since the approach to Buddhism that grew out of Dignaga's meditations on language and the limits of knowledge dominated the minds of many of the scholars who took Buddhism to Tibet some familiarity with Dignaga is also essential to those who wish to understand the intellectual infrastructure of Tibetan Buddhist philosophy and practice
