conflicted relationships between humans and the American continent as experienced by Native Americans and European Americans Taken together these essays offer a fresh perspective on the roots of environmental literature in nineteenth century American nonfiction fiction and poetry as well as in multi genre compositions such as the travel writings of Margaret Fuller Bringing largely forgotten voices such as John Godman alongside canonical voices such as Nathaniel Hawthorne Herman Melville Walt Whitman and Emily Dickinson the authors whose writings are studied in this collection produced a diverse tapestry of nascent American environmental writing in the nineteenth century From early nineteenth century writers such as poet Philip Freneau and novelist Charles Brockden Brown to later nineteenth century conservationists such as John James Audubon and John Muir *Scribes of Nature* shows the development of an environmental consciousness and a growing conservationist ethos in American literature Given their often surprisingly healthy respect for the natural environment these nineteenth century writers offer us much to consider in an age of environmental crisis The complexities of the supposed nature culture divide still work into our lives today as economic and environmental issues are often seen at loggerheads when they ought to be seen as part of the same conversation of what it means to live healthy lives and to pass on a healthy world to those who follow us in a world where human activity is becoming increasingly threatening to the health of our planet

Nicholas ,1878 **Camarade** Theo Dorgan,2025-06-12 All things considered I wonder if shooting that policeman made me the man that I am In this masterful new work award winning author Theo Dorgan has written a philosophical thriller of extraordinary depth An Irishman in Paris considers the weight and impact of a single violent act that forced him to flee Ireland forty years ago When Vincent a young Algerian friend suggests Joseph should write his life story Joseph embarks on a self examination that will lay bare perhaps only to himself a singular and surprising life Set against the evocative backdrops of Paris and Cork *Camarade* explores a life shaped by one fateful moment and the quiet violence of self reckoning The story unfolds in a dual timeline Joseph s present day existence in Paris with its muted rhythms and introspective solitude and his youth in 1960s Ireland raised on his grandfather s stories of the Flying Column and revolution After one violent act Joseph finds himself exiled in France during the turbulent decades of the Algerian Crisis and May 68 where he discovers comradeship unexpected freedom in careful neutrality As Joseph writes he confronts the central question of his life did a single act of life changing violence make him who he is or was he always destined to become this man Written in precise contemplative prose *Camarade* examines how we construct meaning from our past while questioning the nature of authenticity and self awareness At once an intimate character study a meditation on history violence and the enduring impact of our choices This novel asks us to consider the space between who we imagine we are destined to be and who we

eventually become *Moving* with the tension of a thriller while exploring profound philosophical questions Camarade confirms Theo Dorgan's place as one of our most thoughtful and elegant literary voices *English Teaching Forum* ,1963
