Pupils in Transition John

Gardner, Professor Gill Nicholls, 2013-03-07 Focusing on the move from primary to secondary school this book aims to help teachers and school managers to recognize and deal with the often traumatic effects that this transition has on young people's lives. The book explores the links between primary and secondary curricula, offers specific advice on how to meet the needs of children in transition, provides materials for investigating transition which will enable schools to identify the strengths and weaknesses in their approach.

National Curriculum Assessment Richard Daugherty, 2004-06-01 The assessment of the National Curriculum has evolved from the first blueprint of the TGAT Report through a series of policy decisions and early experience of implementation. The pace of change, the complexity of the proposed assessment system and the political rhetoric associated with it have served to confuse and so obscure the trends in policy and practice. This book offers an account of that system and explains why it is now emerging in a substantially different form from that envisaged by its originators.

CEF A1. *Making Sense of Secondary Science* Rosalind Driver, Peter Rushworth, Ann Squires, Valerie Wood-Robinson, 2004-03-10 When children begin secondary school they already have knowledge and ideas about many aspects of the natural world from their experiences both in primary classes and outside school. This collection of support materials is designed especially for teachers of the early years in secondary school to give guidance both on the ideas which children are likely to bring with them and also on using these ideas to help pupils to make sense of their experiences in science lessons. The materials are in 24 sections structured around three themes: life and living processes, materials and their properties and physical processes. Included in each section is a science map identifying key science ideas and also a set of learning guides which give detailed advice on helping children to develop these ideas. Written in

collaboration with teachers field tested in schools and suitable for use with any published science scheme these materials will be an essential resource for all science teachers who are planning teaching schemes and developing science lessons within the National Curriculum A separate paperback Making Sense of Secondary Science Research into Children s Ideas comes with the file and is also available separately This provides a summary of research in the area and a detailed bibliography for those who want to pursue certain aspects further
