International Development Research Centre (Canada),2006 **A Gender Perspective of Municipal Solid Waste**

Generation and Management in the City of Bamenda, Cameroon Kien, Akum Hedwig,2018-11-02 The management of urban waste constitutes one of the major environmental challenges facing African cities in general and Cameroon in particular Unprecedented population growth and changes in consumption patterns and lifestyles have led to increased waste generation Municipal solid waste management efforts lag behind the rate of waste generation with attendant environmental and public health risks The activities the gender dynamics and politics at the pools of waste generation particularly the households and markets largely influence the outcome of waste management strategies and policies This book brings out the gender dimension of municipal solid waste generation and management in the City of Bamenda It is hoped that the findings revealed and proposals made from the study will be employed by municipal authorities in Cameroon and beyond to enhance

waste management efforts *Handbook on Urban Food Security in the Global South* Jonathan Crush, Bruce Frayne, Gareth Haysom, 2020-12-25 The ways in which the rapid urbanization of the Global South is transforming food systems and food supply chains and the food security of urban populations is an often neglected topic This international group of authors addresses this profound transformation from a variety of different perspectives and disciplinary lenses providing an important corrective to the dominant view that food insecurity is a rural problem requiring increases in agricultural production *The Geographies of Garbage Governance* Anna R. Davies, 2016-03-03 Previously perceived as a local technical issue for governments waste management is now also a global socio political process involving complex patterns of multi level governance Yet these geographical complexities have not previously been considered in any detail This book examines the neglected geographies of waste management in particular the integral processes of trans localization and politicization that are emerging in waste networks Illustrated by in depth case studies from New Zealand and Ireland it critically analyzes the interaction between political scales of governing waste from the local to the supra national level It also looks at the impact of wider systems of governance civil society and the private sector on waste management policy and practices In doing so the book provides a better understanding of waste governance and recommendations for better management of the waste sector in the future *Environmental Management and Sustainable Development of Cities* Soji Oyeranmi, 2023-11-25 This study contends that proper urban environmental management strategies are vital to the sustainable development of cities in any country It demonstrates that cities as drivers of sustainable development can be positive forces in support of social equality cultural vitality economic prosperity and environmental sustainability It takes a primary focus on Ibadan Nigeria Most cities in sub Saharan Africa have become badly degraded Leaders and planners rarely fully grasp the meaning of the concept of sustainable development and fail to combine their bids to achieve economic development with urban environmental management strategies The book describes how reformation and transformation are still possible in Ibadan and elsewhere and discusses the Sustainable Ibadan Project SIP as a methodology to turn Ibadan into a globally competitive and sustainable city It will be of interest to urban planners worldwide and to researchers and students of the Global South

Integrated Watershed Management E. Beheim, G.S. Rajwar, M. Haigh, J. Krecek, 2012-03-05 Headwaters are fragile environments threatened by anthropogenic actions The regeneration of headwaters calls for a practical approach through integrated environmental management This book discusses various issues concerning headwater regions of the world under wide ranging themes climate change impacts vegetal cover sub surface hydrology catchment and streamflow hydrology pollution water quality and limnology remote sensing and GIS environmental impact assessment and mitigation socio economic impacts public participation education and management and integrated watershed management This book aims to bring about an awareness in sustainable regeneration of headwater regions and particularly highlighting the problems of environmental management in highlands and headwaters These regions consist of great reserves of natural resources which

need to be exploited and managed sustainably *Regional Development in Africa* Norbert Edomah, 2020-08-19 Regional development is a broad term but can be seen as a general effort to reduce regional disparities by supporting employment and wealth generating economic activities in regions In the past regional development policy tended to try to achieve these objectives by means of large scale infrastructure development and by attracting inward investment OECD 2014 A territorial and regional approach to development is crucial in addressing regional challenges regional economic competitiveness and reducing socio economic discrepancies This book provides a forum to articulate and discuss Africa s regional development issues in view of the rising opportunities within the African region This volume contains 14 chapters and is organized in four sections Introduction Industry Trade and Investment in Africa Agricultural Services and the Water energy food Nexus in Africa and Environmental and Cultural Dimensions to Africa s Regional Development *Africa* Tony Binns, Etienne Nel, Alan Dixon, 2012-01-11 For many Africa is regarded as a place of mystery and negative images where reports of natural disasters and civil strife dominate media attention with relatively little publicity given to any of the continent s more positive attributes Africa has at last begun to receive the depth of interest it has long deserved in the shape of debates about trade aid and debt the Make Poverty History campaign and the UK s Commission on Africa But behind the superficial media facade Africa is a diverse complex and dynamic place with a rich history and a colonial engagement that although short lived was fundamental in determining the long term future of the continent At the start of the second decade of the twenty first century when the world is engulfed in a major financial crisis Africa has the dubious distinction of being the world s poorest continent This book introduces and demystifies Africa s diversity and dynamism and considers how its peoples and environments have interacted through time and space The background and diversity of Africa s social cultural economic political and environmental systems is examined as well as key development issues which have affected Africa in the past and are likely to be significant in shaping the future of the continent These include the impact of HIV AIDS sources of conflict and post conflict reconstruction the state and governance the nature of African economies in a global context and future development trajectories *Africa Diversity and Development* is a refreshing interdisciplinary text which enhances understanding of the background to Africa s current position and clarifies possible future scenarios It is richly illustrated throughout with diagrams and plates and contains a wealth of detailed case studies and current data *Resource Recovery from Waste* Miriam Otoo, Pay Drechsel, 2018-03-20 Humans generate millions of tons of waste every day This waste is rich in water nutrients energy and organic compounds Yet waste is not being managed in a way that permits us to derive value from its reuse whilst millions of farmers struggle with depleted soils and lack of water This book shows how Resource Recovery and Reuse RRR could create livelihoods enhance food security support green economies reduce waste and contribute to cost recovery in the sanitation chain While many RRR projects fully depend on subsidies and hardly survive their pilot phase hopeful signs of viable approaches to RRR are emerging around the globe including low and middle income countries These

enterprises or projects are tapping into entrepreneurial initiatives and public private partnerships leveraging private capital to help realize commercial or social value shifting the focus from treatment for waste disposal to treatment of waste as a valuable resource for safe reuse The book provides a compendium of business options for energy nutrients and water recovery via 24 innovative business models based on an in depth analysis of over 60 empirical cases of which 47 from around the world are described and evaluated in a systematic way The focus is on organic municipal agro industrial and food waste including fecal sludge supporting a diverse range of business models with potential for large scale out and up scaling

Urban Groundwater Pollution David Lerner,2003-01-01 More than 50% of the world s population already live in cities and the proportion is rising extremely rapidly towards developed country levels of more than 90% Groundwater from wells is the major source of water supply for many of these cities however groundwater is polluted by the cities that overlie it and sewerage systems are oft

Sustainable Development and Planning VII Ö. Özçevik,C.A. Brebbia,S.M. Şener,2015-05-19 This book contains the proceedings of the seventh in a series of biennial conferences on the topic of sustainable regional development that began in 2003 Organised by the Wessex Institute the conference series provides a common forum for all scientists specialising in the range of subjects included within sustainable development and planning In order to ensure that planning and development can meet our present needs without compromising future generations planners environmentalists architects engineers policy makers and economists must work together The use of modern technologies in planning gives us new potential to monitor and prevent environmental degradation In recent years in many countries an increase in spatial problems has led to planning crises Planning problems are often associated with uneven development deterioration of the quality of urban life and destruction of the environment The increasing urbanisation of the world coupled with the global issues of environmental pollution resource shortage and economic restructuring demand that we ensure a decent quality of life for our cities Other environments such as rural areas forests coastal regions and mountains face their own problems that urgently require solutions in order to avoid irreversible damage Effective strategies for management should consider planning and regional development two closely related disciplines and emphasise the demand to handle these matters in an integrated way The papers in the book cover such topics as Regional Planning City Planning Sustainability and the Built Environment Cultural Heritage Environmental Management Environmental Policies and Planning Sustainable Tourism Resources Management Social and Political Issues Rural Developments Sustainable Solutions in Emerging Countries Transportation Energy Resources Environmental Economics Sustainable Assessment Sustainable Development Indicators Sustainability Modelling Governance Resilience Community Planning Planning for Equality Quality of Life [Afro-Eurasia: Assessing Sustainability](#) Ray C. Anderson,Louis KotzÃ©,Stephen Morse,2012-10-31 Afro Eurasia Assessing Sustainability focuses on the geographic area where humans originated and first began to make use of the natural world Earth s largest landmass stretching from Portugal in the west across the steppes of Russia and south across Africa to the Cape of Good Hope

By examining the history of human expansion as well as 21st century pressures to address ecosystem damage across the region international scholars and regional experts weave sustainability into core curricular subjects The interdisciplinary coverage includes national and regional environmental histories as well as business and commerce migration educational institutions law and government and the lifestyles of diverse populations **The Peri-Urban Interface** Duncan

McGregor,David Simon,Donald Thompson,2012-04-27 Peri urban interfaces the zones where urban and rural areas meet suffer from the greatest problems to humans caused by rapid urbanization including intense pressures on resources slum formation lack of adequate services such as water and sanitation poor planning and degradation of farmland These areas home to hundreds of millions of people face unique problems and need distinctive and innovative approaches and solutions This book authored by top researchers and practitioners covers the full breadth and depth of the impacts of rapid urbanization on livelihoods poverty and resources in the peri urban zones in diverse African Asian Latin American and Caribbean contexts Topics include peri urban resource sustainability ecosystems and societies and environmental changes in peri urban zones Rich case studies cover production systems and livelihoods including the impacts of irrigated vegetable production horticulture dairy enterprises waste fed fisheries and pastoral livelihoods Also addressed are planning and development issues in the peri urban interface including the difficulty in achieving sustainability conflict and cooperation over resources and a fresh look at the relationship between people and their environment The final part of the book presents policies and strategies for promoting and measuring sustainability in peri urban zones including community based waste management the co management of watersheds and empowerment of the poor This book is the most comprehensive examination of the challenges and solutions facing the people and environments of peri urban zones and is essential reading for all practitioners students and academics in geography and development **Africa Environment Outlook 2** United

Nations Environment Programme,2006 This is the second comprehensive report on the state of Africa s environment produced in collaboration with the African Ministerial Conference on the Environment AMCEN This report highlights the central position Africa s environment continues to play in sustainable development as well as its potential to achieve progress in the implementation of the Millennium Development Goals The report profiles Africa s environmental resources as an asset for the continent s development It highlights the opportunities presented by the region s natural resource base to support the continent s development It also underscores the concept of sustainable livelihoods and the importance of the environmental initiatives in supporting them **Confronting Consumption** Thomas Princen,Michael Maniates,Ken Conca,2002-06-21

Comforting terms such as sustainable development and green production frame environmental debate by stressing technology not green enough economic growth not enough in the right places and population too large Concern about consumption emerges if at all in benign ways as calls for green purchasing or more recycling or for small changes in production processes Many academics policymakers and journalists in fact accept the economists view of consumption as

nothing less than the purpose of the economy Yet many people have a troubled intuitive understanding that tinkering at the margins of production and purchasing will not put society on an ecologically and socially sustainable path Confronting Consumption places consumption at the center of debate by conceptualizing the consumption problem and documenting diverse efforts to confront it In Part 1 the book frames consumption as a problem of political and ecological economy emphasizing core concepts of individualization and commoditization Part 2 develops the idea of distancing and examines transnational chains of consumption in the context of economic globalization Part 3 describes citizen action through local currencies home power voluntary simplicity ad busting and product certification Together the chapters propose cautious consuming and better producing as an activist and policy response to environmental problems The book concludes that confronting consumption must become a driving focus of contemporary environmental scholarship and activism

The World's Scavengers Martin Medina,2007 A fascinating analysis of the world s scavengers as performing an important economic role in the production and consumption of food

The African Informal Economy ,2024-06-17 The informal sector is a vital sustainer of the African economy employing more than 60% of sub Saharan Africans The book examines diverse segments of the informal sector putting into consideration their structure dynamics resilience and gender issues Chapters are based on empirical research on women in the transport sector vehicle maintenance artisanship graduates in the informal sector COVID 19 and the informal economy Other chapters focus on the indigenous usury finance system coconut oil production herbal medicine and the gig economy across countries including Nigeria Kenya Ghana Togo and Burkina Faso

Good Governance in Nigeria Portia Roelofs,2023-04-20 Drawing on original fieldwork in Nigeria Portia Roelofs argues for an innovative re conceptualisation of good governance Contributing to debates around technocracy populism and the survival of democracy amidst conditions of inequality and mistrust Roelofs offers a new account of what it means for leaders to be accountable and transparent Centred on the rise of the Lagos Model in the Yoruba south west this book places the voices of roadside traders and small time market leaders alongside those of local government officials political godfathers and technocrats In doing so it theorises socially embedded good governance Roelofs demonstrates the value of fieldwork for political theory and the associated possibilities for decolonising the study of politics Challenging the long held assumptions of the World Bank and other international institutions that African political systems are pathologically dysfunctional Roelofs demonstrates that politics in Nigeria has much to teach us about good governance
