The Long Journey Russell Cederberg, 2022-09-23 Just hours after the travelers arrive back in Florida from their last adventure they receive an impassioned request for their immediate return They choose to step back through the mysterious portal and then find themselves immersed in an adventure that will include a long journey from Denmark to Constantinople and back They are traveling with many of their old friends developing new ones and living an experience that is filled with deadly battles and imprisonment as well as daring rescues and impossible reunions that will test and stretch each one of them and eventually reveal many of the deeper truths about who they are and what they have in life The Long Journey is a story about the difficulties we must face and then fully embrace in our lives when we begin to discover what our strengths and weaknesses actually are Discovering who you are and what you have is a long journey that can last a lifetime and excelling in your gifts skills and calling can actually cost you everything This story is also a reminder of the absolute necessity of developing and maintaining trusting relationships and the important places that trusted friends occupy as we travel on our own long journey

Calder, Jonathan Lamb, Bridget Orr, 1999-04-01 What actually happened as Europeans and peoples of the Pacific discovered each other How have their respective senses of the past influenced their understanding of the present And what are the consequences of their meeting In this collection of essays scholars from European Polynesian and Settler backgrounds provide answers to these questions Writing from and between a variety of disciplines history anthropology Maori Studies literary criticism law cultural studies art history Pacific Studies they show how the Pacific reveals a more various and contradictory history than that supposed by such homogenizing metropolitan myths as the introduction of civilization to savage peoples the general ruin of indigenous cultures by an imperial juggernaut or the mimicry of European models by an abject population They examine contact from both sides of beaches throughout Polynesia exposing the many inconsistencies from which Pacific history is made Some of the essays consider the extent to which traditional European ideas about organizing and legitimizing claims to territory and power were invoked and problematized in the South Pacific some consider the violence endemic in such scenes others examine the aesthetic discourses with which early travelers and settlers attempted to make sense of the Pacific in the aftermath of discovery But rather than reiterate the myths and anti myths of conquest these essays show how local differences have made and do make a difference They emphasize the Pacific's capacity to absorb and transform the impact of Europe an impact that has been as notable for its ambivalence and confusion as for its single minded pursuit of hegemony The editors develop these themes in a wide ranging introduction that relates Pacific concerns to a more global set of theoretical and methodological problems including current work in post colonial and subaltern studies Cross-Cultural Design.
