Keepers of the Code Robert Lecker, 2013-02-07 Keepers of the Code explores the complex network of associations and negotiations that influenced the development of literary anthologies in English Canada from 1837 to the present Lecker shows that these anthologies are deeply conflicted narratives that embody the tensions and anxieties felt by their editors when faced with the challenge of constructing or rejecting national ideals He argues that these are intensely self conscious works with their own literary mechanisms and architecture In reading the history of these anthologies he witnesses a

complex narrative of nation a compelling story about the values and interests informing English Canadian literary history

Albrecht Classen, 2012-05-29 Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic **Romantic Period Writings 1798-1832: An Anthology** Ian Haywood, Zachary
