Servants Not Masters:

A Treatise on the Law of Master and Servant Charles Manley Smith,1860 **Handbook of the Law relative to Masters, Workmen, Servants & Apprentices, in all Trades & Occupations** Alexander Macdonald,1868 Laws Concerning Masters and Servants Gentleman of the Inner Temple,1768 **Invisible Masters** Elisabeth Ceppi,2018-07-03

Invisible Masters rewrites the familiar narrative of the relation between Puritan religious culture and New England's economic culture as a history of the primary discourse that connected them. The understanding early Puritans had of themselves as God's servants and earthly masters was shaped by their immersion in an Atlantic culture of service and the worldly pressures and opportunities generated by New England's particular place in it. Concepts of spiritual service and mastery determined Puritan views of the men, women and children who were servants and slaves in that world. So too did these concepts shape the experience of family labor law and economy for those men, women and children, the very bedrock of their lives. This strikingly original look at Puritan culture will appeal to a wide range of Americanists and historians.

Exploitation is a globally pervasive phenomenon. Slavery, serfdom and the patriarchy are part of its lineage. Temporary and sex workers, commercial surrogacy, precarious labour contracts, sweatshops and markets in blood, vaccines or human organs are some contemporary manifestations of exploitation. What makes these exploitative transactions

unjust And is capitalism inherently exploitative This book offers answers to these two questions Nicholas Vrousalis argues that exploitation is a form of domination self enrichment through the domination of others On the domination view exploitation complaints are not fundamentally about harm coercion or unfairness Rather they are about who serves whom and why Exploitation in a word is a dividend of servitude the dividend the powerful extract from the servitude of the vulnerable Vrousalis claims that this servitude is inherent to capitalist relations between consenting adults whereby capital is monetary control over the labour capacity of others It follows that capitalism the mode of production where capital predominates is an inherently unjust social structure **Acts and Laws of the State of Connecticut in America**
