ManagingNonprofits.org Ben Hecht, Rey Ramsey, 2002-02-26 Nonprofit managers have been slow to embrace the digital age Although technology has transformed the face of the for profit sector and how it operates nonprofit use of technology to improve internal functioning and to change the way services are delivered is almost nonexistent These limitations actually have opened the door for for profits to compete successfully for traditional nonprofit business such as moving people from welfare to work ManagingNonprofits.org is both a call to action and a roadmap for change Each chapter defines an element of Dynamic Management and identifies digital hotspots or places within that element and the nonprofit's implementation of that element where digital issues will most likely arise and need to be addressed In addition at the end of each chapter Maxims of Dynamic Management or core truths that the authors have found helpful to follow in their day to day experience as nonprofit leaders in bringing Dynamic Management to their organization are provided Finally the authors highlight the experience of various nonprofit and for profit organizations that have successfully made elements of Dynamic Management a reality in their organizations

Performance Measurement in Non-Profit Organizations Patrizia Gazzola, Stefano Amelio, 2022-09-26 Performance Measurement in Non Profit Organizations The Road to Integrated Reporting addresses the issue of performance measurement in nonprofit companies with the aim of defining a system of useful measures to understand manage and improve the performance of such companies by employing systems theory to examine their conditions of existence and manifestations of life From the proposed company model follows that the system of performance measures should make it possible to keep under control both the productive transformation with the physical technical efficiency indicators and the economic transformation with the economic efficiency indicators and the financial transformation with the financial efficiency

indicators and finally the managerial transformation with the effectiveness indicators taking into account the degree of satisfaction of the expectations of the main categories of company stakeholders Readers will understand that economic analysis alone is not sufficient to assess the performance of such organizations but it is necessary to unite it with the analysis of sustainability dimensions It would therefore be appropriate to draw up an integrated report that combines the economic and financial dimensions with the pillars of sustainability as in the case of companies in the second sector There is a gap in the literature in this area that this book aims to fill making it a valuable resource to researchers academics and advanced students interested in performance evaluation of NPOs

Economics for the Twenty-first Century: The Economics of the Economist-fox Andrew M. Kamarck, 2017-09-08 This title was first published in 2001 To be effective economics must take into consideration the complex nature of human beings and the contextual institutional social and historical factors at play This text is designed to help economists to be economic foxes by increasing the range of economists tools drawing on the knowledge and experience of other disciplines to cope better with the extraordinary complexity of the modern economy The objective is to provide the same kind of revelation in understanding an economy that an artist possesses in the visual arts A beginner looking at a still life sees a green bottle a red apple and a yellow cloth on a table top An artist however can point out to him all the nuances of colour Following a rapid dissection of the canonical hypotheses of contemporary economic theory different sectors of the real economy are explored the corporation corporate governance services the public sector civil society professions social capital national cultures and the tropics
