Looking at Nature Elsie Proctor, 1963 **My First Girlfriend Nature** Satyendra Sonkar, 2017-01-15 The author's first girlfriend nature is the first part of the book He is explaining the beauty of nature The beauty of nature is too beautiful and is never understood by the stupid humans Nature is being polluted by human beings Too much increase of the earth's temperature is a very critical situation for human beings The ice glaciers are melting due to global warming Forests rivers and seas are destroyed by humans alone The beautiful nature is weeping many times but nature can get angry and destroy everything in a second The author warns us that it may be 2099 and the entire country may be covered by sea or big earthquakes may occur These predictions have been made by some scientists In modern times love and humanity are dying Nature is weeping and upset while the humans are fighting each other The conditions are not good for surviving on the earth His philosophy is to change the human nature and love the beautiful nature The best and most beautiful things in the world cannot be seen or even touched they must be felt with the heart In the second part of the book the name of the story is Anunnaki They came from heaven It deals with the real story of human life in the 5000 BC how human race came on earth The author also tries to explain why the Anunnaki is disappeared This story is too mysterious The history of science and technology and philosophy are used in his books The Anunnaki came to earth and they spread more knowledge science and technology and provided good culture The humans gained too much from them The Anunnaki had long wings and flew in the sky The Anunnaki is the most thrilling topic The new SUPERHERO COMES IN INDIA IT MAY BE 2099 WHEN THE ANUNNAKI COMES BACK TO EARTH

[The Reflexive Nature of Consciousness](#) Greg Janzen, 2008-03-27 Combining phenomenological insights from Brentano and Sartre but also drawing on recent work on consciousness by analytic philosophers this book defends the view that conscious states are reflexive and necessarily so i.e. that they have a built in implicit awareness of their own occurrence such that the subject of a conscious state has an immediate non objectual acquaintance with it As part of this investigation the book also explores the relationship between reflexivity and the phenomenal or what it is like dimension of conscious experience defending the innovative thesis that phenomenal character is constituted by the implicit self awareness built into every conscious state This account stands in marked contrast to most influential extant theories of phenomenal character including qualia theories according to which phenomenal character is a matter of having phenomenal sensations and representationalism according to which phenomenal
