The Publishers' Circular and Booksellers' Record, 1928 **Color** Victoria Finlay, 2007-12-18 In this vivid and captivating journey through the colors of an artist's palette Victoria Finlay takes us on an enthralling adventure around the world and through the ages illuminating how the colors we choose to value have determined the history of culture itself How did the most precious color blue travel all the way from remote lapis mines in Afghanistan to Michelangelo's brush What is the connection between brown paint and ancient Egyptian mummies Why did Robin Hood wear Lincoln green In *Color* Finlay explores the physical materials that color our world such as precious minerals and insect blood as well as the social and political meanings that color has carried through time Roman emperors used to wear togas dyed with a purple color that was made from an odorous Lebanese shellfish which probably meant their scent preceded them In the eighteenth century black dye was called logwood and grew along the Spanish Main Some of the first indigo plantations were started in America amazingly enough by a seventeen year old girl named Eliza And the popular van Gogh painting *White Roses* at Washington's National Gallery had to be renamed after a researcher discovered that the flowers were originally done in a pink paint that had faded nearly a century ago *Color* is full of extraordinary people events and anecdotes painted all the more dazzling by Finlay's engaging style Embark upon a thrilling adventure with this intrepid journalist as she travels on a donkey along ancient silk trade routes with the Phoenicians sailing the Mediterranean in search of a special purple shell that garners wealth sustenance and prestige with modern Chilean farmers breeding and bleeding insects for their viscous red blood The colors that craft our world have never looked so bright *Fodor's in Focus Napa and Sonoma, 1st Edition*

To Advance the Race Linda M. Perkins, 2024-04-09 From the United States earliest days African Americans considered education essential for their freedom and progress Linda M Perkins's study ranges across educational and geographical settings to tell the stories of Black women and girls as students professors and administrators Beginning with early efforts and the establishment of abolitionist colleges Perkins follows the history of Black women's post Civil War experiences at elite white schools and public universities in northern and midwestern states Their presence in Black institutions like Howard University marked another advancement as did Black women becoming professors and administrators But such progress

intersected with race and education in the postwar era As gender questions sparked conflict between educated Black women and Black men it forced the former to contend with traditional notions of women s roles even as the 1960s opened educational opportunities for all African Americans A first of its kind history To Advance the Race is an enlightening look at African American women and their multi generational commitment to the ideal of education as a collective achievement
